OUR T.R.I.E.D. VALUES

- Team Work:** We will offer opportunities for our employees to grow and develop; we expect interaction in decision-making and ownership and demand the cooperation we in turn will offer.
- Responsibility:** We take responsibility for our actions and believe actions determine consequences. We will insist on and accept personal and corporate accountability.
- Integrity:** All of our relations will be treated with the highest level of openness and honesty. Integrity in all of our associations will be the passionate strength of our business.
- Engagement:** We are absolutely committed to carrying out all of our obligations in everything we do.
- Diversification:** With open minds we will strive to continuously improve our company, our products, and our service.

MISSION STATEMENT

Our purpose is to provide high quality custom cabinetry at competitive prices while maintaining outstanding credibility, unmatched customer service, and a basis for a comfortable living for those who help contribute to our success.

ENVIRONMENTAL STATEMENT

Here at Brighton Cabinetry we are firmly committed to protecting our environment by educating our associates and our partners of our preference to purchase and manufacture products which are environmentally considerate and are from sustainable sources.

We realize the importance of replenishing the natural resources used in our industry. Also, we recognize the importance of treating our environment with respect while manufacturing our products.

It is our preference to use environmentally compatible and recycled or renewable materials whenever possible to limit our footprint on the environment.

LIFETIME LIMITED WARRANTY

Brighton Cabinetry, Inc. warrants to the original purchaser *that our products are free from defects in material and workmanship. The warranty period starts on the original date of purchase from an authorized dealer and is non-transferable†. This Warranty covers replacement and/or repair only at Brighton's discretion. All issues may be subject to inspection by Brighton Cabinetry or its authorized representative. This offer is based on normal residential usage and does not cover misuse, abuse, improper storage, or neglect (see Cabinet Care instructional sheet). Also, it does not include any expense involved in removing, reinstalling, disposal of, or shipping any cabinets or components.

THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE AND SHALL NOT BE EXTENDED, ALTERED OR VARIED EXCEPT BY A WRITTEN INSTRUMENT SIGNED BY BRIGHTON CABINETRY, INC. AND ORIGINAL PURCHASER.

Brighton Cabinetry reserves the right to change design, specification, and materials as conditions require or improvements are developed. Replacement parts are subject to availability. In the event a part or product becomes obsolete or is discontinued it will be replaced with a similar part or product. Replacement is limited to supplying the part only and does not include installation of the part or any expense incurred as a result of replacement.

All door hinges and drawer glides carry a lifetime guarantee from the hardware manufacturer. The part will be replaced if failure occurs. Replacement parts are subject to availability from our suppliers. In the event a part or product becomes obsolete or is discontinued it will be replaced with a similar part or product. Replacement is limited to supplying the part only and does not include installation of the part or any expense incurred as a result of replacement.

All blower units for range hoods carry their own individual warranty from the blower manufacturer. Failure of blower operation and/or malfunction are not covered under Brighton Cabinetry's Limited Lifetime Warranty. Brighton Cabinetry is not responsible for improperly installed blower units. Any warranty for blowers will vary per unit according to the blower manufacturer's specifications. The end consumer will be responsible for any warranty claims for blower defects and should contact the blower manufacturer directly for assistance in repair or replacement.

Wood, by its nature, has natural variations in color or texture. Softer areas will absorb more finish than harder areas, which may cast an uneven appearance. The end grains of the wood, such as those on the tops and bottoms of center panels in cabinet doors, will absorb a significantly greater amount of stain & topcoat than the rest of the lumber, and will often be darker in color. Variations in wood color will be more noticeable in lighter finishes. All wood species exhibit variations such as lighter streaks, darker streaks, burls, knots, gum pockets, pin holes, and raised grain (See Wood Characteristics page in the product catalog). These are not considered defects and are not covered under our warranty.

* The original purchaser is defined as the original homeowner who purchased the cabinetry for his or her own use.

† For new construction, the limited warranty may only be transferred from the builder or dealer to the original homeowner; otherwise the limited warranty is non-transferable. An original receipt or other proof of purchase may be necessary when filing a warranty claim.

Satisfaction with a selection of wood species is the customer's responsibility. If you are unsure of the characteristics of a particular wood, please ask or do some research on your own. Some crown moldings as well as embellishments, onlays, bead board and corbels are not available in all wood species. Every attempt is made to match these items as close as possible, but some may not be an exact match, although it has been our experience that this does not create an undesirable look.

Cabinet finishes may change color over time depending on wood, finish and exposure to light. This is a natural occurrence. When cabinetry or components are added or replaced at a later date, they will normally be lighter in color. Because the quantity and intensity of natural and artificial light will vary from home to home, and will thus age cabinetry in each home at different rates, these natural occurrences are not considered defects and Brighton Cabinetry, Inc. is not responsible for color differences that will naturally exist between aged cabinetry and recent additions.

All finishes will tend to yellow over time, some more than others. While Brighton Cabinetry has taken great care in developing our selection of painted finishes, we do not warrant any standard or custom painted finish against slightly yellowing over time. These changes can be very subtle especially if viewed every day and are the result of different environmental factors including natural light, indoor lighting, heat, and other conditions.

All woods are subject to temperature & humidity changes, in that they will expand & contract with changes in weather conditions. Joints in the face frames, doors, and in certain accessories may form fine cracks due to the natural expansion and contraction in wood items. Brighton Cabinetry, Inc does not warrant its products against this. This tendency is more noticeable in painted finishes than in stained finishes. For this reason, we offer touch up kits that provide the installer/homeowner on-site touch up. While touching up opened seams and other areas may improve the cabinets' appearance, the color, texture, and sheen of the material used may be inconsistent with those of the paint. Neither Brighton Cabinetry Inc, nor any of its dealers are responsible for this inconsistency. (See the Finish Agreement page and Effects of Temperature and Humidity page in the product catalog).

Any orders not installed within 6 months after shipping from the factory will not be warranted for splits, cracks, joint separation, warping, shipping damage, or any damage that could have occurred in storage or handling. In addition, any hidden shipping damage not reported to Brighton within 6 months after shipping from the factory will not be warranted.

This warranty is effective for all orders purchased on or after July 1, 2007.

Notes

TERMS AND CONDITIONS

TERMS

Terms are based solely upon the credit department of Brighton Cabinetry.

CONDITIONS

Brighton takes all orders subject to approval. It is the responsibility of the dealer to ensure that orders are correct when submitted. To avoid errors, we prefer orders to be presented via e-mail in 2020 Design program. Catalog disks available upon request, otherwise please use our forms-either by fax or e-mail (phone orders are not accepted). **Any changes to the order after receipt at Brighton must be in writing and will be at the expense of the buyer and may also result in a delay of production time.** Brighton Cabinetry is not responsible for technical difficulty that causes us to not receive faxes or emails.

If the floor plan and order disagree, we will follow the order form. All descriptions and detail should be listed clearly on the written order form. Brighton Cabinetry will not be held responsible for information found only on prints or elevations. It is solely the responsibility of the designer to ensure that the written order and/or 2020 Design .kit file is submitted correctly.

Specifications in material, construction, and design are subject to change without notice as conditions require, or as improvements develop. While Brighton strives to depict our products as accurately as possible, the visuals in the printed catalog, online catalog, and in the 2020 Design software are for illustrative purposes only and may not be true representations.

Returns will not be accepted without prior written authorization.

Brighton trucks can deliver only to the dealer's commercial premises in an area that is accessible to a tractor-trailer. Additional fees may be necessary and will be added to shipments containing over-size packages. Moldings, panels, wood tops, etc., that are over 7 foot long, are examples of items that may require additional fees. Please note that 8' moldings designated to ship via UPS or Fed-Ex will automatically be cut to 93" length at the factory to reduce shipping costs. The 8' piece can be cut down at the factory to other lengths to reduce common carrier shipping costs if a note is included with the order to do so.

Direct delivery to residential premises may be available, with prior approval. Additional fees will apply. Receiver is responsible to off-load the delivery. Brighton Cabinetry, Inc. is not responsible if the residential area restricts truck-trailer traffic.

Shipping dates do not reflect actual shipping dates, only the week in which shipping will occur.

Upon receipt of your order, the order entry department begins preliminary procedures for production. If the order is found to be incomplete or details are not clear, it will be held, and may require fees, until all items questioned have been clarified. All clarifications and suggestions will be made by email or by telephone, with the possibility of needing written confirmation upon request. Please reply immediately to any questions presented by Brighton's order entry department to prevent an extended lead time. If for any reason your order is held, your tentatively scheduled delivery date may be subject to change at our discretion. A clear and complete order is necessary to prevent delays, or additional costs, which may cause an excessive lead time and/or unexpected costs.

TERMS AND CONDITIONS cont.

Brighton acknowledges all orders via email. While the order entry process can be lengthy, we strive to provide a complete and accurate order acknowledgement as quickly as possible. These are sent to our customers to confirm that the items we enter into our computer program are consistent with the information provided. **Please review all acknowledgements to verify correctness as soon as you receive them.** If order entry errors are discovered contact Brighton's customer service **immediately**. Your cooperation in checking these acknowledgements is greatly appreciated. Our goal is to get the order correct to the end consumer the first time. Following the guidelines above will reduce the number of errors and mistakes which could prove very costly to everyone.

For all dealers who require approval hold on their orders, there is a 72 hour timeframe (three business days) from the date of the acknowledgement to make any changes. During this period, the dealer will have the opportunity to request any changes to the order. Be aware that such changes, if allowed, may also impact lead times, and additional fees* for changes and materials may apply. After the 72 hour timeframe has elapsed, the order will be processed as it stands. Any changes requested after this timeframe may be denied and would need to be submitted as additional orders.

If changes are necessary and requested within the 72 hour timeframe, we will send a revised acknowledgement with the changes. However, please note that this revised acknowledgement will be considered the "final" acknowledgement and no further changes to this order will be possible.

In the event of an order cancellation after an acknowledgement has been sent, a 15% cancellation fee will apply. If any expenses have occurred that exceed 15% of the order's total cost, the cancellation fee may be adjusted accordingly. Failure to pay any additional fees resulting from changes or cancellations could result in delays processing other orders or may affect our ability to accept new orders until the unpaid fees are settled.

Our primary goal is to process all orders efficiently and accurately. By adhering to these guidelines, we can streamline the order processing and provide the best possible service to all of our valued dealers.

Brighton's factory thoroughly inspects every item before shipment to insure that each product leaves our facility in satisfactory condition. After initial delivery to the dealer or customer, any damages or shortages occurring in shipment or during installation will be the responsibility of the receiver or dealer.

Immediately upon delivery, inspect all packages for any signs of shipping damage. Damage must be noted with the driver of the delivery vehicle in writing at the time of delivery, preferably on the Bill of Lading. Notify Brighton Cabinetry to report damages at once. It is suggested that photos are taken to record any signs of damage. It is very difficult to file a claim for any damage if it is not documented at the time of delivery before the delivery company has left the site.

Brighton has no responsibility for and is not bound by any agreements made between the dealer and buyer. We will assume no responsibility whatsoever in any penalty clause contracts, even if it appears that we are at fault in triggering such a penalty. All liability will be borne by the dealer who chooses to be committed.

***Brighton may charge a "change fee" per occurrence, per cabinet/item that is requested to be changed after the acknowledgement has been sent for review.**

Brighton Cabinetry Custom Unit and Modification Quote Process

Brighton Cabinetry has developed a specific process designed for Custom Units and Modifications (any cabinet, accessory, or modification not included in our catalog). Following these steps should ensure that customers receive exactly what they anticipate.

1. Detailed information from the designer/salesperson is necessary for Brighton to provide a quote, prior to receiving the order. (customer name, dimensioned drawings, species, overlay, finish color, door style, drawer front style, etc.) The best way for this information to be communicated efficiently is by using the Quote Request Form found on pages 3-4 in the Custom section of our catalog. ****Please remember to check the box at the top of the form for the specific quote type.****
2. Please send all quotes via e-mail, directly to quotes@brightoncabinetry.com. Otherwise, you may fax quotes to (217)895-3005, marked ATTN: Quotes Dept. at the top of the page. *(Note: The scale and proportion of drawings that are faxed can be compromised during fax transmission. Email is the preferred method when submitting quote requests.)*
3. A Quote Number will be assigned by Brighton to each unit to be quoted.
4. If necessary, our design team will go over the quote and decide what materials and construction methods will be used.
5. Once a plan has been approved, a CAD drawing, specifications, and pricing will be developed for each unit. Pricing for the quoted items will not include Specie, Stain, or Overlay upcharges. This is due to the pricing structure of the 2020 Design software which will automatically calculate those percentages from the List price of the quote entered into the program.
6. When the specifications are complete, a copy of the finalized quote will be emailed to the designer/salesperson for approval. It is the designer/salesperson's responsibility to ensure all details are specified correctly on the returned quote prior to placing the order for the quoted item.
7. If changes are to be made to the quote, now is the time. Make the appropriate changes on the quote received. Once all changes have been made, resubmit the CAD drawing with the correct changes annotated. (If changes are not made at this time, it could result in a delayed lead time of the order containing the quoted item, and/or incurred price increases.)
8. The changes will be updated to the existing quote and an updated CAD drawing with the changes will be returned to the salesperson for approval.
9. When ordering the quoted item, the appropriate custom product must be picked in 2020 Design from the drag-and-drop list and the salesperson must reference the corresponding quote number for each item. Enter the price from the quote for this product into 2020 Design. Also include a signed copy of the quote for Brighton's production paperwork.
10. During the order entry process we will pull the file referenced by the quoted number and process the custom item accordingly.
11. There will be a minimum of 1 day lead time on a quote. Our goal is to return a quote within 5 days from receiving the quote from the designer.

**LEAD TIMES ARE

WOOD CHARACTERISTICS

We at Brighton Cabinetry find it necessary to explain the differences between natural and light stained wood as opposed to medium to heavy stained wood. These variances are detailed within the Brighton Cabinetry Finish Agreement. It is also the salesperson's responsibility to thoroughly explain to the customer the variations that exist within a species. These variations can be more apparent in the lighter colors that we offer. Standard grade door orders may reflect all or some of each species' natural wood characteristics. These characteristics can include mineral streaks or deposits, sap marks, small knots, pin holes and worm holes. If the customer wishes to minimize the appearances of the natural characteristics, we strongly recommend ordering premium doors. This will not eliminate these imperfections but will only reduce their appearances. Customer satisfaction, no misunderstandings, and a referral from every job are a few of our goals at Brighton Cabinetry.

Brighton Cabinetry, Inc. will not be held responsible for misunderstanding of natural, and light stained finish or the variations that occur naturally within a particular wood species. We would like to suggest that the dealer, for your own protection, should obtain a disclaimer signed by your customer.

CHERRY: Cherry ranges in color from white to deep brown. Exposure to light in your home will deepen these colors, turning the wood to a dark, reddish brown in the darker areas, while the light areas will deepen to shades from yellow to brown. These changes are natural, and should be expected. Cherry may contain areas of gum pockets, mineral streaks, sap marks, and pin knots. These characteristics are common and to be expected as a natural part of the wood. If these characteristics are not appealing we recommend that the Premium wood upgrade is selected to minimize these traits.

CLEAR ALDER: Also known as Alder or Premium Alder is pale yellow or tan to light reddish-brown color. The color is somewhat uniform throughout with random pin knots to be expected as a natural part of the wood. It has a straight, fine grain with an even texture.

HICKORY: Hickory is a strong and varied grain wood and is also called Calico Hickory. In a light finish, you will see that its color ranges widely, from white to dark chocolate brown. This extreme variation can be seen within a single door panel and is considered desirable. This wide variation is especially prevalent when ordering large veneered panels such as PCZ's and will not be considered a defect for replacement under warranty. Random knots and worm holes add even more character to hickory's natural beauty.

MAPLE: Maple is a smooth, close-grain wood that is primarily off-white in color. While maple is very uniform, you will notice random rays of wood grain outlined with small, darker lines. Small black dots, known as bird's eyes, and black mineral traces are another touch of nature in solid maple doors. These characteristics are common and to be expected as a natural part of the wood. If these characteristics are not appealing we recommend that the Premium wood upgrade is selected to minimize these traits. Maple will also begin to take on a golden hue as it ages.

QUARTER SAWN WHITE OAK: As a result of the style of cut known as quarter sawn, this straight-grain wood displays a dramatic pattern sometimes called "ribbon and flake". It varies in color from white to light tan, medium brown, or a pale yellow-brown with a pinkish tinge. It has a medium to coarse texture with small knots, mineral deposits, or worm holes occasionally present. (Finished end option is not available. Another option must be chosen for exposed ends. If a cabinet is submitted with the finished option selected, the cabinet will be provided with a flush finished end and will be charged accordingly.)

