NOTES

# MEDICINE CABINETS

The case dimensions of medicine cabinets are determined by the distance between wall studs set on 16" centers. The outside width of the case of a 16" medicine cabinet is 14 1/2" and the depth of the case behind the frame is approximately 3 1/2". 24", 36", and 42" medicine cabinets will have to be boxed in when recessed in the wall. Both sides, the top, and the bottom are finished so the cabinets can be either recessed in the wall or flush mounted. All medicine cabinets with standard width cabinet framing are 29" tall, while those with extended top rails are 32" tall.

| RECESSED CE | INTER MIRROR MEDICINE CABINETS  |  |  |

Recessed center mirror medicine cabinets are constructed with both right and left medicine compartments that are hinged to the inside for a tri-view effect when opened. The center section is a fully recessed mirror that is surrounded with wood trim. Both the right and left compartment doors are framed doors with mirrors in place of center panels. The 48" wide cabinet has a 22" center mirror and the 42" wide cabinet has a 16" center mirror.

- 10" deep cabinet
- Open section is specie and stain matched.
- Upper section comes standard with UV Birch veneer interior.
- Flush finished hutch ends and bottom are standard.
- Towel bar under open shelf is solid wood.
- Open section including towel bar area is 12" high.
- One adjustable shelf in 36" tall cabinet and two adjustable shelves in 42" tall cabinet.

- 3/4" thick, open framed door with 1/8" mirror and 1/4" flush backer panel.
- Priced per square foot.
- Beveled mirror will require the BVLDEDGE upcharge.
- The mirror framing will match the door design on the order unless otherwise specified. Shaker door style illustrated. Inset orders will not include an outer frame (like a cabinet frame) surrounding the door.
- Maximum size of 48" wide x 36" tall <u>OR</u> 36" wide x 48" tall. SFM ordered over these dimensions will be made using mirror molding (AMM) and will not ship with a mirror included. AMM may not match exactly to the door design ordered.
- Two sets of ZCLIP hardware included loose for field install. (see picture) The ZCLIP will hold the SFM approximately 1/4" off the wall. Factory does not install the Z clips to the mirror frame.

NOTE: If the mirror will be viewed from approximately 5 feet away or more, it is recommended that thicker glass is used because 1/8" thick glass can distort the reflected image. To achieve this when adding mirror into a door you must include the Beveled Edge Option in conjunction with the Mirror option.
