- The cutout width can be no more than 1 1/2" less than the overall cabinet width, this leaves a minimum of 3/4" for each frame stile (left and right). Example: 30" wide cabinets, the largest cutout width allowable is 28 1/2".
- 3" rail above and below cutout.
- Number of shelves in the upper section of Tall Oven Cabinets will vary according to the opening size. This opening is determined by the oven cutout and height off the floor specifications.
- Drawers will be equal height unless otherwise specified.
- Cutout back at oven opening.
- Toe base shipped loose for cabinets 90" tall and taller.
- See template page for more details.

- Price per rollout shelf
 - Rollout height designates actual height of decorative fronts, drawer box is approximately 1" less in height.
 - Adjustable natural maple rollout shelves with epoxy coated drawer glides on wood pilasters. If the rollout and its components need to have the specie and finish match the interior of a cabinet with a MWI modification, a quote must be submitted prior to the order being placed for correct pricing and material availability.
 - Dovetail construction
 - Adding rollouts to any cabinets will cancel all adjustable shelves in that section of the cabinet. Specify when needing adjustable shelves and rollouts in same section.
 - Not recommended for cabinets less than 15" wide. Not available for cabinets less than 9" wide or 12" deep.
- **Note: when using combination of rollouts and adjustable shelves in the same opening, rollouts will always be located at bottom of section unless otherwise specified.

Rollout Installation Guidelines

We have classified the addition of rollouts into two different categories based on usage. First, adding rollouts to wall cabinets or an upper portion of any cabinet, will be based on the same set of rules. (Upper portion is defined as any section of any cabinet which also has a lower opening.) Then, the addition of rollouts to base cabinets and the lower portion of tall cabinets will be based on another set of rules.

1. Rollouts in wall units and upper portions of tall or base units. (Sink base cabinets will follow this same set of rules.)
 - a. When adding a **single rollout**, the rollout will be permanently mounted to the floor in that section, utilizing our Blumotion full extension under-mount glides.
 - b. Also, when adding a **single rollout**, the quantity of adjustable shelves in that section will remain the same.
 - c. When adding **more than one rollout** to a section all adjustable shelves will be deleted. When adding adjustable shelves back into the opening, each shelf will be notched to accept the ladders which are installed for the rollouts.
 - d. Also, when adding **more than one rollout** to a section our standard rollout ladder configuration (ladders and sticks) will be utilized by installing the ladders full height in the interior of that section. (Full height is full usable height determined by Brighton.)
2. Rollouts in base units and lower openings of tall cabinets. (Except sink base cabinets.)
 - a. When adding a **single rollout** or **more than one rollout**, our standard rollout ladder configuration (ladders and sticks) will be utilized by installing the ladders in the complete interior height of that section.
 - b. Also when adding a **single rollout** or **more than one rollout**, all adjustable shelves will be deleted. When adding adjustable shelves back into the opening, each shelf will be notched to accept the ladders which are installed for the rollouts.

These simple rules have been adopted as a standard practice for Brighton Cabinetry, Inc. Any deviation from this process must be in writing in the notes section of the order. All cabinets in our catalog with rollouts included will also follow these standard guidelines.

TALL FRAME CHANGE	MFC	
Includes one or all changes made to frame. (excluding extended stiles and rails) Specify changes and dimensions; provide sketch		
INCREASE CASE DIMENSION MODIFICATION	MICDIM	+15%
Used to increase height, and/or width, and/or depth above the largest standard sizes. Cabinet may be increased up to 3” larger for any or all dimensions. Dimension increases beyond 3” require a quote. Some restrictions apply due to material availability. Any cabinet increased in width to 39” or above will have a fixed center stile as standard. Drawer boxes, rollouts and other insert items will not increase beyond the standard size for 24” deep cabinets without a quote.		
MATCHING WOOD INTERIOR	MMWI	+20%
Priced as % of list price, added to cabinet price. Wood specie and finish match frame and doors. When selecting matching wood interior on cabinets with more than one section (ie, tall cabinets or combined cabinets) the entire interior of all sections will be matching wood interior as standard. The grain on interior backs <u>may be</u> horizontal on cabinets larger than 48” wide.		
COMBINE CABINET CHARGE	COMBINE	
Used to combine two or more cabinets. One charge per combination of two cabinets.		
TALL FRONT ONLY	MTFRO	- 40%
Subtract from base price of cabinet. Doors are hinged and working. Specify if fixed doors are required. Floor not included. Unless specified, front will be shipped without sub-toe kick. Overall frame height will be 4 1/2” less product height ordered unless MFTK (flush toe) is added. Example: TUC1884R (std. 84” high overall) + MTFRO ordered, shipped frame height = 79 1/2”.		
OMIT DOORS	MOD	-20%
Interior remains standard finish unless matching wood interior modification is used.		
ADD CENTER STILE	MACST	
To add a vertical center stile to any cabinet. Standard 1 1/2” wide stile, specify width of stile if different dimension is desired.		
ADD CENTER RAIL	MACRT	
To add a horizontal center rail to any cabinet. Standard 1 1/2” wide rail, specify width of rail if different dimension is desired. Include specific information for placement of rail, provide drawing if possible. Charge includes cost for dividing doors into separate uppers and lowers.