RED OAK: Red oak is very strong, open grained wood with color ranging from salmon to white. The accents of green, yellow, or black that run through the surface are signs of mineral deposits absorbed during the tree's growth. Worm holes, knots, and wild grain patterns all serve as nature's fingerprints on solid oak doors.

RED BIRCH: Red Birch comes from the heartwood of the birch tree and is a tight, close-grain wood. The pattern can range from a plain, indistinct growth to a figured or curly grain. Streaky colors are common with contrasting shades of red and brown that can also be present as pink or even as a purplish tone. (Finished end option is not available. Another option must be chosen for exposed ends. If a cabinet is submitted with the finished option selected, the cabinet will be provided with a flush finished end and will be charged accordingly.)

WOOD CHARACTERISTICS

We at Brighton Cabinetry find it necessary to explain the differences between natural and light stained wood as opposed to medium to heavy stained wood. These variances are detailed within the Brighton Cabinetry Finish Agreement. It is also the salesperson's responsibility to thoroughly explain to the customer the variations that exist within a species. These variations can be more apparent in the lighter colors that we offer. Standard grade door orders may reflect all or some of each species' natural wood characteristics. These characteristics can include mineral streaks or deposits, sap marks, small knots, pin holes and worm holes. If the customer wishes to minimize the appearances of the natural characteristics, we strongly recommend ordering premium doors. This will not eliminate these imperfections but will only reduce their appearances. Customer satisfaction, no misunderstandings, and a referral from every job are a few of our goals at Brighton Cabinetry.

Brighton Cabinetry, Inc. will not be held responsible for misunderstanding of natural, and light stained finish or the variations that occur naturally within a particular wood species. We would like to suggest that the dealer, for your own protection, should obtain a disclaimer signed by your customer.

RIFT CUT WHITE OAK: This species can be compared to standard grade White Oak with the only difference being the way it is cut. Each piece has a thin pencil-line or combed look, otherwise known as a straight grain look. It is typical that a small percentage of panel staves and stile & rail parts will include a small portion of Quarter Sawn character, sometimes resulting in light rays / flakes being visible in those parts. It varies in color from white to light tan, medium brown, or a pale yellow-brown with a pinkish tinge. It has a medium to coarse texture with small knots, mineral deposits, or worm holes occasionally present. (Finished end option is not available. Another option must be chosen for exposed ends. If a cabinet is submitted with the finished option selected, the cabinet will be provided with a flush finished end and will be charged accordingly.)

RUSTIC ALDER: Also known as Knotty Alder, is pale yellow or tan to light reddish-brown color. The color is somewhat uniform throughout with sound whole knots and cut knots giving this species a very rustic appearance. It is fine grained with moderate variation. If the larger knot characteristics of Rustic Alder are not appealing we recommend that Clear Alder is selected to minimize these traits.

RUSTIC HICKORY: This species displays the same characteristics as standard grade (Calico) Hickory with the presence of sound whole knots and cut knots giving it a very rustic appearance. It is also called Knotty Hickory and has a strong and varied grain ranging in color, from white to dark chocolate brown. This extreme variation can be seen within a single panel and is considered desirable. If the larger knot characteristics of Rustic Hickory are not appealing we recommend that standard grade Hickory is selected instead to minimize these traits.

WALNUT: Walnut is beautiful wood stained or natural. The natural characteristics common for this species result in a blend of off-white to gray to medium brown tones throughout. It shows a curly grain pattern with occasional mineral or pin knots. Standard grade Walnut can have up to 35% of light sapwood present in the center panels of doors. (Finished end option is not available. Another option must be chosen for exposed ends. If a cabinet is submitted with the finished option selected, the cabinet will be provided with a flush finished end and will be charged accordingly.)

PAINTED CABINETS: Our painted cabinets combine the beauty of wood with the clean look of a painted finish. Over time, the wood will naturally expand and contract and the painted finish may develop hairline cracks, most noticeable in the joint areas. This is a result of the genuine hardwoods used in the manufacture of our products. These changes can be expected with the beauty of our painted cabinets. To minimize the uneven look of the wood's natural changes in center panels most wood framed doors will be made with center panels that are MDF when the finish is painted. Most veneered doors or veneered center panel doors will be made without the veneer when the finish is painted and will be MDF instead.

WEATHERED GRAIN QSWO

The rough-hewn texturing of our weathered grain technique adds a rustic charm to the already dramatic pattern of Quarter Sawn White Oak.

LIMITATIONS

Due to machining limitations there are only a select number of options available with this wood / finish selection. Please adhere to the guidelines on this page. Any items not available **MUST** be quoted in advance of placing an order. Custom requests for changes in species and/or finish **MUST** have custom samples made and approved by the customer in advance of placing an order. Due to machining processes some edges may not have the weather grain detail. The Weathered Grain Collection is not available for Quick Ship. Cabinet heights limited to 96". Panels only available 3/4" thick and are limited to 48" wide maximum x 96" long maximum. The modification Matching Wood Interior, MMWI, is **not** available with weathered grain texturing.

DOOR STYLES

Only the door styles listed here are available. All weathered grain doors and drawer fronts will have an L-034 outside edge with the exception of Inset doors. Inset doors will have an L-686 edge with a 5 degree back bevel. The only modification to the door styles are the door framing widths up to 4" wide if specified in Job Notes on the order. Raised center panels are not available. Outside and inside edge profiles cannot be changed.

	Amesbury
	Cascade
	Heritage
	Plainfield (N/A Inset)
	Shaker
	Shaker-Medium
	Wide Rail Shaker

OVERLAYS

Standard frame Inset is available. Beaded frame Inset is not available. All other standard door overlays are available except for SOLK-Lipped (3/8" inset) and FFA (Framed Full Access).

FINISH / SPECIES OPTIONS

4 Low Sheen finishes on Weathered Grain Quarter Sawn White Oak. Any change to finish or species requires a Custom Color Request form is submitted. Premium wood grade is not available with Weathered Grain Quarter Sawn White Oak.

Barnwood
Hearth
Parched
Whitewash

FINISHED END OPTIONS

ONLY the finished end options listed here are available.

* Due to manufacturing restrictions, weathered wainscot panels are no longer available for Inset style cabinetry.

Beadboard end
Furniture finished end
Furniture false door end
Furniture wainscot end*

ACCESSORIES

Only available for the matching finish molding and accessory items listed here.

FS (frame stock), no routed profiles
PCZ34 only: 48" W max X 96"H max
ABATTEN1, 2
ASCRIBE1, 2
ABM-OGEE (no other base moldings)

ARISER (riser for molding)
ACROWNSHKR (Plain)
ASHC (hollow column)
ASQPC (pilaster column)
ASQFT (square foot)
SQL (square leg)
WFSHELF (floating shelf)**

** Weathering only on exposed face and side edges

PAINTED FINISH FACTS ~ CUSTOMER AGREEMENT ~

Congratulations on your selection of Brighton cabinetry. Because of the unique characteristics of wood, it is important to realize that the beauty of wood cabinetry really comes from the natural qualities of the wood itself. Your satisfaction is important to us, and we want you to fully understand the characteristics that make our painted finishes so distinctive and different from the non-painted finishes. The painted finish categories are classified as Paints, Paints w/ Glazes, and Special Finishes.

Our painted cabinets combine the beauty of wood with the clean look of a painted finish. The textures of some natural grain patterns often remain visible with a painted finish and should be accepted as inherent characteristics when selecting painted cabinetry. In addition, as the wood naturally expands and contracts with varying environmental conditions, small hairline cracks may become visible in the painted finish, particularly in joint areas. The hairline cracks could also be seen when individual adjacent staves in the center panel expand and contract. Joint fissures can become more obvious over time and during various season changes. To reduce some of these occurrences in painted finishes, we prefer to use center panels that are made of MDF when available.

Mitered door styles are purposely constructed to allow a slight gap at the interior frame joint because of the typical expansion and contraction that occurs (see Figure 1 below). Mitered doors are not sanded after they are assembled in the same manner as mortise and tenon doors. This may allow joints to be uneven or not flush and gaps may show more prominently. For this reason, we do not recommend painted finishes on miter designs. These traits are not as apparent on stained or natural finishes. The Woodridge door design is not available in a painted finish.

Most of our five-piece doors have framing beads designed with a slight back bevel to allow the finish materials to penetrate beneath the frame bead. The paint coatings have a high percentage of solids and are susceptible to bridging between the center panel and frame bead. Bridging occurs when the finish material joins the two separate surfaces together. Natural expansion and contraction of the wood may fracture this bridging. This is a result of the genuine hardwoods used in the manufacture of our products.

Figure 1

Image of miter door standard construction, showing frame joint with gap

PAGE 2 OF 2

All of the preceding are common conditions and are not considered cause for defect. If these characteristics are not appealing, consider purchasing one of our 1-piece MDF door styles which will not have the joints that allow the separation. 1-piece MDF options are available in limited designs only.

The machining of wood end grain or MDF on certain profiles may result in those surfaces being somewhat porous and the finish on those areas may not result in as full a finish as on the flat surfaces. The presence of minor defects such as this, in small amounts, will be considered acceptable. Also, over time there may be a slight color shift in the painted finish due to continued exposure to natural and artificial light sources, chemicals or exposure to other contaminants.

All of the traits described can be expected with the beauty of our painted cabinets and are not considered defects.

I have read and understand the statements above. I agree that the characteristics of painted finishes from Brighton Cabinetry are acceptable and that neither Brighton Cabinetry nor the dealer of Brighton Cabinetry is to be held responsible if at a later time any of these traits are found to be undesirable.

Brighton Cabinetry Finish Agreement

Dear Brighton Customer:

Congratulations on your selection of Brighton cabinetry. Because of the unique characteristics of wood, it is important to realize that the beauty of wood cabinetry really comes from the natural qualities of the wood itself. Your satisfaction is important to us, and we want you to fully understand the characteristics that make our finishes so distinctive.

Brighton utilizes only select solid hardwoods and hardwood veneers. The beauty of these genuine woods lies in the variation of the grain. Natural and light stains show the natural beauty of wood. Wood differs in color, density, graining and texture from tree to tree within the same species (this is even true within the same tree.) Color samples can only represent an overall general guide to the appearance of the finished product.

Small displays and wood samples may sometimes be deceiving and possibly not a true representation of a complete kitchen. Two doors side by side may contrast in appearance; this is to be expected. The wood used within the same door may also have a contrasting appearance within the panel area or even from rail to rail.

Glazed, Wear Sanding, and Special finishes cannot be guaranteed that all components of a job will be an exact match to a sample. Due to the application process of the special and glazed finishes, the build up of glaze will vary from one piece to another on the same order. These variations can be dramatic. The beauty and uniqueness associated with these finishes is due to the broad variations. Considering the artistic quality of these finishes, the variations discussed above will not be considered defects and will not be cause for replacement.

The textures of some natural grain patterns often remain visible with a painted finish and should be accepted as inherent characteristics when selecting painted cabinetry. In addition, as the wood naturally expands and contracts with varying conditions, slight joint separations may occur; these may become visible as small cracks in the painted finish, particularly in joint areas. Also, over time, there may be a slight color shift in the painted finish due to continued exposure to natural and artificial light sources.

All custom finishes must be signed off on and dated before any of the job will be processed in production. Brighton will generate a sample of the custom color requested, but approval form must be returned, signed and dated.

I have read the above statements and have clearly explained all of the items listed above to my customer. I will not hold Brighton Cabinetry responsible for the variety of wood characteristics or any of the above that are later found to be less desirable than I expected.

GENERAL INFORMATION

CABINET CONSTRUCTION SPECIFICATIONS

It is essential that all Brighton cabinets are properly secured to wall or floor studs. The cabinet must be mounted using four or more course-thread screws at least 2 1/2" in length.

The load capacity of hanging cabinets is dependent on the quality of the installation screws used and whether the screws are properly secured into studs. If the cabinetry is not installed using high quality, course-thread screws secured into two or more wall studs then the cabinet may not support the weight desired.

Cabinets installed at the floor must be secured into studs to prevent tipping. Standard or custom quoted cabinets are not designed to be free standing units at any time.

Brighton cannot and will not be responsible for failure caused by insufficient installation materials or techniques.

SPECIES:

Available in Cherry, Clear Alder, Hickory, Maple, Quarter Sawn White Oak, Red Birch, Red Oak, Rift Cut White Oak, Rustic Alder, Rustic Hickory, and Walnut. Many other species available with pre-submitted quote. Contact customer service or submit a quote request for availability and pricing of non-standard species.

FRAMES:

Overlay cabinet front frames are 3/4" solid hardwoods with 1 1/2" wide stiles and rails using glued and screwed joinery. Inset cabinet face frames are built with a haunch joint. Inset Wall and Tall cabinets are built with 2 1/2" top rail while overlay cabinets will have 1 1/2" top frame rails. Standard base height cabinet face frames are 30" high with a 4 1/2" toe space creating an overall height of 34 1/2". Cabinets less than 9" wide will have reduced face frame stile widths. Center stiles on 2-door cabinets 39" and wider are the standard. (See Plainfield door style for exceptions.)

CASE CONSTRUCTION AND INTERIORS:

1/2" plywood is standard and interiors will be UV Birch veneer. Matching wood interior is offered as a modification. Cabinets are available at standard sizes with customization of dimensions allowed to 1/16". Any case dimension change, whether increase or decrease, is subject to manufacturing limitations. Please contact customer service for any required dimensions that fall outside the span of our standard offered sizes.

BACK:

Cabinet backs are (1/4" panel with UV Birch veneer) dadoed into the sides. 1/2" plywood hanging rails, mounted externally, are standard on most cabinets. The grain on interior backs will be horizontal on cabinets larger than 48" wide.

TOE SPACE:

Toe space is 4 1/2" high and 3 1/2" deep covered with a 1/2" sub toe board. Finished toe board matching species and finish of cabinets is available as an accessory. Toe space platforms will be shipped loose on super susan bases, diagonal corner bases, and tall cabinets over 84" high as a standard.

SHELVES AND SUPPORTS:

Adjustable shelves are 3/4" UV Birch veneer plywood, front edge banded. 24" deep tall cabinets have a 22 1/4" deep shelf. 24" deep base cabinets have a 17 1/4" deep shelf. Wall cabinets have an 11 1/4" deep shelf. The shelf supports are nickel-plated steel peg in 5mm hole, adjustable in 32mm (approx 1 1/4") increments. Typical minimum frame opening height for adjustable shelf = 18".

GENERAL INFORMATION

CABINET CONSTRUCTION SPECIFICATIONS continued

DRAWERS:

Drawers are 5/8" solid maple sides, dovetailed front and back, with a 1/4" maple veneer panel captured bottom. Walnut species drawer boxes are available for an upcharge. Standard drawer box heights are available in 1" increments from 2" through 10". The actual drawer box height will be determined by the frame opening height, with a 1" minimum clearance allowed to accommodate undermount glides. For example, a 5" frame opening will have a 4" high drawer box. Contact customer service for other drawer box height availability. Full width drawer boxes in cabinets 39" wide and over will have additional bottom support.

GLIDES:

Blumotion drawer glides are standard with 100 lb. static weight capacity. Blumotion is an undermount, full extension, concealed glide that closes silently and smoothly with only a light touch by the user. If the frame openings for the drawer boxes are under 6" wide, the cabinet cannot house drawer boxes due to constraints in the hardware. Rollout shelf glides are also Blumotion glides. Rollout shelves not available if the frame opening is less than 9" wide, due to constraints in the hardware. Glide hardware may not be available for cabinets less than 12" deep. Contact customer service for availability and options.

DOORS:

Most are made from select kiln-dried hardwoods using 3/4" thick framing and 1/2" solid wood center panels. Most doors designs have 2 1/4" wide stiles and rails. See specific door styles for exceptions. As a standard, most wood framed doors will be made with center panels that are MDF when the finish is painted. Most veneered doors or doors with a veneered center panel will be made without the veneer when the finish is painted and will be MDF instead.

Doors over 24" wide will be made with two center panels, side to side. Doors over 48" tall will be made with two center panels, top to bottom. Use of a single horizontal panel opening in doors measuring over 24" wide will not be covered under warranty. Use of a single vertical panel opening in doors measuring over 48" tall will not be covered under warranty. Single panel doors exceeding the maximum width or height listed above will not be covered under warranty for bow, warp, or twist of the door framing, center panel, or mullions of glass doors.

HINGING:

Door hinging is available in semi-overlay concealed, semi-overlay knife, semi-overlay knife-lip door (3/8" inset). Full inset door available with barrel hinge or concealed hinge options. Framed full-access and full-overlay concealed hinges are available as an upgrade. Inset doors have a 3/32" margin on all sides of single doors and drawer fronts and 1/8" between butt-door pairs. Overlay doors have 1/8" margin between butt-door pairs. A soft close feature is standard for concealed hinges when available. Soft close is not available on inset with barrel hinges or on knife hinged doors. Soft close is not recommended for use on pie cut doors.

