WALL FLOATING SHELF

- 13" deep, 3" high standard. Height cannot be reduced below 2 1/2".
- Maximum width is 96", maximum depth is 16".
- Outer decorative shelf cover matches specie and finish of the order.
- Each shelf is comprised of an inner support frame and the outer decorative cover that slides over the support frame.
- After the entire unit is installed, Brighton recommends that the outer decorative cover is secured to the inner support frame using small finishing nails or headless pins so the outer decorative shelf doesn't accidentally slip off the support frame.

NOTE: It is essential that the support frame is properly secured to the wall studs. The frame must be mounted using four or more coarse-thread screws at least 2 1/2" in length. For shelves 60" and over in length: 60" shelves must be mounted to three or more wall studs, 72" shelves must be mounted to four or more wall studs, 84" shelves must be mounted to five or more wall studs, and 96" shelves must be mounted to six or more wall studs.

The load capacity of the shelves is dependent on the quality of the installation screws used and whether the screws are properly secured into studs. If the shelves are not installed using high quality, coarse-thread screws secured into two or more wall studs then the shelf may not support the weight desired. Brighton cannot and will not be responsible for shelf failure caused by insufficient installation materials or techniques.

FLIPPER (POCKET) DOOR GLIDES

Adding flipper doors to a cabinet will cancel all adjustable shelves in that section. When needing adjustable shelves, a loose shelf accessory will need to be added to cabinet price for each adjustable shelf.

When needing finished interior, the matching wood interior modification will need to be added to cabinet price.

When adding flipper doors to cabinet, interior opening width will be 8" less than the overall cabinet width if FOL-C. If SOL or Inset, the interior opening width will be 9 1/4" less than the overall cabinet width. Example: 30" wide, FOL-C cabinet will have an interior opening size of 22" wide.
