Note: When beaded Inset—Both leg version will be beaded around the lower appliance opening. Single Leg version will not have a bead around the lower opening unless specifically requested on the order by the designer.

TRS409624R (Right Leg)

- 40" wide, standard
- Available at 24" and 30" deep.
- Lower opening is 37" wide, sized for 36" wide refrigerator unit.
- Standard with Furniture Flush Ends, Matching Wood Interior and Finished Wall Bottom.
- Lower opening is 73" high. Add MFC (frame change) with a note on the order for a taller lower opening.
- 1 1/2" full length framing on face of return.
- Specify B (both legs), L (left leg) or R (right leg).
- Cabinets that are 84" high, or any with an upper frame opening of less than 9" high, cannot have doors that are hinged left and right. Instead, these cabinets will have their doors hinged to the top, opening upwards.
- One 3/4 depth adjustable shelf in upper of 96" H cabinet.
- Two 3/4 depth adjustable shelves in upper of 102" H and 108" H cabinet.
- Shipped with bracing that must be removed before installation.
- Verify ceiling height clearances for installation.
- Products over 96" tall may require a splice due to material limitations.

VERTICAL STACK CABINET SPECIFICATIONS

- Cabinets that have the look of two cabinets that have been stacked one on top of the other.
- Wall cabinets have two frame openings, one top and one bottom, with a center frame rail and fixed center floor dividing the two sections.
- Tall cabinets have three frame openings, one top, one middle, and one bottom, with a center frame rail and fixed center floor dividing each section.
- Offered standard with top doors equal to 12", 15", 18" or 21" high cabinets. Upper door heights will align with cabinet height equal to first set of numbers listed in the nomenclature. See example above.
- "Single door" indicates one door across width for each opening. "Two doors" indicates 2 butt-doors for each opening.
- Specify L or R for hinge side when applicable.
- Shelf quantities are dependent on the specific opening height of each section. A minimum of 18" frame height opening is required for an adjustable shelf.
- Matching wood interior modification (MMWI) will change the entire cabinet interior to have a finished interior.
- For vertical stacked wall cabinets: Any height change will modify the cabinet in the <u>lower section</u>. The <u>upper frame opening height</u> will not change unless specified on the order and will require a frame change charge (MFC).
- For vertical stacked tall cabinets: Any height change will modify the cabinet in the <u>middle section</u>. The <u>top and bottom frame opening heights</u> will not change unless specified on the order and will require a frame change charge (MFC).
- FOL-C overlay cabinet has a 3" face frame mid-rail below the top section. All other overlays have a 1 1/2" face frame mid-rail.
- Cabinets 39" wide or greater will have a fixed center stile in each section as standard.

PRODUCT CODE LIST

TALL END SKIN, LOOSE

ATSKIN

ACR

• 1/4" panel matching specie and finish of order.

SQ FT

CLOSET ROD

• 1 1/2" thick natural maple closet rod, removable.

• If cabinet has the MWI modification, the closet rod accessory will match the specie and finish of the order.

AMR

METAL CLOSET ROD

• 1 1/16" diameter steel closet rod with chrome finish, removable.

TALL TRAY DIVIDER

ATTD

- 1/2" UV Birch veneer divider installed in upper section.
- Specify location and spacing of multiple dividers.
- Tray dividers will be equally spaced in the opening unless otherwise specified.
- Tray dividers are not removable.
- Adjustable shelves cannot be adjacent to tray dividers. A partition must be used if adjustable shelves are needed.

TALL PARTITION

ATP

- 3/4" UV Birch veneer plywood, located in lower opening.
- When specified for cabinets with shelves, shelves are installed on both sides.
- Use when adding an accessory on one side of cabinet, shelves are installed on opposite side.
- Partition will be centered unless otherwise specified.
- Specify location of partition and side of accessory installation if desired.

TALL SHELF ON DOOR

ATSD

Wood shelf rack with adjustable shelves mounted on cabinet door of lower section.

FLIPPER (POCKET) DOOR GLIDES

AFDG

Installed mechanism for stowing door inside cabinet as in entertainment cabinets. Minimum cabinet depth is 13 1/2" to allow for hardware.

ALFDG

- Add to cabinet price; priced per set of doors.
- Adding flipper doors to a cabinet will cancel all adjustable shelves in that section. When needing adjustable shelves, a loose shelf accessory will need to be added to cabinet price for each adjustable shelf.
- When needing finished interior, the matching wood interior modification will need to be added to cabinet price.
- When adding flipper doors to cabinet, interior opening width will be 8" less than the overall cabinet width if FOL-C. If SOL or Inset, the interior opening width will be 9 1/4" less than the overall cabinet width. Example: 30" wide, FOL-C cabinet will have an interior opening size of 22" wide.
- Doors larger than 26" wide or 72" tall require large flipper door glides (ALFDG).