DOOR REVEALS *(for most standard applications)	HINGE TYPE	REVEALS *			Typical Overlay

INSET HINGE \ DOOR SPECIFICATIONS

Inset style cabinets are available from Brighton Cabinetry, Inc. For each order placed as inset, the following information must accompany your order: framing option (beaded vs. non-beaded) and choice of hinge. Non-beaded (standard frame) apply upcharge of 20%, beaded frame apply upcharge of 22%.

*****Quick Ship lead times are not available for inset door cabinets*****

The following door options are available with an L-253 outside edge profile only. This is a Machine front edge with a slight back bevel. Other outside profiles are not available as a standard offering with inset style doors.

L-253

The Inset availability applies to named door styles listed below and the offered VFP equivalents. For other door styles, please contact customer service for availability. MDF doors are not available.

Aspen	Fairfield*	Monroe*	Summit*
Amesbury	Fairhaven	Neoga Ridge	Sunrise*
Bryant*	Hampton MT*	Neoga Ridge Arched*	Thompson*
Café	Heartland	Newport	Verona
Cascade*	Heritage*	Rodera*	Wabash
Churchill*	Hillsbrad MT*	Shaker	Warner*
Cottage	Homeland	Shaker Medium*	Wide Rail Shaker*
Eclipse*	Meadowview*	Sheldon*	

*Arched rail and wide framing design doors may have reduced width stiles for narrower door sizes.

Available barrel hinge finishes include Black, Polished Brass, Nickel (ball finial), Sterling Nickel (minaret finial), and Oil Rubbed Bronze. Concealed inset hinging is also available.

Concealed inset hinges may require inward extended frame stiles with some cabinet modifications such as wainscot end panels and bead board ends. The inward extended stile will be added to the cabinet by the factory when necessary at no upcharge.

Soft close door feature is available on inset style cabinets with concealed hinges only. The soft close feature is not available when using inset barrel hinges.

Inset Wall and Tall cabinets are built with 2 1/2" top frame rail. Case frames are available with the option of standard machine inside edge (STD FR) or beaded inside edge (BDD FR). Beaded Inset cabinet face frames are built with a haunch joint.

Door magnet catch in the closest coordinating finish available, chosen at Brighton's discretion, installed when barrel hinges are selected.

Applied false door option is not available with inset style cabinets, please choose the wainscot option. If false door is selected, the cabinet will be made with a wainscot panel in place of the false door. Pricing will also reflect wainscot panel applied.

PRICING PROCEDURES

For cabinetry, use the List price column that matches the desired door style; LEVEL 1 or LEVEL 2. List prices shown are for semi-overlay (SOL) doors with concealed (SOL-C) or knife hinge (SOL-K or SOL-K LIPPED) and Standard grade wood, except when a Rustic grade species is selected. The standard wood grade may reflect all or some of each species' beautiful, natural wood characteristics. These characteristics can include mineral streaks or deposits, sap marks, small knots, pin holes and worm holes. If the customer wishes to minimize the appearances of the natural characteristics, we strongly recommend ordering premium doors. This will not eliminate these imperfections but will only reduce their appearances. Premium grade wood is not necessary / recommended for painted finishes.

The total list price of the cabinet is calculated by multiplying the catalog price by the percentage of an optional upgrade listed in the chart below.

OPTIONAL UPGRADE	UPCHARGE TO CABINET PRICE
Premium grade wood for doors	Add 12 % * †
Framed Full Access (FFA) with concealed hinge	Add 11% *
FFA/Premium grade wood for doors	Add 23% * †
Full-overlay (FOL-C) door with concealed hinge	Add 11% *
FOL-C/Premium grade wood for doors	Add 23% * †
Inset door , Standard Frame (concealed or barrel hinge)	Add 20% *
Inset door, Standard Frame /Premium grade wood	Add 32% * †
Inset door, Beaded Frame (concealed or barrel hinge)	Add 22%*
Inset door, Beaded Frame /Premium grade wood	Add 34% * †
*These charges do not apply to accessories, molding, or modifications. †Premium upgrade <u>not</u> available for Clear Alder, Hickory, MDF, Quarter Sawn White Oak, Red Birch, Rift Cut White Oak, Rustic Alder, Rustic Hickory, or Weathered QSWO.	

WOOD SPECIES CHARGES

A species upcharge or deduction applies to the total list price. Refer to the chart to the right for pricing of each species. The upcharge or deduction applies to all wood items, modifications, and accessories that are of this species unless otherwise noted. **NOTE: Not all items are available in all species. Please see the specific product for notations calling out if it is not offered in the species you desire. Availability of any item is subject to change without notice.**

WOOD SPECIES	PRICING
Cherry	Add 8.5%
Clear Alder	Add 9%
Hickory	Subtract 2.5%
Maple	Add 6%
Maple w/ MDF door style	Add 4.5%
Quarter Sawn White Oak	Add 23%
Red Birch	Add 25%
Red Oak	Subtract 5.5%
Rift Cut White Oak	Add 48%
Rustic Alder	Add 1%
Rustic Hickory	Subtract 2.5%
Walnut	Add 23%
Weathered Grain QSWO	Add 24%

- LEVEL 2 + door styles have an additional upcharge. LEVEL 1- (minus) door styles have a price discount. The specific amount is specified with the door style information in this catalog. This upcharge or discount applies to cabinet doors, loose or false doors, wainscot panels, and 5-piece drawer fronts.
- A drawer box material upgrade is available. The upgraded boxes will change to 5/8" solid wood Walnut sides with 1/4" veneer walnut bottom. The upgrade, **BluMotion FEUG - Walnut Box**, is \$ List per drawer box. (This upcharge does not include rollout shelves or any other type of pullout unit.)
- See Optional Drawer Front Upgrades for pricing information when other than 3/4" slab drawer fronts are desired.
- Custom door configurations are available as a special quote. Pricing will vary based on custom details. Please submit a Custom Door Request form for a sample and pricing.

PRICING PROCEDURES

- All modifications based on a percentage are calculated on the total list price.
- When modifying cabinets to non-standard sizes, we encourage you to start with a cabinet that is larger and reduce it to the required dimensions. Reductions in size do not have any upcharge. If a cabinet is enlarged from its standard size an upcharge is required and must be added by the sales person in 20/20 to correctly price for this increase.

****Brighton reserves the right to substitute slab doors or drawer fronts when necessary. Some doors and drawer fronts, figuring not to be wide enough for safe manufacturing processes, will be substituted with slab doors or drawer fronts.**

FINISH OPTIONS

Brighton offers a large selection of finish colors and finish techniques. Some colors require a finish upcharge. A finish upcharge or deduction applies to the total list price. Refer to the chart below for pricing of each finish. Each finish upcharge or deduction applies to all wood items, modifications, and accessories that will have this finish. **NOTE: Not all items are available in all finishes. Please see the specific product for notations calling out if it is not offered in the finish you desire.**

Sheen: We offer two different sheen selections for stained finishes only. Our “Standard” sheen has a semi-gloss appearance. Our “Low” sheen has a satin appearance. No extra charge will be added for the “Low” sheen option on stained finishes. ****Note: Change of sheen for any category of paint finish will be considered a custom color and a custom color request must be submitted for a sample.**

Barnwood

Hearth

Parched

Whitewash

***Note:** This finish technique is available on Quarter Sawn White Oak only and is limited to only the door styles, exposed end options, and accessories noted on page I4F. Any change to species or finish requires that a Custom Color Request form is submitted for a custom color block to be produced and approved by the customer before an order for product is submitted.

Wear sanded finishes, the Weathered Grain Collection, Paints, and the finishes, Flagstone and Gunpowder, are offered as “Low Sheen”. “Standard” sheen will be considered a custom color♦ and a sample color block must be pre-approved.

**** Note:** Change of sheen to the above mentioned finishes as presented on our standard color blocks will be considered a custom color♦ and a sample color block must be produced and pre-approved.

♦ See Finish page with Custom Color definition for more details.

Finishes continued....

FINISH OPTIONS

Finish Colors: Please indicate the finish name on the order form. Some finishes may not be available on all door designs; see your specific door design for more information. Sheens listed are approximate and only used to show that some finishes are slightly different from others.

ALL SPECIES

CUSTOM PAINT BLOCKS EXPIRE 2 YEARS AFTER THEY ARE PRODUCED
ALL OTHER CUSTOM BLOCKS EXPIRE 1 YEAR AFTER THEY ARE PRODUCED

CUSTOM COLOR ♦ (custom upcharges apply to all items with custom finish applied)

Custom Stain + 8%	Custom Paint + 9%
Custom Stain with Glaze + 13%	Custom Paint with Glaze + 17%
Custom Wear Sanding +17%	Custom Special Finish +17%
Custom Special Finish and Wear Sand Combination +20%	

Any finish color, sheen, technique or combinations of any of these characteristics which are not listed in the “Finish Colors” section of the Brighton catalog as a standard selection are considered custom. Also, any species that is not listed as a standard selection will require a custom color sample even if the actual finish is listed as a standard color.

When requesting a Custom Color, please use our “Custom Color Request” form located within this section of the catalog. Complete the top portion of the form and submit the form with a sample or description of the color. The factory will produce a sample block for the customer to see and approve. Brighton will designate the custom color pricing level on the sample’s label prior to shipping the sample to you. A charge of **\$813 LIST** per Custom Color Request will be billed to the dealer with the same pricing structure as a sales aid item.

A door will not be used for the custom color approval process. You may order a door for the customer to view with their custom color after the color block has been approved. The door will be for a general representation only and is not to be used for the customer’s color approval. The factory will use their corresponding custom color block as the custom sample referenced when the cabinetry is produced.

When placing the customer order please designate the corresponding custom color pricing level on the 2020 order. Please reference the specific custom color request order number issued by Brighton when ordering the cabinetry. Written approval of the custom color must also accompany the order.

Custom colors must be approved by the dealer before orders will be scheduled for production. Orders placed prior to a sample’s approval will not be assigned a ship date and cannot be scheduled for production. This will affect lead times and can cause a delay in the delivery of the order.

Note: Please allow a minimum of 2 to 3 weeks for the custom color sample / approval process. Orders submitted with custom colors♦ may have extended lead times. If the custom color is not approved prior to an order being submitted the lead time can extend a minimum of an additional 2 to 3 weeks.

A custom color block is valid only for a set period of time, at Brighton Cabinetry’s discretion. Once a custom block has expired, the factory may dispose of their corresponding block. Custom paint blocks expire 2 years after originally produced. All other custom blocks expire 1 year after originally produced.

***Note upcharges for custom finish options. \$813 LIST per Custom Color Request.**

****Note “Low” sheen selection is not a standard offering for our standard Paints, Paints w/ Glazes, and Special Finishes. Change of sheen on standard Paints, Paints w/ Glazes, and Special Finishes will be considered a custom color♦ and a sample color block must be pre-approved. The Harbor Collection is offered as “Low Sheen”. “Standard” sheen will be considered a custom color♦ and a sample color block must be pre-approved.**

♦ “Custom Colors” are defined as: Any finish color, sheen, technique or combinations of any of these characteristics which are not listed in the “Finish Colors” section of the Brighton catalog as a standard selection. Color combinations desired where N/A are indicated must have a custom sample produced prior to the order being placed. Reference Custom Color information in this section for more details.

FINISHING PROCESS INFORMATION

Brighton Cabinetry, Inc. offers a variety of finishes. It is important to understand the application process when applying different finish materials. Problems related to color and adhesion can occur when the correct application methods are not followed. The correct applications for materials are as follows:

Toners—Toners are extremely low in solid content, evaporate quickly and should not be hard wiped. Toners are often the 1st coat or base color for multiple finishes. However, toners can be applied as the only coat such as Butterscotch and Hazelnut. This type of material should be applied with the HVLP spray gun technology.

Stain—Stains can be the only or 2nd color coat applied. These materials are generally hand wiped and can be applied over toners for color generation. Brighton Cabinetry, Inc. recommends using HVLP gun technology when applying, however most stains can be applied and wiped by hand with a lint free towel.

Sealers—Sealers are used to harden the fibers in wood products for sanding purposes. This application is generally performed after toning and staining. They also provide a protective layer of coating which helps minimize the possibility of moisture and other elements related to commercial and residential environments. Sealers are to be applied using HVLP gun technologies and should not be applied by hand. Catalyst is typically added to aid in the curing process.

Glazes—Glazes are applied as a final color step. They are used to accent the color and appearance and are applied after sealer is cured. Glaze hang-up is generally left in profiled areas to further compliment the final appearance. Brighton Cabinetry, Inc. recommends using HVLP gun technology to apply glaze. However, hand application can be used. Wiping is to be done with a lint free towel.

Top Coats—Top Coats and Pigmented Conversion varnish are applied for the final finishing process. They are used as a final curing step and also provide a protective layer of coating to minimize defects attributed to the elements of commercial and industrial environments. Top Coats are also used to determine sheen or gloss. They are to be applied using HVLP gun technologies and should not be applied by hand. Catalyst is typically added to aid in curing.

Due to the complexity of wood finishing, it is recommended that customers use Brighton Cabinetry, Inc. for all of their finishing needs. However, in situations where this is not preferable we recommend applying all chemical coatings with HVLP spray gun technology. Proper safety precautions are encouraged. When spraying coatings, respiratory equipment is highly recommended. Brighton Cabinetry, Inc. is not responsible for any product damaged in the application of this process outside of our manufacturing facility.

FIELD APPLICATION OF FINISHES

There are a few important things to know before beginning the finish application process.

The wood needs to be prepared by lightly sanding with 180 or less course grit sandpaper.

Thoroughly stir or agitate the contents of each container before using.

Always use a lint free cloth for all wiping applications.

Always practice on something of the same species of wood, other than the finished product, to achieve the desired color.

Always wear a respirator when applying any finishing materials.

Always provide proper ventilation in the area when applying any finishing materials.

Be sure each step is completely dry before sanding or continuing on to the next step.

Be sure to clean all of your spray equipment with thinner after each use. The catalyzed sealers and topcoats will set up if left in the equipment.

Your materials may include one or more of the following components and must be applied in the order they are listed below. However, not all finishes will contain all of the materials listed below. Each material will be marked accordingly.

Spray Toner: Toners must be sprayed evenly on the prepared wood substrate. Do not attempt to wipe toner materials on to or off of a wood surface. Toners may be the only color coat or may be accompanied with a wiping stain to achieve the desired appearance. Occasionally multiple passes are necessary to achieve the desired result. Adequate dry time to handle is 5 to 10 minutes per piece.

Wiping Stain: Stains may be the only color coat or may follow a toner application to achieve the desired appearance. Stains may be applied by spraying on and wiping off, or by simply wiping the stain onto the prepared wood surface. In most cases, immediately after applying the stain, all excess stain needs to be wiped off of the surfaces. (Leaving the stain on longer can allow the stain to penetrate more, resulting in a darker appearance.) Adequate Dry time to handle is 1 hour.

Continued on next page.

Continued from previous page.

Catalyzed Sealer: Sealer may be clear, or white for painted colors. The sealer is a two-part mixture which consists of finishing material and a hardener or catalyst. After the desired color is achieved and when you are ready to use the sealer, both parts (sealer and catalyst) are to be combined and thoroughly mixed together. This mixture must be used within 24 hours or it will harden and become useless. Apply the sealer only by spraying it evenly across the wood surface. Adequate dry time to handle is 1 hour. However, 8 hours is recommended before sanding and moving on to the next step. Lightly sand the sealed surface with 180 or less abrasive grit sandpaper.

Glaze: Only apply the glazing by spraying the glaze evenly onto the surface of the sealed wood. Wipe the glaze from the surfaces of the wood leaving some glaze in the profiles of the piece you are finishing. This is an artistic technique which may take some time to achieve the desired result. Mineral spirits may be used to wipe excess glaze from the surfaces if it tends to dry too fast. It is recommended to allow 8 hours for the glaze to dry before applying topcoat. Be careful handling the piece you are finishing after the glaze has dried as the glaze will not harden and needs the topcoat to harden and protect it.

Catalyzed Topcoat: Topcoat may be clear, or of color for the painted colors. The topcoat is also a two-part mixture which consists of finishing material and a hardener or catalyst. When you are ready to use the topcoat, both parts (sealer and catalyst) are to be combined and thoroughly mixed together. This mixture must be used within 24 hours or it will harden and become useless. Only apply topcoat by spraying evenly over the piece you are finishing. Topcoat is usually the final step in finishing any part but after it is dry it can be sanded and sprayed over again if necessary. Adequate dry time to handle is 1 hour. However, 24 hours is recommended before working with the finished piece.

