Wood, by its nature, has natural variations in color or texture. Softer areas will absorb more finish than harder areas, which may cast an uneven appearance. The end grains of the wood, such as those on the tops and bottoms of center panels in cabinet doors, will absorb a significantly greater amount of stain & topcoat than the rest of the lumber, and will often be darker in color. Variations in wood color will be more noticeable in lighter finishes. All wood species exhibit variations such as lighter streaks, darker streaks, burls, knots, gum pockets, pin holes, and raised grain (See Wood Characteristics page in the product catalog). These are not considered defects and are not covered under our warranty.

Satisfaction with a selection of wood species is the customer's responsibility. If you are unsure of the characteristics of a particular wood, please ask or do some research on your own. Some crown moldings as well as embellishments, on lays, bead board and corbels are not available in all wood species. Every attempt is made to match these items as close as possible, but some may not be an exact match, although it has been our experience that this does not create an undesirable look.

* The original purchaser is defined as the original homeowner who purchased the cabinetry for his or her own use.

† For new construction, the limited warranty may only be transferred from the builder or dealer to the original homeowner; otherwise the limited warranty is non-transferable. An original receipt or other proof of purchase may be necessary when filing a warranty claim.

Cabinet finishes may change color over time depending on wood, finish and exposure to light. This is a natural occurrence. When cabinetry or components are added or replaced at a later date, they will normally be lighter in color. Because the quantity and intensity of natural and artificial light will vary from home to home, and will thus age cabinetry in each home at different rates, these natural occurrences are not considered defects and Brighton Cabinetry, Inc. is not responsible for color differences that will naturally exist between aged cabinetry and recent additions.

All finishes will tend to yellow over time, some more than others. While Brighton Cabinetry has taken great care in developing our selection of white finishes, we do not warrant White, Dover, Cashmere, Buttercream, Vanilla or any standard or custom painted finish against slightly yellowing over time. These changes can be very subtle especially if viewed every day and are the result of different environmental factors including natural light, indoor lighting, heat and other conditions.

All woods are subject to temperature & humidity changes, in that they will expand & contract with changes in weather conditions. Joints in the face frames, doors and in certain accessories have a tendency to open up or form fine cracks due to the natural expansion and contraction in wood items. Brighton Cabinetry, Inc does not warrant its products against this. This tendency is more noticeable in painted finishes than in stained finishes. For this reason, we offer touch up kits that provide the installer/homeowner on-site touch up. While touching up opened seams and other areas may improve the cabinets' appearance, the color, texture, and sheen of the material used may be inconsistent with those of the paint. Neither Brighton Cabinetry Inc, nor any of its dealers are responsible for this inconsistency. (See the Finish Agreement page and Effects of Temperature and Humidity page in the product catalog).

This warranty is effective for all orders purchased on or after July 1, 2007.