HANGING FILE RAILS

AHANGINGFILE \$

illustrated pair of

• One pair hanging file rails installed in drawer. Front to back rails illustrated. Standard guidelines for file rail direction:

Cabinets with a <u>frame opening</u> of less than 15" wide will have file rails that run side to side. Cabinets with a 15" wide <u>frame opening</u> or greater will have file rails that run front to back. Specify direction of file rails only if different from standard. (15" wide cabinets cannot accept front to back file rails.)

• Cannot fit most standard cabinet configurations (needs a 10" deep box to accommodate, MFC will be needed on cabinet to make this change)

LIST

Adjustable natural maple rollout shelves with Blumotion full extension, undermount drawer glides on wood pilasters. If the rollout and its components need to have the specie and finish match the interior of a cabinet with a MWI modification, a quote must be submitted prior to the order being placed for correct pricing and material availability.

- Price per rollout shelf
- 100# weight capacity
- Routed handpull centered in top edge of box front.
- Dovetail construction
- Fixed center frame stile is omitted when adding a full width rollout to a cabinet 39" wide and over or a sink base.
- Not recommended for cabinets less than 15" wide. Not available for cabinets less than 9" wide or 12" deep. **Note: when using combination of rollouts and adjustable shelves in the same opening, rollouts will always be located at bottom of section unless otherwise specified.

See below for additional guidelines.

Rollout Installation Guidelines

We have classified the addition of rollouts into two different categories based on usage. First, adding rollouts to wall cabinets or an upper portion of any cabinet, will be based on the same set of rules. (Upper portion is defined as any section of any cabinet which also has a lower opening.) Then, the addition of rollouts to base cabinets and the lower portion of tall cabinets will be based on another set of rules.

- 1. Rollouts in wall units and upper portions of tall/base units. (Sink base cabinets will follow this same set of rules.)
 - a. When adding **a single rollout**, the rollout will be permanently mounted to the floor in that section, utilizing our Blumotion full extension under-mount glides.
 - b. Also, when adding a single rollout, the quantity of adjustable shelves in that section will remain the same.
 - c. When adding **more than one rollout** to a section all adjustable shelves will be deleted. When adding adjustable shelves back into the opening, each shelf will be notched to accept the ladders which are installed for the rollouts.
 - d. Also, when adding **more than one rollout** to a section our standard rollout ladder configuration will be utilized by installing the ladders full height in the interior of that section. (Full height is full usable height determined by Brighton.)
- 2. Rollouts in lower openings of base/tall units. (Except sink base cabinets.)
 - a. When adding **a single rollout** or **more than one rollout**, our standard rollout ladder configuration will be utilized by installing the ladders in the complete interior height of that section.
 - b. Also when adding a single rollout or more than one rollout, all adjustable shelves will be deleted. When adding adjustable shelves back into the opening, each shelf will be notched to accept the ladders which are installed for the rollouts.

These rules have been adopted as a standard practice for Brighton Cabinetry, Inc. Any deviation from this process must be in writing in the notes section of the order. All cabinets in our catalog with rollouts included will also follow the guidelines listed above.

PRODUCT SPECIFY LIST CODE TALL SIDE ANGLED MTSA L/RSide is angled, front frame is parallel to back. Include a top view sketch with dimensions of side and front. Specify a degree of angle. Use widest dimension of finished cabinet as initial starting price then add modification charge. TALL ANGLED SIDE ENTRY **MTAE** L/RThis modification is like tall side angled but with frame and working door. Include a top view sketch with dimensions of side and front. Specify degree of angle and hinging. Use widest dimension of finished cabinet as initial starting price then add modification charge. TALL ANGLED FRONT **MTAF** L/RFront is angled, sides remain perpendicular to back. Include a top view sketch with dimensions of sides and front. Specify overall cabinet size. Indicate depth of right and left sides. Minimum depth is 4" for adjustable shelves. Use widest dimension of finished cabinet as initial starting price then add modification charge. TALL END ENTRY L/R **MTEE** Specify door hinging. Add modification charge to initial starting price of cabinet. DOUBLE ENTRY **MDE** Add modification charge to initial starting price of cabinet. Specify hinging on rear if different from front entry. FLUSH TOE KICK **MFTK** Per cabinet front Note: When adding this to base or tall cabinets and also requesting that the flush toe is cut into a valance shape, there will be a subtoe behind the valance bottom rail. The subtoe piece ships finished and does not require a separate AMTK. LOOSE TOE KICK **MLSTK** Shipped loose. Overall shipped cabinet height is reduced 4 1/2". **OMIT TOE KICK** NOTK Removes the toe kick area from the cabinet. Overall shipped cabinet height is reduced 4 1/2".