Effects of Temperature and Humidity

Wood is a hygroscopic material, meaning that it will absorb or release moisture until it is in equilibrium with the moisture in the air. This is true of all wood, whether it is raw or finished. Finishing will tend to slow down this process, but will not eliminate it. When wood is exposed to a constant humidity, it will achieve a constant moisture content (MC). This MC numerical value is called the equilibrium moisture content (EMC). Wood will increase in width and thickness as it increases in MC, and will decrease in width and thickness as it decreases MC. Brighton Cabinetry manufactures its products in a controlled environment to maintain a stable moisture content of the materials.

Products supplied by Brighton Cabinetry should only be stored / installed in an environment that has stable temperature and moisture conditions. This is especially important in regards to multi-piece items such as doors and drawer fronts. Effects of moisture (addition to / loss of) may include panel expansion, panel contraction, overlapping or excessive gaps of butt-doors, splitting of wood, joint expansion or opening (especially on miter doors), finish cracking or peeling, stile bowing, stile / rail expansion, and stave to stave lines becoming visible in panels. Contraction of finished panels may also produce an effect called white line, in which a narrow strip of unfinished wood becomes visible at the point where the panel inserts into the framing. Brighton has specifications on most of these conditions. For details on what is considered acceptable, refer to the following information.

- Cabinetry installed in new construction prior to climate control being activated will result in absorption of moisture from other building materials. These materials can include paints, dry wall compound, cement, stucco and wood framing material with high moisture content. Each of these construction materials releases high amounts of moisture into the home during the drying / curing process that can be absorbed by your Brighton products.
- Wood products located in humid climates are especially susceptible to expansion due to moisture. Brighton Cabinetry will not warrant product failure caused by excessively humid conditions.
- Wood products located in dry climates are especially susceptible to contraction due to lack of moisture in the air. Brighton Cabinetry will not warrant product failure caused by excessively dry conditions.
- Wood products installed in non-air conditioned homes, regardless of location, are very susceptible to expansion due to moisture and may not be warranted. All products, especially miter doors, need low, stable moisture conditions in order for the joints to remain tight.
- To minimize moisture expansion of wood products, winter and vacation homes should maintain some form of climate control, even in off season. Brighton Cabinetry will not warranty products stored / installed in uncontrolled environments.

Tips for Avoiding Moisture-related Problems:

All species, especially maple, tend to expand when exposed to moisture. Failure to allow the interior home environment to reach stable conditions prior to storage/installation of Brighton's products will invite warpage and other related problems. Please refer to the following tips to avoid potential moisture related issues.

- Brighton recommends a level of approximately 50% humidity in the home environment to maintain proper moisture content of the wood. You should install your Brighton products only after the proper humidity levels have been achieved and maintained.
- Door expansion experienced prior to installation on the cabinet box will usually recede once the kitchen has been installed in an air conditioned environment. For this reason, we do not recommend trimming or "shaving" the edges of the doors, because once they return to original sizing, the doors may appear too narrow. Brighton will not warrant products that have been trimmed by the customer.
- Unfinished doors exposed to humid conditions will absorb moisture rapidly and expand in as little as 2 days. Finished products will also absorb moisture and swell, but may not expand for as long as 10 days or more. Be aware of these conditions when storing and installing finished or unfinished products.
- Doors that have been exposed to high moisture conditions and then finished by the customer have an increased chance of white line or halo developing around the panels after the doors have contracted to their original size. We recommend doors be finished in their non-expanded state as soon after delivery as possible.
- Always go to extra lengths to ensure that all wood products are being stored in the proper environment. Brighton Cabinetry will assume no responsibility for improper handling, storage, finishing, or installation of its products in high moisture/humidity conditions.
- Inset doors will most likely bind inside the cabinet frame when their panels expand due to high moisture/humidity conditions.
- Joint failure will result if panels are glued, pinned, stapled or secured to the framing on any wood door. Brighton will not be held liable in these instances.

DOOR AND DRAWER EDGE PROFILES

Drawings are for illustrative purposes and are not to scale.

Not all edge profiles, framing beads and panel raises are available with all door designs. Check the specific door style in the catalog to be sure the desired changes can be made.
'N/A' listed for a profile, frame bead or center panel indicates this option cannot be changed.

ORDERING DOORS:

When ordering the standard door and drawer style configuration, enter just the door style name on the order form. It is not necessary to enter the standard panel and edge profiles. When modifying a specific door style from its standard offered design, choose the appropriate Custom door pricing level in 20/20 and note the desired changes. Typically, modifications to standard door styles will not incur upcharges for panel and / or profile changes unless noted. Most mortise and tenon door designs can have the door framing increased up to 4" wide with no additional upcharge. Please check the specific door style in the catalog to be sure the required changes can be made. Contact Customer Service with any questions.

For optional 5-piece drawer head, or the slab drawer head for the shaker style, enter the drawer head style required. Always enter the hinge/reveal, wood species, and stain choices.

Painted MDF doors and drawer heads are constructed of 3/4", 48 LB. substrate.

Other door styles are available as a special quote. Please use the Custom Door Request form to submit your request.

Custom Door Request

Brighton Cabinetry offers a wide range of standard door styles that suit most customer's taste. We realize that occasionally a customer may desire a door that is not one of our standard designs. While we do not offer every possible door configuration available as a standard choice, we will gladly match other designs as closely as possible for the customer. To do this, we require that a custom door sample be made in advance for the customer's approval. This sample must be produced and approved prior to submitting the final cabinetry order. To simplify the sample process please use the Custom Door Request form designed specifically for this purpose.

The Custom Door Request form asks for specific information to generate a custom door sample for the customer's approval. Please fill in all of the information fields that are listed above the box marked for Brighton's internal use, providing as many details as possible. Ideally, an example of the door design should be sent to Brighton to compare exact details when the Custom Door Request form is generated by the sales person. Clear photos including close-ups showing profile and panel raise characteristics are very useful if a physical example of the custom door cannot be provided.

The typical sample produced for the custom door request will be a 12" x 15" door. If a matching drawer front other than a typical 3/4" thick slab is requested, a DRSMP may be provided instead. The DRSMP is a 15" x 30" frame in a base, one-drawer configuration that will include a drawer front and hinged door. We can also customize drawer fronts for designs other than the more common 3/4" thick slab and 5-piece raised or flat. Be sure to note custom drawer front information on the form if a unique configuration is desired.

When the custom door sample is shipped for approval, a label on the back of the sample will contain the unique SO# assigned by Brighton and will also indicate the pricing level for the design. When the customer approves the door sample, the Custom door selection within 20/20 is to be chosen along with the appropriate price level. Custom pricing levels may apply to matching drawer fronts and will be indicated on the drawer front sample label when shipped. The SO# for the custom sample should be referenced for the job either within 20/20 or in a cover page when the cabinetry order is submitted. A copy of the Custom Door Request form, with the customer signature to indicate approval of the received sample, should also be submitted with the order. A copy of this form will be returned to you with the sample when shipped from the factory. This copy will indicate the same price level and assigned sales order number (SO#) as the identifying label.

Changes to the factory provided custom door sample may require a new sample be produced and approved. This is for any change, including species, finish, overlay, and drawer front design. These slight changes may affect the pricing level and there is a possibility the change may not be available. To determine if a new sample is required due to a change, contact Customer Service should this occur.

Please remember that the Custom Door Request process must be entirely complete before the cabinetry order is submitted to the factory, this includes the approval of the produced custom sample. While we understand that this process may seem time consuming and even tedious, experience has proven that this is a necessary step to ensure that the customer receives the cabinetry they are expecting. Orders placed prior to the customer approval of a custom door design are considered incomplete and may be refused. Orders containing custom door and / or custom drawer front designs may have extended lead times and will not qualify for the Quick Ship program.

Please contact Brighton's Customer Service department with questions regarding our custom door process.

- VFP (Veneer Flat Panel) door designs feature 1/4" flat veneered center panels only and are offered at a discounted price.
- All PREP and AMUL options are available.
- Premium wood upgrade not available.
- Rustic Alder and Rustic Hickory will have knotty framing only. The center panels will be standard grade wood. Some door styles are not available with this option. See specific door design for more details.
- 5-piece drawer fronts are available for an upcharge. See Optional Drawer Front Upgrades in the Introduction section of the catalog for rules and pricing of drawer fronts other than slab drawer fronts.
- Other door designs not listed as VFP in this catalog may be available with a 1/4" center panel. Please submit a Custom Door Request form to orders@brightoncabinetry.com for a door sample and pricing. Not all custom doors may be available at a discounted price.

OPTIONAL DRAWER FRONT UPGRADES

5-PIECE DRAWER FRONT

- 5-piece drawer fronts are available with most door designs. Please refer to the catalog page for each door style for specific details regarding 5-piece drawer front availability.
- Top and bottom rails are cut down for most mortise and tenon designs when the drawer front is less than 8" tall. See below for rail sizes on larger mortise and tenon drawer fronts.
- Specify flat or raised for the center panel if the raised panel option is available.
- Minimum drawer front sizes will vary per design.*
- 5-piece drawer fronts are not available for Churchill and Verona top base openings when Inset hinging is selected. The photo to the right shows the profile of the Inset drawer front when the 5-piece option is selected for these two door designs and the drawer front measures 6 1/2" H or less. Larger Inset 5-piece drawer fronts will be the typical framed design as used with overlay cabinets.

5-piece Inset top base drawer front for Churchill and Verona (profile view)**

****This style drawer front is available only in Cherry, Maple and Red Oak.**

RULES FOR 5PC MORTISE AND TENON DRAWER FRONTS

The following rules apply to mortise and tenon 5-piece drawer fronts only. The stiles of the drawer fronts will be full width for the specific drawer front design per Brighton's standard door specifications. These rules are for sizing the top and bottom drawer front rails only. These rules apply to named door styles in our standard door selections and the offered VFP equivalents. MDF drawer fronts are excluded.

- When drawer fronts are under 8" high, the rails will be 1 1/2" wide.
- When the drawer fronts are at least 8" high and are under 10" high, the rails will be 2 5/16" wide. (See list A below)
- When drawer fronts are 10" high or more and the Brighton specification for the corresponding door lists the framing to be over 2 5/16" wide then the top and bottom rails will be full width to match the door specification. (See list B below)

A. 2 5/16" M&T framing designs

Amesbury	Neoga Ridge Arched
Aspen	Newport
Café	Shaker
Cottage	Sheldon
Eclipse	Summit
Fairhaven	Sunrise
Heartland	Verona
Homeland	Wabash
Neoga Ridge	

B. Wider M&T framing designs

Bryant (3" framing)
 Cascade (3" framing)
 Churchill (2 3/4" framing)
 Fairfield (3 3/8" framing)
 Hampton MT (3" framing)
 Heritage (3" framing)
 Hillsbrad MT (2 3/4" framing)
 Luna (2 3/4" framing)
 Meadowview (3 3/8" framing)
 Roderia (3" framing)

GLASS DOOR STYLE DETAILS

GLASS DOORS WITH SOL-K AND SOLK-LIPPED HINGING MAY HAVE WIDER DOOR STILES THAN THE STANDARD DOOR DESIGN. NOT ALL MITER DOORS MAY BE AVAILABLE FOR GLASS INSERT WHEN USING KNIFE HINGES. MULLION DOORS OVER 48" HIGH OR 24" WIDE WILL REQUIRE MULTIPLE AMUL CHARGES DUE TO MULTIPLE OPENINGS: 1 CHARGE PER PANEL OPENING WITH MULLIONS. MINIMUM DOOR SIZE IS BASED ON 2 1/4" STILES AND RAILS.

MULLION / LITE DOORS

- Wood mullions, specify the number of lites (6-lite shown.) AMUL2
- Glass not included, price separately. AMUL4
- Flexible plastic insert retainer beading is supplied. AMUL6
- 7 7/8" W x 7 7/8" H minimum door size AMUL8
- Mullions may not align with adjustable shelving. AMUL10
- The AMUL2 will have a vertical mullion that divides the door equally to have 2 openings side by side. AMUL12

9 LITE OFFSET

AMUL9

- Standard corner openings for most door designs are 2" x 2"
- Specify for custom size openings (2" x 2" is the minimum)
- Corner openings for Madrid, Sardinia and Valletta doors are 3" x 3".
- Glass not included, price separately.
- Flexible plastic insert retainer beading is supplied.
- 12 1/8" W X 12 1/8" H minimum door size

DOOR PREPARED FOR INSERT

PREP FOR INSERT NO CHARGE

- Door frame is prepared to accept plastic insert.
- Flexible plastic insert retainer beading is supplied.
- Glass not included, price separately.
- Minimum door size is based off the selected door style. Please see specific door listing for minimum size allowed.

GLASS DOOR STYLE DETAILS

GLASS DOORS WITH SOL-K AND SOLK-LIPPED HINGING MAY HAVE WIDER DOOR STILES THAN THE STANDARD DOOR DESIGN. NOT ALL MITER DOORS MAY BE AVAILABLE FOR GLASS INSERT WHEN USING KNIFE HINGES. MULLION DOORS OVER 48" HIGH OR 24" WIDE WILL REQUIRE MULTIPLE AMUL CHARGES DUE TO MULTIPLE OPENINGS: 1 CHARGE PER PANEL OPENING WITH MULLIONS. MINIMUM DOOR SIZE IS BASED ON 2 1/4" STILES AND RAILS.

PREPSP09

- Divides a single door into a top open frame prepped for insert and a lower solid center panel.
- Upper frame opening is 9" high.
- Flexible plastic insert retainer beading is supplied.
- Glass not included, price separately.
- This option is not available with Woodridge or Zenith door design.

PREPSP12

- Divides a single door into a top open frame prepped for insert and a lower solid center panel.
- Upper frame opening is 12" high.
- Flexible plastic insert retainer beading is supplied.
- Glass not included, price separately.
- This option is not available with Woodridge or Zenith door design.

PREPSP15

- Divides a single door into a top open frame prepped for insert and a lower solid center panel.
- Upper frame opening is 15" high.
- Flexible plastic insert retainer beading is supplied.
- Glass not included, price separately.
- This option is not available with Woodridge or Zenith door design.

GLASS DOOR STYLE DETAILS

GLASS DOORS WITH SOL-K AND SOLK-LIPPED HINGING MAY HAVE WIDER DOOR STILES THAN THE STANDARD DOOR DESIGN. NOT ALL MITER DOORS MAY BE AVAILABLE FOR GLASS INSERT WHEN USING KNIFE HINGES. MULLION DOORS OVER 48" HIGH OR 24" WIDE WILL REQUIRE MULTIPLE AMUL CHARGES DUE TO MULTIPLE OPENINGS: 1 CHARGE PER PANEL OPENING WITH MULLIONS. MINIMUM DOOR SIZE IS BASED ON 2 1/4" STILES AND RAILS.

11 LITE OFFSET

AMUL11

- Standard opening in corners is 2" x 2".
- Glass not included, price separately.
- Flexible plastic insert retainer beading is supplied.
- 12 1/8" W x 14 5/8" H minimum door size.

ARCHED LITE MULLION

AMULA

- 7 radius lites
- Ogee framing bead may burnish when coped.
- Glass not included, price separately.
- Flexible plastic insert retainer beading is supplied.
- 11 5/8" W x 9 5/8" H minimum door size.
- Not available for doors with an F877 or Elite inside frame bead. This includes Fairfield, Meadowview, Monroe, Neoga Ridge, and Neoga Ridge Arch door designs. Other door styles may not be available with this mullion pattern, contact our Quote Department for details.

DOUBLE ARCHED LITE MULLION

AMULDA

- 12 radius lites
- Ogee framing bead may burnish when coped.
- Glass not included, price separately.
- Flexible plastic insert retainer beading is supplied.
- 11 5/8" W x 14 15/16" H minimum door size.
- Not available for doors with an F877 or Elite inside frame bead. This includes Fairfield, Meadowview, Monroe, Neoga Ridge, and Neoga Ridge Arch door designs. Other door styles may not be available with this mullion pattern, contact our Quote Department for details.

GLASS DOOR STYLE DETAILS

GLASS DOORS WITH SOL-K AND SOLK-LIPPED HINGING MAY HAVE WIDER DOOR STILES THAN THE STANDARD DOOR DESIGN. NOT ALL MITER DOORS MAY BE AVAILABLE FOR GLASS INSERT WHEN USING KNIFE HINGES. MULLION DOORS OVER 48" HIGH OR 24" WIDE WILL REQUIRE MULTIPLE AMUL CHARGES DUE TO MULTIPLE OPENINGS: 1 CHARGE PER PANEL OPENING WITH MULLIONS. MINIMUM DOOR SIZE IS BASED ON 2 1/4" STILES AND RAILS.

ODYSSEY MULLION

AMULO

- 6 lite openings with two mullion strips extending below horizontal mullion.
- 4 top lites will equal approximately one fifth of the interior opening height, include sketch if specific opening heights are required.
- Glass not included, price separately.
- Flexible plastic insert retainer beading is supplied.
- 14 7/8" W x 11 3/8" H minimum door size.

DIAMOND MULLION

AMULD

- 4" x 4" diamond lite centered left to right and 4 1/2" from top rail.
- Glass not included, price separately.
- Flexible plastic insert retainer beading is supplied.
- 12 5/8" W x 18 5/8" H minimum door size.
- May not be available for all door styles.

DOUBLE DIAMOND MULLION

AMULDD

- 2-4" x 4" diamond lites centered left to right and 4 1/2" from top and bottom rails.
- Glass not included, price separately.
- Flexible plastic insert retainer beading is supplied.
- 12 5/8" W x 25 1/4" H minimum door size.
- May not be available for all door styles.

GLASS DOOR STYLE DETAILS

GLASS DOORS WITH SOL-K AND SOLK-LIPPED HINGING MAY HAVE WIDER DOOR STILES THAN THE STANDARD DOOR DESIGN. NOT ALL MITER DOORS MAY BE AVAILABLE FOR GLASS INSERT WHEN USING KNIFE HINGES. CABINET CARE

CARING FOR THE INTERIOR:

1. Simply wipe with a damp cloth or sponge, then dry immediately.
2. To remove food residue or grease, use any common dishwashing liquid and a clean damp cloth to wipe clean. Dry thoroughly.

For Spills: If a spill occurs, clean up and dry immediately. Left unattended, a spill can soak through the surface and cause damage.

CARING FOR WOOD SURFACES:

1. Wipe the surface with a clean, damp cloth, then dry immediately.
2. To remove general soil or grease, use any common dishwashing liquid and a clean damp cloth to wipe clean. Dry thoroughly.
3. Excess moisture can damage any cabinet finish; areas near the sink, range, dishwasher, oven, and baseboards are most susceptible. Keep these surfaces dry.
4. Avoid draping damp cloths or dish towels over cabinet doors. Over time, this moisture could cause permanent water damage.
5. Waxing is not necessary, but you may apply any furniture polish or lemon oil recommended for fine furniture, if desired. Be sure to wipe off excess to avoid buildup.
6. DO NOT attach or adhere items such as sticky-back notes, colored paper, etc. to the cabinetry as these items risk having the colors bleed through damaging the cabinet finish.

Do not use a dish cloth for cleaning. It could contain remnants of grease or detergents.

BLEACH & AMMONIA: Avoid using cleaners that contain bleach, ammonia, or abrasives. These cleaners can damage your cabinet's finish.

NOTES

SPECIFICATIONS

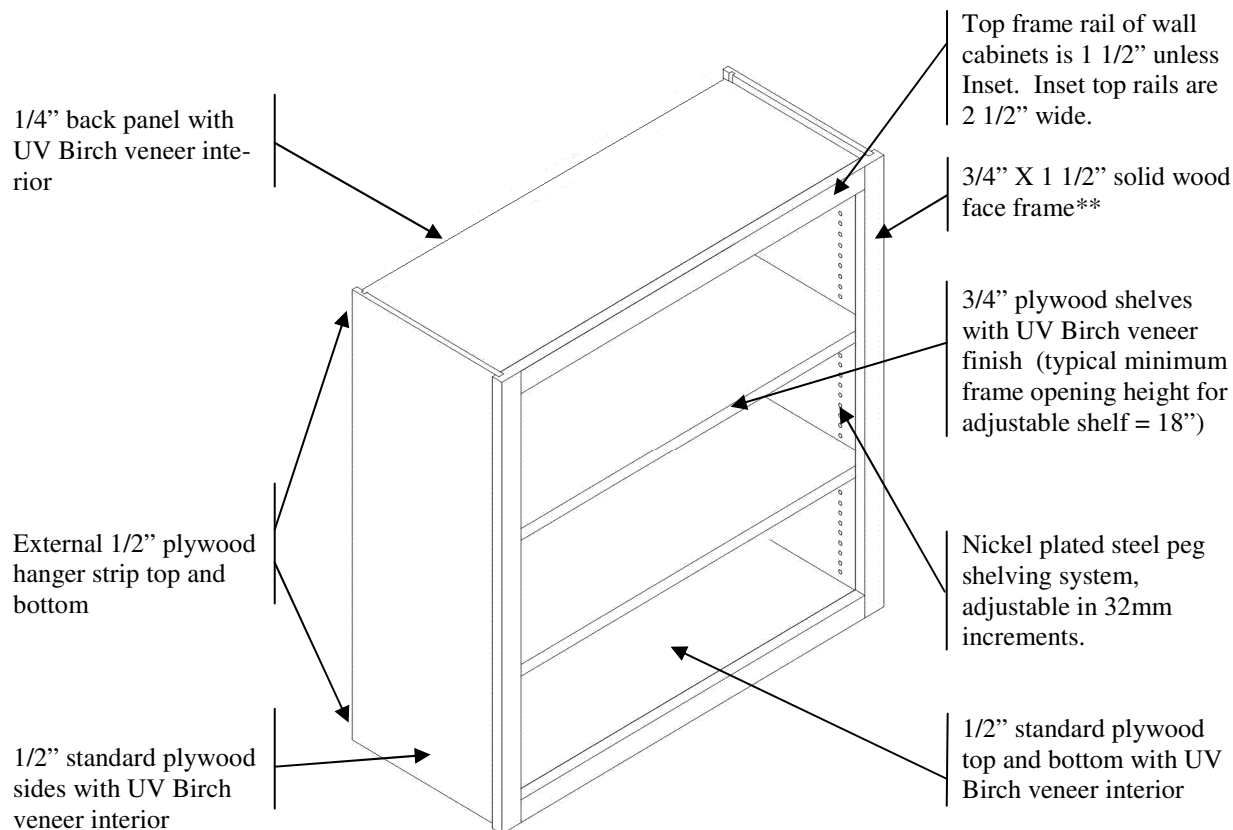

WALL CABINETS

(See "Cabinet Construction Specifications" and "Pricing Procedures" for options.)

Wall Cabinet Nomenclature

STANDARD WALL CABINET DEPTH: 13"
STANDARD INSET WALL CABINET DEPTH: 13"

VERTICAL STACK CABINET SPECIFICATIONS

- Cabinets that have the look of two cabinets that have been stacked one on top of the other.
- Wall cabinets have two frame openings, one top and one bottom, with a center frame rail and fixed center floor dividing the two sections.
- Tall cabinets have three frame openings, one top, one middle, and one bottom, with a center frame rail and fixed center floor dividing each section.
- Offered standard with top doors equal to 12", 15", 18" or 21" high cabinets. Upper door heights will align with cabinet height equal to first set of numbers listed in the nomenclature. See example above.
- "Single door" indicates one door across width for each opening. "Two doors" indicates 2 butt-doors for each opening.
- Specify L or R for hinge side when applicable.
- Shelf quantities are dependent on the specific opening height of each section. A minimum of 18" frame height opening is required for an adjustable shelf. The chart below is for standard cabinets and shelf quantities will change if the height of the cabinet sections or the overall height changes.
- Matching wood interior modification (MMWI) will change the entire cabinet interior to have a finished interior.
- For vertical stacked wall cabinets: Any height change will modify the cabinet in the lower section. The upper frame opening height will not change unless specified on the order and will require a frame change charge (MFC).
- For vertical stacked tall cabinets: Any height change will modify the cabinet in the middle section. The top and bottom frame opening heights will not change unless specified on the order and will require a frame change charge (MFC).
- FOL-C overlay cabinet has a 3" face frame mid-rail below the top section. All other overlays have a 1 1/2" face frame mid-rail.
- Cabinets 39" wide or greater will have a fixed center stile in each section as standard.

WALL PIE CUT, ADJUSTABLE SHELVES

- See page W12 for Vertical Stack cabinet specifications.
- 13" deep, standard
- Specify left (L) or right (R) for hinge side. (No partition available on same side as hinge.)
- Cabinets with a leg width modified to less than 24", may have a slab door. See specific door styles for minimum sizes.
- It is recommended that all hardware screws are countersunk into the back of the door to avoid possible damage to the cabinet face frame.

Pie cut cabinets with unequal width dimensions will list the left width first in the product nomenclature followed by the right width.
Example: WPCA242530 has a left width of 24", a right width of 25" and a height of 30".

WALL PIE CUT, REVOLVING SHELVES

- See page W12 for Vertical Stack cabinet specifications.
- 13" deep, standard
- Turntables will be attached to each adjustable shelf and the lowest bottom floor.
- Specify left (L) or right (R) for hinge side. (No partition available on same side as hinge.)
- Cabinets with a leg width modified to less than 24", may have a slab door. See specific door styles for minimum sizes.
- It is recommended that all hardware screws are countersunk into the back of the door to avoid possible damage to the cabinet face frame.

WALL BLIND CORNER, VERTICAL STACK

BLIND AREA IS 16" WIDE. THIS PROVIDES 3" CLEARANCE FROM ADJOINING CABINET. CABINETS CAN BE PULLED AN ADDITIONAL 3".

- See page W12 for Vertical Stack cabinet specifications
- Center stile is 6 3/4" wide, blind opening is 7 3/4"W.
- Typically requires a 3" filler to adjoining cabinets, provided with cabinet. (Field installation required.)
- Specify left (L) or right (R) for blind opening side. Right shown.
- Inside 1/4" panel covers blind opening.
- Single door hinges to blind side and will have 90 degree hinging when FOL-C, FFA, SOL-C, or Inset-Conc.

NOTE: The adjacent cabinet at right angle to the Blind Wall must have an extended stile or filler for proper door clearance. Hardware pulls will require additional clearance.

- Specify left (L) or right (R) for blind opening side. Right shown.
- The door closest to the blind side will have 90 degree hinging when FOL-C, FFA, SOL-C, or Inset-Conc.
- Inside 1/4" panel covers blind opening.
- Vertical stack cabinet configuration also available, see Wall Contents.

NOTE: The adjacent cabinet at right angle to the Blind Wall must have an extended stile or filler for proper door clearance. Hardware pulls will require additional clearance.

WALL WINE RACK DISPLAY CABINET

WWRD1236, holds 10 bottles

Vertical type configuration, available standard in 30" and 36" heights. Each column will have the lower area for display and stacked bottles above.

WALL WINE RACK DISPLAY CABINET

- 13" deep standard
- Minimum dimensions: 9" wide, 15" high, 13" deep.
- Cabinet case is same interior wood and specie as exterior.
- Interior bottle racks will always be Maple, finished in choice of Natural (NA) or Black (BL). Specify finish: NA or BL. Any other specie or finish **MUST** be quoted.

NOTE: Bottle configuration may be altered and may be less appealing visually if the dimensions are modified from those offered as standard.

WWRD2721, holds 16 bottles

Horizontal type configurations*, available standard in 15", 18" and 21" heights.

WWRD3321, holds 20 bottles

WPCA2439		
WPCA2442		
WPCA2448		

WALL PIE CUT, ADJUSTABLE SHELVES

- 13" deep, standard
- 24" high cabinets have one adjustable shelf.
- 30" thru 36" high cabinets have two adjustable shelves.
- 39" thru 48" high cabinets have three adjustable shelves.
- Specify left (L) or right (R) for hinge side. (No partition available on same side as hinge.)
- Cabinets with a leg width modified to less than 24", may have a slab door. See specific door styles for minimum sizes.
- It is recommended that all hardware screws are countersunk into the back of the door to avoid possible damage to the cabinet face frame.
- Vertical stack cabinet configuration also available, see Wall Contents.

Pie cut cabinets with unequal width dimensions will list the left width first in the product nomenclature followed by the right width.
Example: WPCA242530 has a left width of 24", a right width of 25" and a height of 30".

WALL PIE CUT, REVOLVING SHELVES

- 13" deep, standard
- 24" high cabinets have one adjustable shelf and two turntables.
- 30" thru 36" high cabinets have two adjustable shelves and three turntables.
- 39" thru 48" high cabinets have three adjustable shelves and four turntables.
- Specify left (L) or right (R) for hinge side. (No partition available on same side as hinge)
- Cabinets with a leg width modified to less than 24", may have a slab door. See specific door styles for minimum sizes.
- It is recommended that all hardware screws are countersunk into the back of the door to avoid possible damage to the cabinet face frame.
- Vertical stack cabinet configuration also available, see Wall Contents.

NOTE: When finished interior is chosen, the turntables will remain Natural Maple.

WALL PIE CUT THREE DOOR, 13" DEEP

WPCA3D243330

Pie cut cabinets with unequal width dimensions will list the left width first in the product nomenclature followed by the right width. Example: WPCA243330 has a left width of 24", a right width of 33" and a height of 30".

WPCA3D332430

WALL PIE CUT 3 DOOR OFFSET CABINETS

- The single hinged door is attached to the outside frame stile on the opposite leg.
- The 2-butt doors will be equal in width to each other unless otherwise specified.
- It is recommended that all hardware screws are countersunk into the back of the door to avoid possible damage to the cabinet face frame.
- See illustrations for hinge configuration.
- Vertical stack cabinet configuration also available, see Wall Contents.

WALL FLOATING SHELF

WALL FLOATING SHELF

- 13" deep, 2" or 3" high standard. Height cannot be reduced below 2".
- Maximum width is 96", maximum depth is 16".
- Outer decorative shelf cover matches specie and finish of the order.
- Each shelf is comprised of an inner support frame and the outer decorative cover that slides over the support frame.
- After the entire unit is installed, Brighton recommends that the outer decorative cover is secured to the inner support frame using small finishing nails or headless pins so the outer decorative shelf doesn't accidentally slip off the support frame.

	WFSHELF348	
	WFSHELF360	
	WFSHELF372	
	WFSHELF384	
	WFSHELF396	

NOTE: It is essential that the support frame is properly secured to the wall studs. The frame must be mounted using four or more coarse-thread screws at least 2 1/2" in length. For shelves 60" and over in length: 60" shelves must be mounted to three or more wall studs, 72" shelves must be mounted to four or more wall studs, 84" shelves must be mounted to five or more wall studs, and 96" shelves must be mounted to six or more wall studs.

The load capacity of the shelves is dependent on the quality of the installation screws used and whether the screws are properly secured into studs. If the shelves are not installed using high quality, coarse-thread screws secured into two or more wall studs then the shelf may not support the weight desired. Brighton cannot and will not be responsible for shelf failure caused by insufficient installation materials or techniques.

WALL END SHELF

GENERAL INFORMATION FOR WALL END SHELVES

- For finished end: a custom quote must be requested.
- 30" high units have 3 fixed shelves.
- 36" to 42" high units have 4 fixed shelves.

Valances are shipped at the size indicated in the product nomenclature and are not cut down at the factory except by special request only.

- Horizontal grain.
- Finished on face, back and bottom edge.
- Noted dimensions on illustrations are for 5" high valances. The specified dimensions remain the same for all valance heights with the additional valance height added to the top, flat area unless specified on the order. See below for exceptions.
- Specify valance style first then width and height. Example: "ASTV6010" will be a Straight Valance 60" wide by 10" tall.
- Some valance designs may not appear as defined in shape as illustrated due to increased length of the piece. This occurrence is most common for valances over 48" wide.

* For the classic arch valance (ACAV) and arched valance (AARV) ordered over 48" wide, the height of the arch will measure 3" high at the center instead of 2" as illustrated.

NOTES

ARCHED PANEL VALANCE

- Dimensions shown above are standard for most door designs. Valance framing will be changed automatically to most closely match door designs with wider standard framing dimensions. See specific door designs for framing width details.

30" TO 48" WIDE

ARPV	PER SQ FT + PER PC
------	--------------------

OVER 48" UP TO 72" WIDE

ARPV	PER SQ FT + PER PC
------	--------------------

+ 20% UPCHARGE FOR CUSTOMIZED

- This upcharge applies for any type of deviation from the specs listed on this page.

- Available standard sizes in 3" increments only from 30" to 72"
- Standard height is 12 1/2"
- 3/4" thick
- Outside edge is machined when possible
- Valances ordered to match mitered door designs cannot be trimmed in the field
- All standard framing beads and panel raises available (see Introduction section for choices). Unless otherwise specified these profiles will match the door style. Some exceptions may apply for raised center panels due to manufacturing restrictions.
- Horizontal grain is standard. Vertical grain is available with a \$150.00 upcharge per piece
- Please send for quote if needing an odd size or different framing widths for panels cut in the field
- May not be an exact match with mitered door styles, every effort will be taken to match door design as closely as possible.

Valances are shipped at the size indicated in the product nomenclature and are not cut down at the factory except by special request only.

NOTE: A custom quote must be submitted for cabinetry that incorporates an arched panel valance within its construction.

- Specify valance style: CA*-classic arch, EA-elegant arch, FU-furniture, ST-straight, AR*-arched, SHA-shaker style A, or SHC-shaker style C. ("ACAVLB30" denotes a classic arch valance light box at 30" wide). See VALANCES for illustrations of each style.
- 12" height, 13" depth standard
- 3/4" face, sides and back
- Flush finish sides standard
- Finished interior standard
- Edgebanded on all bottom edges
- No bottom in cabinet
- Some valance designs may not appear as defined in shape as illustrated due to increased length of the piece. This occurrence is most common for valances over 48" wide.

NOTE: Please send for quote if raised panel valance front is required.

* For the classic arch valance (ACAV) and arched valance (AARV) ordered over 48" wide, the height of the arch will measure 3" high at the center instead of 2" as illustrated.

WALL ACCESSORIES

SPICE RACK ON DOOR

Wood rack with fixed shelves mounted on a cabinet door.
 Not available on cabinets less than 9" wide.
 Unit is 3 1/2" deep overall with a shelf depth of 2 1/2"
 Height of each shelf section varies from approximately 5"
 to 7" depending on the height of cabinet frame opening.

PRODUCT
CODE

LIST

ASROD

FLIPPER (POCKET) DOOR GLIDES

AFDG

Installed mechanism for stowing door inside cabinet as in entertainment cabinets. To allow for the hardware, minimum cabinet depth is 13 1/2" and minimum frame opening height is 18".

ALFDG

Flipper door glides are not available with the Bella door design or applied molding doors in which the molding protrudes beyond the face of the door such as Verona.

Add to cabinet price; priced per each set of butt doors.

Adding flipper doors to a cabinet will cancel all adjustable shelves in that section. When needing adjustable shelves, a loose shelf accessory will need to be added to cabinet price for each adjustable shelf.

When needing finished interior, the matching wood interior modification will need to be added to cabinet price.

When adding flipper doors to cabinet, interior opening width will be 8" less than the overall cabinet width if FOL-C. If SOL or Inset, the interior opening width will be 9 1/4" less than the overall cabinet width. Example: 30" wide, FOL-C cabinet will have an interior opening size of 22" wide.

Doors over 24" up to 26" wide and/or over 42" up to 72" tall require large flipper door glides (ALFDG). Doors cannot exceed 72" tall.

WALL MODIFICATIONS

	PRODUCT CODE	LIST
FRAME CHANGE	MFC	
Includes one or all changes made to frame configuration, excluding extended stiles and rails. Specify changes and dimensions, provide sketch.		
INCREASE CASE DIMENSION MODIFICATION	MICDIM	
Used to increase height, and/or width, and/or depth above the largest standard sizes. Cabinet may be increased up to 6" larger for any or all dimensions. Dimension increases beyond 6" require a quote. Some restrictions apply due to material availability. Any cabinet increased in width to 39" or above will have a fixed center stile as standard. Drawer boxes and rollouts will increase with the cabinet depth up to 27" deep cabinets. Anything increasing over 27" in depth must be verified with Customer Service for availability before ordering. Wall cabinets and sink cabinets can be increased in <u>depth only</u> up to a maximum of 3" beyond the standard cabinet depth for no up charge at all.		
COMBINE CABINET CHARGE	COMBINE	
Used to combine two or more cabinets. One charge per combination of two cabinets.		
FRONT ONLY	MWFRO	
Subtract from base price of cabinet. Face frame and door(s) and / or drawer front(s). Doors are hinged and working. Drawer fronts are fixed. Specify if fixed doors are required.		
OMIT DOORS	MOD	
Interior remains standard finish unless matching wood interior modification is used.		
OMIT BOTTOM RAIL AND FLOOR	MOBRF	
Maximum cabinet height is 64 1/2". Maximum cabinet width is 42".		
ADD CENTER STILE	MACSW	
To add vertical center stile to any cabinet. Standard 1 1/2" wide stile, specify width of stile if different dimension is desired.		
OMIT CENTER STILE	MWOCS	
Omit center stile from face frame on cabinets 39" wide and over.		
ADD CENTER RAIL	MACRW	
To add a horizontal center rail and fixed floor to any cabinet. Standard 1 1/2" wide rail, specify width of rail if different dimension is desired. Include specific information for placement of rail, provide drawing if possible. Charge includes cost for dividing doors into separate uppers and lowers.		
TOE KICK ATTACHED TO WALL CABINET	MTKAW	
A 4 1/2" toe kick is made adding 4 1/2" to overall height.		
APPLIED MOLDING CHARGE	MAMC	
Charge to apply molding, ornaments, appliqué to cabinets.		

WALL MODIFICATIONS

PRODUCT CODE	LIST
-----------------	------

MATCHING WOOD INTERIOR

MMWI	
------	--

Wood specie and finish match frame and doors.

Price % of list price.

When selecting matching wood interior on cabinets with more than one section (ie, tall cabinets or combined cabinets) the entire interior of all sections will be matching wood interior as standard. The grain on interior backs may be horizontal on cabinets larger than 48" wide.

ALTERNATE COLOR FINISHED INTERIOR

Same Specie/Different Finish Interior MACFI-SD

Different Specie/Different Finish Interior MACFI-DD

This modification is used in place of MMWI when finished interior of cabinet is to be an alternate color from exterior of cabinet. When the alternate interior is also a different specie choose "DD" modification.

Price % of list price.

When selecting one of these modifications on cabinets with more than one section (ie, tall cabinets or combined cabinets) the entire interior of all sections will be finished wood interior. The grain on interior backs may be horizontal on cabinets larger than 48" wide.

When a cabinet comes with a finished interior already, example: bookcase cabinets, the same percentage upcharge as shown here will be applied.

WALL MODIFICATIONS

PRODUCT CODE	SPECIFY	LIST
-----------------	---------	------

Furniture Ends—*Locking Miter Joint*

- True flush ends with no seams, making crown, base, and light rail moldings easier to attach, no scribe molding needed
- Not available on diagonal corner cabinets, angled cabinets, or clipped corners.
- Not available with FFA overlay option or when cabinet frame stiles are less than 1 3/8" wide.

Wall Furniture Finished End (Left, Right, or Both ends)	MWFURNFE	L/R	\$/SQFT
--	----------	-----	---------

Wall Furniture False Door Ends (Left, Right, or Both ends)	MWFURNFD	L/R	\$/SQFT
---	----------	-----	---------

---	----------	-----	---------

- Not available with any miter doors. Also not available with Aspen, Bella, Churchill, Madrid, Plainfield, Plainfield MDF, Sardinia, Valletta, or Verona door designs.
-

WALL MODIFICATIONS

	PRODUCT CODE	SPECIFY	LIST
WALL FINISHED END	MWFE	L / R	/
Side of cabinet matches specie and stain of front frame and doors. Side retains 1/4" scribe reveal same as unfinished side. Finished end option is not available for Red Birch, QSWO, RCWO, Walnut, Weathered Grain QSWO. Another option must be chosen for exposed ends. If a cabinet is submitted with the finished option selected for these species, the cabinet will be provided with a flush finished end and will be charged accordingly.			SQ FT
WALL FLUSH FINISHED END	MWFFE	L / R	/
A 1/4" panel is applied creating a flush end. Side of cabinet matches specie and stain of front frame and doors.			SQ FT
FINISHED BACKS 1/2"	MFBAH		/
Back thickness does not affect overall depth of cabinet. Vertical grain is standard.			SQ FT
WALL FALSE DOOR ON END	MWFDE	L / R	/
Includes flush finished end.			SQ FT
WALL WAINSCOT END PANEL	MWWEP	L / R	/
A 3/4" panel constructed from same material as cabinet doors, applied flush with cabinet end. Top rail is wider to allow for molding installation. Not available for mitered door styles.			SQ FT
WALL BEAD BOARD END	MWBDE	L / R	/
1/2" solid wood, tongue and groove bead board, factory installed on cabinet side.			SQ FT
BEAD BOARD INTERIOR BACK	MBDIB		/
1/2" solid wood, tongue and groove bead board installed in the back of cabinet.			SQ FT
WALL GROOVED PANEL LEFT / RIGHT	MWGP	L / R	/
1/4" veneered panel with MDF core applied, creating a flush end. 1/8" wide, vertical 'V' grooves, spaced 1 1/2" apart. Other designs to match grooved doors are available upon request. Matches specie and stain of front frame and doors. Not available for any finish with wear sanding. Not available in Rustic Alder or Rustic Hickory: standard grade wood will be substituted.			SQ FT
WALL GROOVED PANEL INTERIOR BACK	MWGPIB		/
1/4" veneered panel with MDF core installed in the back of the cabinet. 1/8" wide, vertical 'V' grooves, spaced 1 1/2" apart. Other designs to match grooved doors available upon request. Matches specie and stain of front frame and doors. Use with MWI modification to finish the remainder of cabinet interior. Not available for any finish with wear sanding. Not available in Rustic Alder or Rustic Hickory: standard grade wood will be substituted.			SQ FT
WALL GROOVED PANEL BACK (1/2")	MWGPPAH		/
1/2" veneered panel with MDF core applied to the case back. 1/8" wide, vertical 'V' grooves, spaced 1 1/2" apart. Other designs to match grooved doors are available upon request. Matches specie and stain of front frame and doors. Back thickness does not affect overall depth of cabinet. Not available for any finish with wear sanding. Not available in Rustic Alder or Rustic Hickory: standard grade wood will be substituted.			SQ FT
WALL FINISHED BOTTOM (B)	MWFB		
Modification for bottom of wall cabinet to match specie and finish of cabinet face. Typically, finished ASCRIBE-2 covers the exposed case sides and back in the recessed area under the cabinet. Edgebanding is also applied to the side and bottom edges.			
WALL FLUSH FINISHED BOTTOM (B) or TOP (T)	MPFF	B / T	/
1/4" flush panel matches specie and finish of cabinet. Specify MPFFB for bottom, MPFFT for top. To cover exposed side edges of flush finished bottom or top, flush finished ends must be ordered.			SQ FT

EXTENDED STILE OUT... UP TO 3" (see next page for illustrations)	MWESO3	L / R	
Stile extends outward from cabinet, increasing overall frame width by the amount specified for the extension. Overlay filler strips are available for full-overlay flush look. (See wall cabinet accessories)			
EXTENDED STILE OUT...UP TO 6" (see next page for illustrations)	MWESO6	L / R	
Stile extends outward from cabinet, increasing overall frame width by the amount specified for the extension. Overlay filler strips are available for full-overlay flush look. (See wall cabinet accessories)			
EXTENDED STILE IN...UP TO 3" (see next page for illustrations)	MWESI3	L / R	
Stile extends inward, overall frame width does not change. Overlay filler strips are available for full-overlay flush look. (See wall cabinet accessories)			
EXTENDED STILE IN...UP TO 6" (see next page for illustrations)	MWESI6	L / R	
Stile extends inward, overall frame width does not change. Overlay filler strips are available for full-overlay flush look. (See wall cabinet accessories)			
EXTEND TOP OR BOTTOM RAIL UP (see next page for illustrations)	METRU MEBRU		
Add to cabinet price. Indicate overall dimension.			
EXTEND TOP OR BOTTOM RAIL DOWN (see next page for illustrations)	METRD MEBRD		
Add to cabinet price. Indicate overall dimension.			
VALANCE TOP RAIL	MVTR		
Extends a standard 1 1/2" wide top rail down for an overall rail width of 5". Price for cabinets up to 42" wide. Specify shape: Classic Arch, Elegant Arch, Straight, Arched, Furniture, Shaker style A or Shaker style C. Provide a sketch or template for custom pattern, requires quote.			
VALANCE BOTTOM RAIL	MVBR		
Extends the bottom frame rail down 5" below the rest of the cabinet. This is added to the ordered cabinet height. Price for cabinet up to 42" wide. Specify shape: Classic Arch, Elegant Arch, Straight, Arched, Furniture, Shaker style A or Shaker style C. Provide a sketch or template for custom pattern, requires quote.			
WALL EXTENDED SIDE BACK	MWESB	L / R	1 / ea. 6"
Specify the length of the extension beyond the standard depth. 48" overall maximum depth. Back edge is finished as standard when side of cabinet has any type of finished-end modification. Otherwise, specify on order for finished edge, if needed, when cabinet does not have a finished-end modification and add appropriate edge banding (EB) charges.			
WALL RECESSED BOTTOM	MWRB		
The recessed bottom dimension is measured from the bottom of the cabinet to the underside of the floor. Indicate the recessed dimensions. Recessed bottom does not affect standard door size.			
WALL RECESSED SIDE	MWRS	L/R	12
Normally used when a recess allowance is needed for a field applied panel. The cabinet face frame and door reveals will not change with this modification. Most standard cabinets already have 1/4" recess behind the face frame, specify <u>TOTAL</u> amount needed. Maximum overall recess allowed = 7/8".			

EXTENDED RAIL AND STILE ILLUSTRATIONS

WALL MODIFICATIONS

PRODUCT CODE	SPECIFY	LIST
--------------	---------	------

WALL SIDE ANGLED

MWSA	L / R	+%
------	-------	----

Side is angled, front frame is parallel to back.

Include a top view sketch with dimensions of side and front.

Specify a degree of angle.

Use widest dimension of finished cabinet as initial starting price then add modification charge.

WALL ANGLED SIDE ENTRY

MWAE	L / R	+%
------	-------	----

This modification is like wall side angled but with frame and working door.

Include a top view sketch with dimensions of side and front.

Specify degree of angle and hinging.

Use widest dimension of finished cabinet as initial starting price then add modification charge.

WALL ANGLED FRONT

MWAF	L / R	+%
------	-------	----

Front is angled, sides remain perpendicular to back.

Include a top view sketch with dimensions of sides and front.

Specify overall cabinet size.

Indicate depth of right and left sides.

Minimum depth is 4" for adjustable shelves.

Use widest dimension of finished cabinet as initial starting price then add modification charge.

WALL END ENTRY

MWEE	L / R
------	-------

Specify door hinging.

Add modification charge to initial starting price of cabinet.

DOUBLE ENTRY

MDE	+ %
-----	-----

Add modification charge to initial starting price of cabinet.

Specify hinging on rear if different from front entry.

U-SHAPE DRAWER BOX MODIFICATION

MUDRBOX

Modifies an existing drawer box to have a cutout centered, side to side, allowing space for pipe work. Drawer box width must be at least 12" (12 3/8" frame opening). Must specify dimensions 'A' and 'B' as shown on the template. 'C' can be no less than 3".

per
drawer

WALL MODIFICATIONS

	PRODUCT CODE	SPECIFY	LIST
WALL DUCT CUTOUT	MWDCO		
Include a top view sketch with cutout dimensions and location.			
WALL ADDITIONAL DRAWER, STANDARD	MWADS	SOL/Inset FOL/FFA	
Use this modification to add a drawer that would require a frame opening of 6" H or less.		SLAB	
Blumotion glides standard: other glide styles will be substituted when the frame opening for the drawer boxes are under 6" wide or cabinet is less than 12" deep.		1INSLAB	
This price includes drawer box, hardware, drawer front, and frame change.		5-PIECE	
WALL ADDITIONAL DRAWER, DEEP	MWADD	SOL/Inset FOL/FFA	
Use this modification to add a drawer that would require a frame opening greater than 6" high.		SLAB	
Blumotion glides standard: other glide styles will be substituted when the frame opening for the drawer boxes are under 6" wide or cabinet is less than 12" deep.		1INSLAB	
This price includes drawer box, hardware, drawer front and frame change.		5-PIECE	
5-PIECE DRAWER HEAD	5-P(RAIS)-FOL/FFA 5-P(FLAT)-FOL/FFA		
Price per drawer head.			
Drawer head made in a 5-piece configuration.	5-P(RAIS)-SOL/INSET 5-P(FLAT)-SOL/INSET		
The top and bottom rails of the drawer head are cut down for most designs.			
1" THICK, SLAB DRAWER FRONT UPGRADE	1-INSLAB-FOL/FFA 1-INSLAB-SOL/INSET		
Price per drawer head.			
Not available to match all designs. Not recommended with slab doors or designs with flat center panels. See Introduction for more information.			
WALL CLIPPED CORNER	MWCC	L / R	
Stile is angled at 45 degrees.			
This modification does not increase the width or depth of the cabinet.			
The face frame is decreased by 3" per clipped corner.			
WALL FLUTING	MWFLUTE		
Three flutes are standard, based on 3" filler			
Routed on filler or stile up to 6" wide.			
Specify the number of flutes. (1 flute per inch is recommended).			
Standard is 3/8" flute with 3/8" space between flutes.			
Limits will normally align with adjacent cabinets.			
Minimum filler width is 1 1/2".			
Provide sketch on special fluting requirements.			
ROSETTE DESIGN	MROSETTE		
Routed into filler, usually accompanies fluting.			
Style A (2 1/4") is for 3" filler or overlay filler (2 3/4") with machine or L149 edge. Minimum overlay filler width will be 3 1/8" for all other edge profiles.			
Style B (3 1/8") is for 6" filler.

SPECIFICATIONS

RANGE HOODS

Hood Nomenclature

Hood configurations available for many kitchen designs. See the following pages for standard offerings. Custom hood designs available by quote. See Custom Idea section for details about the quote process.

Not all hood styles are offered in all species. See specific hood information for availability.

Hoods with operational or decorative door panels may not be available with an exact match to cabinetry doors styles. The closest match available will be supplied instead.

Hoods with a decorative arched panel valance (ARPV) may not be available with an exact match to the profiles of cabinetry doors styles. The closest match available will be supplied instead.

Blower and liner specs are subject to change without notice. It is the dealer's responsibility to ensure the current blower specifications will meet the requirements needed for each installation. It is advised that the dealer check for most current specifications as published by the blower manufacturer which may differ from the specifications listed within this catalog.

Blower units must be installed by a qualified professional.

Blower units with halogen lighting cannot be shipped to California.

All blower units for range hoods carry their own individual warranty from the blower manufacturer. Failure of blower operation and/or malfunction are not covered under Brighton Cabinetry's Limited Lifetime Warranty. Brighton Cabinetry is not responsible for improperly installed blower units. Any warranty for blowers will vary per unit according to the blower manufacturer's specifications. The end consumer will be responsible for any warranty claims for blower defects and should contact the blower manufacturer directly for assistance in repair or replacement.

The option to remove the blower and liner (MNOLNRBLWR) is available for all hoods offered with the exception of WSHA. The WSHA style hood is designed specifically for the blower and T-shaped liner that are sold with it.

HEARTH HOOD W/ SPICE PULLOUTS

	A	B	C	D
HH1M / HH2M	18	15	15	21
HHPK	21	18	18 3/4	24

Depths cannot be reduced unless quoted

NOTE: The width of each hearth hood nomenclature indicates the center dimension. Add 18" to determine the overall width of entire assembled unit. Example: HH1M366021 is 36" wide at center, plus 9" for right column width and 9" for left column width, for a total assembled unit width of 54".

Brighton Cabinetry is not responsible for:

- the fit of liner and/or blower not provided by the factory at the time of hood order
- the fit of customer supplied liner and/or blower

HEARTH HOOD W/ SPICE PULLOUTS

- Hearth style wood hood designed to sit on counter top.
- Width of each hood indicates the center dimension. Add 18" to determine the overall width of entire assembled unit.
- Indicated depth "D" (see chart) signifies depth at arched panel valance. This depth does not include applied moldings.
- Hood includes mantel shelf and arched panel valance.
- "1M", "2M" or "PK" in product code indicates the specific blower series included with each hearth hood. See the following page for specifications.
- Removable panels at top of center section.
- HH1M and HH2M units will have two door panels across the upper center width (as pictured).
- HHPK units will have three door panels across the upper center width (not pictured).
- Finished exterior with flush finished sides.
- Standard overall heights of 54", 57", 60 and 66".
- Left and right columns are 9" wide and have spice pullouts in lower section of each.
- Best® by Broan blower and Alumicore floor included in List price. Blower is shipped loose from factory. See the following page for specifications.
- Hood does not ship fully assembled as one unit, final field assembly required.
- Any reduction in dimensions specified must be quoted.

REMOVE BLOWER UNIT

- Modification (MNOLNRBLWR) to remove blower unit
- When choosing this modification, hood will ship with Alumacore coated floor, will not have a cutout

BLOWER UNITS FOR HEARTH HOOD

HBN1

(see page H6 for more HBN1 Series details)

CP571QT

(see page H18 for more HBN1 Series details)

HBN1 SERIES POWER PACK

- Best® by Broan HBN1306SS blower for residential use, included with Hearth Hood, 1M and 2M models, 21" deep; shipped loose from factory
- Under-cabinet design with brushed stainless steel finish
- SmartSense® and Heat Sentry™ systems monitor the heat and automatically adjusts the blower's fan speed
- 4-speed, backlit soft-touch control (remote operation capable with the BEST® smart phone app and also offers voice activation capabilities via Wi-Fi connectivity for easy, hands-free operation)
- Dishwasher-safe hybrid baffle filters feature quick release latch for easy removal; filter cleaning indicator
- 2 bright, heat-resistant LED modules with three lighting levels
- Includes back-draft dampers; 6" round, 8" round, and 3-1/4" x 10" rectangular; to accommodate most applications
- Powerful 650 max CFM operates at less than 1 sone at normal speed (Code Ready Technology provides the capability to reduce the CFM level to 300 or 400 CFM to address local codes or make-up air requirements)
- Height above cooking surface recommended in the range of 24" to 30"
- HVI certified performance; Underwriters Laboratories tested and approved

NOTE: Blower and liner specs are subject to change without notice. It is the dealer's responsibility to ensure the current blower specifications will meet the requirements needed for each installation. Check www.bestranghoods.com for most current specifications as published by the blower manufacturer.

CP571QT SERIES POWER PACK

- Best® by Broan CP571QT blower for use over residential commercial-style cooking surfaces included with Hearth Hood, HHPK model, 24" deep; shipped loose from factory
- Under-cabinet design with brushed stainless steel finish
- Exclusive iQ Blower System™ for the quietest, most energy efficient and fastest smoke and odor removal available in a range hood
- Heat sentry™ system detects excessive heat and automatically adjusts the blower's fan speed
- 4-speed electronic, push button controls
- Dishwasher-safe hybrid aluminum mesh & stainless steel Hi-Flow™ baffle filters; filter clean reminder
- 4 integrated LED modules provide even lighting over the cooktop (2 LED modules on 48" wide model)
- Includes 10" round connector / back-draft damper
- Powerful 1500 max CFM, ultra-quiet 0.3 sones at normal speed (Code Ready Technology provides the capability to reduce the CFM level to 300 or 400 CFM to address local codes or make-up air requirements)
- Height above cooking surface recommended in the range of 24" to 30"
- HVI certified performance; Underwriters Laboratories tested and approved

SQUARE HOOD WITH MANTLE

Brighton Cabinetry is not responsible for:

- the fit of liner and/or blower not provided by the factory at the time of hood order
- the fit of customer supplied liner and/or blower

NOTE: MRMVPANEL- Adding this modification to the WSHM changes the top operational doors to a removable wainscot panel at no additional cost. **The removable wainscot measures 1/8" more than the hood width.** This modification is not available with mitered door designs.

WOOD SQUARE HOOD WITH MANTLE, 21" DEEP

- 21" deep standard
- 3/4" construction
- Best® by Broan blower, HBN1 series, and Alumicore floor included in List price. Blower is shipped loose from factory. See page H13 for specific details. **NOTE:** Blower specs are subject to change without notice.
- Flush finished sides, finished interior, finished bottom standard
- Standard finished bottom edges of case
- Functional doors above mantle shelf allow access to blower unit
- 48" wide hoods available as 2 or 3 equal door options. Specify L or R hinge for single door of 3-door hood.
- Arched valance bottom rail standard, specify if other valance design is required.
- 3/4" fixed floor located 6 9/16" above the bottom edge of case unless otherwise specified. The exception will be if the elegant arch valance is the design for the bottom rail, then the floor will be 7 9/16" above the bottom case edge.
- Units 39" wide or more will have a fixed center stile between the doors.
- Mantle shelf is 4" deep, 3 5/8" high and trimmed out with ACROWN4
- Top of mantel shelf is 12 1/2" from bottom edge of hood unless otherwise specified.
- Mantle shelf has left and right reveals to match the doors except for inset which will have 1/4" outside reveals.
- Please submit custom quote if dimension other than the height will be modified.

REMOVE BLOWER UNIT

- Modification (MNOLNRBLWR) to remove blower unit
- When choosing this modification, hood will ship with Alumacore coated floor, will not have a cutout

Check www.bestrangehoods.com for most current specifications as published by the blower manufacturer.

CP571QT SERIES POWER PACK

- Best® by Broan CP571QT blower for use over residential commercial-style cooking surfaces included with WSHM and WSHMPV model hoods, 24" deep; shipped loose from factory
- Under-cabinet design with brushed stainless steel finish
- Exclusive iQ Blower System™ for the quietest, most energy efficient and fastest smoke and odor removal available in a range hood
- Heat sentry™ system detects excessive heat and automatically adjusts the blower's fan speed
- 4-speed electronic, push button controls
- Dishwasher-safe hybrid aluminum mesh & stainless steel Hi-Flow™ baffle filters; filter clean reminder
- 4 integrated LED modules provide even lighting over the cooktop (2 LED modules on 48" wide model)
- Includes 10" round connector / back-draft damper
- Powerful 1500 max CFM, ultra-quiet 0.3 sones at normal speed (Code Ready Technology provides the capability to reduce the CFM level to 300 or 400 CFM to address local codes or make-up air requirements)
- Height above cooking surface recommended in the range of 24" to 30"
- HVI certified performance; Underwriters Laboratories tested and approved

BLOWER AND LINER FOR P SERIES HOOD

Photo for depiction of mesh liner only, hood shown is not indicative of available options.

LINER/VENTILATORS FOR P SERIES HOOD

- Made exclusively for Stanisci Design by Modern-Aire Ventilation
- 22 gauge Stainless
- Internal blower
- MB600 intended for standard residential range or small commercial-style range
- SM1200 intended for commercial-style range up to 48" wide without grill
- Quiet, variable speed fan
- Dimmer controlled halogen lighting* (cannot be shipped to California)
- Easy clean surface
- Large, perforated stainless steel mesh insert filters are dishwasher safe
- Shipped loose from factory.
- Height above cooking surface recommended at 30" to bottom of hood. Please install according to the cooking appliance manufacturer's recommendation.
- Wall mounted hoods should extend at least to the front of the cooktop and on a standard cooktop, cover the entire cooktop from left to right. When using a residential commercial cooktop, the hood should overextend the cooktop a minimum of 3" on both the left and right side, if possible.

*33"-42" wide unit has 2-50W halogen lights, 48" wide unit has 3-50W halogen lights, 54"-60" wide unit has 4-50W halogen lights.

BASE WASTE CABINET WITH PAPER TOWEL HOLDER

- Top opening with removable dowel for paper towel roll storage/ dispensing.
- Finished interior at top opening
- Undermount soft close glides on pullout with 34 qt. waste can(s).
- Waste pullout attached to door.
- Specify basket color; W = white, P = pewter.
- Fixed floor separates top and bottom openings.
- Minimum cabinet depth = 24".
- Minimum cabinet width with paper towel holder = 18". Reduced widths are not available.
- Extra storage space behind waste can in single basket cabinet.
- 30 lbs. maximum per waste can. Not intended for bulk storage.

Above: double 34 qt. pullout
Top Right: single 34 qt. pullout
Bottom Right: Rear storage compartment for single pullout

BASE 2 EQUAL DRAWER BASE

- Two equal height drawer fronts and drawer boxes
- Will accommodate hanging files, add AHANGINGFILE accessory per drawer.

Add-on to B2ED cabinet:

2" rollout shelf located behind top (AROS-BTD) or bottom (AROS-BBD) drawer front. This add-on reduces the height of the drawer box itself.

NOTE: Due to limitations; Cumberland, Hamilton, LaSalle, Lincoln, Woodridge, and Zenith door styles are NOT AVAILABLE for this cabinet. When selecting these door styles a Shaker door with L-059 outside profile will be substituted with the exceptions of Woodridge which will have an LC-Inset outside profile and Zenith which will have a machine outside profile.

- Two equal drawer boxes
- Drawer fronts made with 3 1/2" wide stiles and rails.
- Plexiglass will be installed in drawer fronts at factory.
- There is a 1" opening between the drawer box front and the partition that separates the seed area from the storage area of the drawer. (Partition is removable)
- All top to bottom drawer front reveals will be 1/4", side reveals will be same as overlay ordered.

BASE 3 DRAWER CABINET

BASE 3 DRAWER CABINET

- Standard height top drawer box
- Two larger, equal height, lower drawer boxes

Add-on to B3D cabinet:

2" rollout shelf located behind center (AROS-BCD) or bottom (AROS-BBD) drawer front. This add-on reduces the height of the drawer box itself.

BASE CORNER 3 DRAWER BANK CABINET

PRODUCT CODE	LEVEL 1	LEVEL 2
BC3DB36	2700	2970

NOTE

The hardware / pulls on adjacent cabinetry may interfere with the operation of the drawers in this cabinet. Adjacent appliances may interfere with the operation of the drawers in this cabinet. Allow ample space for the drawers to be pulled out when designing the kitchen layout.

- Pie cut corner cabinet with three functional drawers
- Available with 36" wide left and right legs only. Any changes MUST be quoted
- Not available for Inset
- Drawer fronts will always overlay 1/2" on each side
- Fixed center floors between each drawer.
- Shipped with loose toe base. SEE NEXT PAGE FOR TOE KICK INSTALLATION INFORMATION

TOE KICK ASSEMBLY

1. Remove doors and adjustable shelves.
2. Turn cabinet upside down.
3. Place both sections of toe kick as shown, with triangular corner blocks against the floor of the cabinet. Then screw through the 1/2" corner supports into the cabinets' floor using 1" pan head screws.
4. The shorter "legs" of both sections should be 90° to each other.
5. The longer "legs" of the two sections are placed against the backs of the cabinet, as close to the rear corner as possible.
6. The section's two short legs butt together as shown in the magnification.
7. Attach the two sections together with small nails or staples at this joint if needed.
8. Stand cabinet to upright position and reinstall shelves and doors.

RECOMMENDED HARDWARE INSTALLATION

Countersink all screws to prevent frame or adjacent cabinet damage when closing or opening doors.

PRODUCT CODE	LEVEL 1	LEVEL 2
BREVO36		

BREVO36

* This dimension is approximately 8.75"

BASE PIE CUT CORNER w/REVO door unit

- For use in a 36" x 36" corner space only. Dimensions cannot be modified
- Equal doors attached to shelving hardware that revolves into cabinet as one unit
- Revolving shelves (2) are Maple with chrome surround
- Doors will appear as if for Inset cabinetry, except for FFA. FFA will be made with no face frame and have a reduced 3-3/4" high toe kick.
- Shipped with loose toe base

BASE PIE CUT CABINETS

BASE PIE CUT CORNER CABINET

- BPCA'S have one adjustable shelf.
- Specify hinge side. (No partition available on same side as hinging.)
- Shipped with loose toe base.
- Depending on door style, cabinets with legs less than 36" may require us to substitute a slab door due to minimum size requirements. (See specific door styles.)

* This dimension is approximately 12".

BOC Base Oven Cabinet

Provide the following dimensions:

A= _____ Overall cabinet width

B= _____ Oven cutout height

C*= _____ Oven cutout width

*Cutout may be no wider than 1 1/2 inch less the overall cabinet width, see chart

- Minimum top rail width of 3/4 inch
- Maximum standard overall oven cutout height of 27 3/4 inch.
- Oven cutout is centered when 27 inch high or less unless otherwise specified.
- Minimum height oven cutout to start from floor is 5 1/4 inch. MFC (frame change) charge applies if cutout starts less than 5 1/4 inch from floor.
- Appliance cutout opening not beaded for beaded Inset style cabinet.

*Max cutout widths

Cabinet width	Max cutout width
24 inch	22 1/2 inch
27 inch	25 1/2 inch
30 inch	28 1/2 inch
33 inch	31 1/2 inch
36 inch	34 1/2 inch

NOTE: Appliance openings in frames will not have a beaded perimeter when ordered on beaded inset cabinetry. Designer must specify in writing if the appliance opening is to have a bead.

30"	28 1/2"
33"	31 1/2"
36"	34 1/2"

**For figuring reveals for install kits, drawer fronts overlay the oven rail by the following standard amounts:

Hinge	Overlay
FFA	1 3/8"
FOL-C	1 1/4"
SOL-C/SOL-K	1/2"
SOL-K LIPPED	5/16" ***
Specify if another dimension is desired ***	

***SOL-K Lipped overlays cannot be modified

NOTE: Appliance openings in frames will not have a beaded perimeter when ordered on beaded inset cabinetry. Designer must specify in writing if the appliance opening is to have a bead.

BASE MICROWAVE OVEN CABINETS

PRODUCT CODE	LEVEL 1	LEVEL 2
BMOC24		
BMOC27		
BMOC30		

NOTE: BMOC cabinet cannot have decorative ends except for a standard flush finish when using maximum width cutout for the specific cabinet's overall width.

BASE MICROWAVE OVEN CABINET

- 3" middle rail standard.
- Specify oven cutout width x height and height off floor. Use of template page for BMOC is recommended.
- BMOC has functional drawer at bottom.
- To allow for standard 4" height drawer box, the cutout must start at least 14" off of floor.
- If a finished side is required, flush finished ends must be used, due to construction methods.
- See template page for more details.
- Upper opening of cabinet is not standard with matching wood interior. Add MMWI for matching wood interior.
- Appliance openings in frames will not have a beaded perimeter when ordered on beaded inset cabinetry. Designer must specify in writing if the appliance opening is to have a bead.

BASE DOWN DRAFT CABINET

TOP VIEW

BASE DOWN DRAFT CABINET

- One adjustable, shallow depth shelf.
- Downdraft area clearance is 9 1/4".
- See base modifications for adding scooped top drawer modification.
- Functional, 1/2 depth drawers.
- Removable divider allows access to down draft area.
- Cabinets 39" wide or greater will have a fixed center stile as standard.

BWDC

Base Warming Drawer Cabinet

Provide the following dimensions:
A=_____ Overall cabinet width
B=_____ Oven cutout height
C*=_____ Oven cutout width
*Cutout may be no wider than 1 1/2" less the overall cabinet width, see chart

Cabinet width	Max cutout width
24"	22 1/2"
27"	25 1/2"
30"	28 1/2"
33"	31 1/2"
36"	34 1/2"

- 2" rails above and below warming drawer cutout.
- Top frame opening will be 5 1/4" high to align with standard Inset style base cabinets.
- Appliance cutout opening not beaded for beaded Inset style cabinet.

NOTE: Appliance openings in frames will not have a beaded perimeter when ordered on beaded inset cabinetry. Designer must specify in writing if the appliance opening is to have a bead.

24 1/2" deep	BPSC2724.5		
	BPSC2724.5FD		
24 3/4" deep	BPSC2724.75		
	BPSC2724.75FD		

BASE PENINSULA STARTER CABINET

- Toe space and a 1/2" finished panel is applied to "kitchen" side of cabinet
- Standard overall depth is 24". (Accommodates adjacent peninsula cabinet.)
- Optional depths of 24 1/2" and 24 3/4" are offered to accommodate 1/2" or 3/4" back panels adjacent to this cabinet.
- One 3/4 depth, adjustable shelf for cabinet with top drawer.
- Full height door (FD) cabinets will have two 3/4 depth, adjustable shelves

PENINSULA BASE BLIND CABINET

- Specify blind side left (L) or right (R), right is (R) shown.
- Two doors on back, one door on front hinged to blind side. Blind side door will have 90 degree hinging when FOL-C, FFA, SOL-C, or Inset-Conc.
- One drawer opens to front; one drawer opens to back.
- One full depth adjustable shelf.
- Inside 1/4" panel covers blind opening.
- Cabinets 39" wide or greater will have a fixed center stile as standard on back side of cabinet.
- See Base Blind cabinet for specific blind corner cabinet details and limitations.
- Blind side typically requires a 3" filler to adjoining cabinets, provided with cabinet. (Field installation required.)

BASE ANGLED FRONT CABINET

PRODUCT CODE	LEVEL 1	LEVEL 2
BAFC13L		
BAFC13R		

BASE ANGLED FRONT CABINET

- 13" wide, 34 1/2" high standard
- Short side = 13" deep, long side = 24" deep
- Angled front with full height door
- Specify left (L) or right (R) to indicate end of cabinet run for deeper cabinet side
- Hinging will be to the shallower side (right (R) illustrated). If opposite hinging is required please specify on the order.
- Two full depth adjustable shelves
- 40 degree angled front
- For a 45 degree angle on the front, the width of the cabinet will need to be 11" wide with 13" depth for the shallow side. Or, the depth of the shallow side will need to be 11", keeping the width at 13".
- Due to constraints in construction, the modifications for flush finish end (MBFFE) and furniture end (MBFURN) are not available.

BACA-3		

Adjustable Shelves

- 24" wide, 24" deep standard
- BACA's have two adjustable shelves (not as illustrated).
- Specify hinge side (all three doors will open from the same side)

BACR-3

Revolving Shelves

- 24" wide, 24" deep standard
- BACR's have 2 adjustable shelves and 3 turn tables (not as illustrated).
- Specify hinge side (all three doors will open from the same side)

BASE IRONING BOARD CABINET

PRODUCT CODE	LEVEL 1	LEVEL 2
--------------	---------	---------

BIRON18		
---------	--	--

BIRON21		
---------	--	--

- 24" deep standard
- Folding ironing board replaces top drawer box.
- Slab drawer front only available.
- Easy to use: open until gravity lock engages and unfold board.
- 24" deep cabinet: ironing surface will be approximately 12" W x 37 1/2" L.
- 18" and 21" deep cabinet: ironing surface will be approximately 12" W x 29 1/4" L.
- Minimum cabinet width = 18" (15" frame opening)
- One adjustable 4" rollout shelf in lower opening, standard. (Not illustrated)
- Includes a heat reflecting cover for the ironing board. (Replacement covers available, contact Customer Service)
- Specify hinge side for door.

BASE COMBINATION DOUBLE DRAWER CABINET

BCD30

BCD33

BCD36

- Two standard height top drawers on one side (left or right) and one taller drawer located on the opposite side, with two doors below.
- Specify left (L) or right (R) for the side with two drawers (right shown).
- Includes clear sliding bread box lid in larger drawer.
- No shelf in bottom section.

BASE CAN GOOD STORAGE CABINET

- Pullout canned good storage rack with adjustable shelves
- One shelf for standard 34 1/2" height cabinets.
- Minimum width of 6"

NOTE: Base Canned Good Storage Units under 8" wide are not recommended to store cans. The shelf would only be wide enough for spices or other smaller items.

BMFS36

BASE MULTI FOOD STORAGE CABINET

- Two interior swing outs with adjustable shelves.
- Storage rack on each door with adjustable shelving.
- Two shallow, adjustable shelves on each side of centered partition, located behind swing outs.
- Doors must be able to open a minimum of 105° to allow access to the storage space in the rear. Adding hinge restrictors will impede access to the internal storage areas.
- Reducing the cabinet width is not recommended as this will limit the access space to the rear storage area.

NOTES

BASE APOTHECARY DRAWERS

- Two standard depths available, 24" deep illustrated.
- 5-piece drawer fronts are not available.
- 6" wide with five drawers.
- Knobs are for illustrative purposes only and must be purchased separately.

PRODUCT CODE	LIST PRICE
BFHS1.5	

NOTE: 1 year limited warranty from pullout manufacturer.

Homeowner will be responsible for making any warranty claims directly to the hardware manufacturer. It is recommended that the installer leaves the installation/user manual with the homeowner for future reference.

TOP VIEW - Mounted Between Base Cabinet & 2nd Base Cabinet

BASE FILLER HIDEAWAY STEPS

- 2-step pullout with two-way deployment (left and right)
- Sized for 34-1/2" high, 24" deep application. Pullout dimensions cannot be modified.
- Fits 1-1/2" wide space
- Ships with loose 34-1/2" high filler to be trimmed in the field for each particular application
- Step system designed to be field installed between two base cabinets, or base cabinet and fixed end panel. Included installation instructions assume the countertop will be installed after the step unit installation.

SPECIAL FEATURES:

- Made of 19-ply hardwood plywood, maple veneered with UV finish
- 200 lb. weight limit
- Top step height at 14-1/2"
- Non-marking, soft rubber wheels
- Child-lock with on/off position

"X" ISLAND END PANELS

"X" ISLAND END PANELS

- One piece assembly for end-of-run, base application.
- Choose from 3" or 4" end posts. Any other size post must be quoted.

ISLAND END PANELS WITH FALSE DOOR or WAINSCOT

- One piece assembly for end-of-run, base application.
- Specify total width and height. Priced by overall square footage.
- Maximum width 51"
- 3" x 3" turned posts standard. Any other size post must be quoted.
- Specify post design; see ATPST in General Accessory section. This assembly will not work with post designs BC007, BC010, BC011, BC017, BC018 or BC020.
- Wainscot panel style (IEPWP) for mortise and tenon door designs only.
- Doors (panels for wainscot style) split into multiples at 24" intervals unless otherwise specified.
- *Add \$120 to square foot price for additional door or center panel. (Example: A 7 square foot IEPFD, with LEVEL1 doors, divided to have 2 doors / center panels total, would be \$2289 (7 sq. ft) plus \$120 (1-additional center panel charge) = \$2409 List.
- LEVEL2 plus will be added per each door / center panel. (Example: Saxony door style at LEVEL2 + \$98 would have \$98 added for each door / center panel)

FURNITURE PLATFORMS

TAPER FEET FURNITURE PLATFORM

- 6 3/4" overall height. (The platform is 2 1/4" taller than the standard toe space. To align with adjacent cabinets, the base cabinet used in conjunction with the platform will need the height reduced by 2 1/4". This height adjustment will not be made by the factory unless specified on the order.)
- The sizes shown are to match the corresponding cabinet sizes.
- If FOL and SOL, the platform will have a finished size of 1 1/2" deeper and 1 1/2" wider than listed. (Example: TAFP2421 will have overall dimensions of 25 1/2" wide by 22 1/2" deep.) If Inset, the platform will have a finished size of 3/4" deeper and 1 1/2" wider than listed. (Example: TAFP2421 will have overall dimensions of 25 1/2" wide by 21 3/4" deep.)
- Designed to be used with a base cabinet having NOTK (omit toe kick modification) applied.
- 3/4" plywood top with 3" wide solid wood edge on front and both sides. Machine edge profile as standard.
- 2" straight valances between the feet on front and both sides.

COUNTRY FRENCH FURNITURE PLATFORM

- 6 3/4" overall height. (The platform is 2 1/4" taller than the standard toe space. To align with adjacent cabinets, the base cabinet used in conjunction with the platform will need the height reduced by 2 1/4". This height adjustment will not be made by the factory unless specified on the order.)
- The sizes shown are to match the corresponding cabinet sizes.
- If FOL and SOL, the platform will have a finished size of 1 1/2" deeper and 1 1/2" wider than listed. (Example: CFFP2421 will have overall dimensions of 25 1/2" wide by 22 1/2" deep.) If Inset, the platform will have a finished size of 3/4" deeper and 1 1/2" wider than listed. (Example: CFFP2421 will have overall dimensions of 25 1/2" wide by 21 3/4" deep.)
- Designed to be used with a base cabinet having NOTK (omit toe kick modification) applied.
- 3/4" plywood top with 3" wide solid wood edge on front and both sides. PRS-2 edge profile as standard.
- 2" arched valances between the feet on front and both sides.

	PRODUCT CODE	LIST
SPICE RACK ON DOOR 3 1/2" deep, wood rack with fixed shelves mounted on cabinet door. Not available on cabinets less than 9" wide. Spice shelf accessory interior depth is 2 1/2". Height of each shelf section varies from approximately 5" to 7" depending on the height of the cabinet frame opening.	ASROD	
		
BASE CAN RACK (ATTACHED TO DOOR) 27" high pullout wood storage rack with adjustable shelves, as used in BCGS-style cabinet.	ABCR	(priced for up to 21" wide frame opening)
SINGLE WASTE BASKET (ATTACHED TO DOOR) 15" minimum cabinet width (12" wide minimum cabinet opening). Specify 'W' for white cans or 'P' for pewter cans. Pewter is not available for all inset cabinet configurations. Specific waste basket capacity varies based on cabinet details.	AWBAS-W	AWBAS-P
DOUBLE WASTE BASKET (ATTACHED TO DOOR) 18" minimum cabinet width (15" wide minimum cabinet opening). Specify 'W' for white cans or 'P' for pewter cans. Pewter is not available for all inset cabinet configurations. Specific waste basket capacity varies based on cabinet details.	AWBAD-W	AWBAD-P
WASTE BASKET DOOR EDGE PROTECTOR Stainless steel edge protector attached to waste basket door. Not available on Meadowview or Fairfield door styles, any door modified to have an E-2 outside edge profile, or SOLK-Lipped hinging. (Sized for: * =15" wide cab, ** =18" wide cab, *** =21" wide cab)	SSTP11.5*	SSTP14.5** SSTP17.5***
FLIPPER (POCKET)DOOR GLIDES Installed mechanism for stowing door inside cabinet as in entertainment cabinets. Minimum cabinet depth is 13 1/2" to allow for hardware. Flipper door glides are not available with the Bella door design or applied molding doors in which the molding protrudes beyond the face of the door such as Verona. Add to cabinet price; priced per each set of butt doors. Adding flipper doors to a cabinet will cancel all adjustable shelves in that section. When needing adjustable shelves, a loose shelf accessory will need to be added to cabinet price for each adjustable shelf. When needing finished interior, the matching wood interior modification will need to be added to cabinet price. When adding flipper doors to cabinet, interior opening width will be 8" less than the overall cabinet width if FOL-C. If SOL or Inset, the interior opening width will be 9 1/4" less than the overall cabinet width. Example: 30" wide, FOL-C cabinet will have an interior opening size of 22" wide. Doors over 24" up to 26" wide and/or over 42" up to 72" tall require large flipper door glides (ALFDG). Doors cannot exceed 72" tall.	AFDG	ALFDG
CUTTING BOARD BEHIND DRAWER 1 1/2" Pretreated hard rock maple cutting boards for cabinets up to 27" wide with single top drawer. Includes scooped drawer box sides and full extension undermount glides as standard. Cutting board will have feet attached to keep it in place while in cabinet drawer. May be used in the drawer or on the counter top. A bottle of Mystery Oil for retreating the cutting board will be included.	ACB-BD	
CUTTING BOARD OVER DRAWER 1 1/2" Pretreated hard rock maple cutting boards for cabinets up to 27" wide with single top drawer. When in the "closed" position, the cutting board will extend out of the front of the cabinet to be flush with the drawer front. Due to the reduction required for the top drawer front, the drawer front may be too short to allow for a 5-pc front. Will not have feet attached to the cutting board. We recommend that this style of cutting board be removed from the cabinet for counter top use. A bottle of Mystery Oil for re-treating the cutting board will be included.	ACB-OD	
BOTTLE OF MYSTERY OIL 15oz. bottle For periodic re-oiling of cutting boards to preserve the beauty and durability of the natural wood surface.	ABMYOIL	

BLUMOTION FULL EXTENSION UNDERMOUNT GLIDES

BMOT-FEUG

Minimum cabinet depth is 12". Minimum standard cabinet width is 12".

Shipped loose

100# static / 90# dynamic weight limit per drawer

NOTE: Cabinets less than 12" deep will have BLUM 7/8 extension undermount glides. These glides give the appearance of full extension undermount glides but will not have the BluMotion mechanism.

BLUMOTION FULL EXTENSION UNDERMOUNT GLIDES, HEAVY DUTY

BMOT-HD

Minimum cabinet depth is 12". Minimum standard cabinet width is 12".

Shipped loose

125# static weight limit per drawer

150# FULL EXTENSION SIDE-MOUNT GLIDES

FEG150

Add to cabinet price for each drawer

HANGING FILE RAILS

AHANGINGFILE

One pair hanging file rails installed in drawer. Front to back rails illustrated.

Standard guidelines for file rail direction:

Cabinets with a frame opening of less than 15" wide will have file rails that run side to side.

Cabinets with a 15" wide frame opening or greater will have file rails that run front to back.

Specify direction of file rails only if different from standard. (15" wide cabinets cannot accept front to back file rails.)

Cannot fit most standard cabinet configurations (10" deep box and 12" high frame opening needed to accommodate file tabs, MFC will be needed on cabinet to make this change.)

Pair of
Rails

BREAD BOX LID

ABBL

Plexi-glass sliding lid installed in drawer top

PLASTIC TILT OUT SOAP TRAY (priced per drawer front)

ATSTP

Plastic soap tray attached to tilt down drawer head

TILT OUT SOAP TRAY KIT—PLASTIC (priced per drawer front)

ATSTP KIT

Hinges included. State cabinet width for correct sizing.

STAINLESS STEEL TILT OUT SOAP TRAY (priced per drawer front)

ATSTS

Stainless steel soap tray attached to tilt down drawer head

TILT OUT SOAP TRAY KIT—STAINLESS STEEL (priced per drawer front)

ATSTS KIT

Hinges included. State cabinet width for correct sizing.

Adjustable natural maple rollout shelves with Blumotion full extension, undermount drawer glides on wood pilasters. If the rollout and its components need to have the specie and finish match the interior of a cabinet that has a MWI modification, a quote must be submitted prior to the order being placed for correct pricing and material availability. If Walnut rollout shelves are desired, a quote must be submitted prior to the order being placed for correct pricing.

- Price per rollout shelf
 - 100# weight capacity
 - Routed handpull centered in top edge of box front.
 - Dovetail construction
 - Fixed center frame stile is omitted when adding a full width rollout to a cabinet 39" wide and over or a sink base.
 - Not recommended for cabinets less than 15" wide. Not available for cabinets less than 12" wide or 12" deep.
- **Note:** when using combination of rollouts and adjustable shelves in the same opening, rollouts will always be located at bottom of section unless otherwise specified.

See below for additional guidelines.

Rollout Installation Guidelines

We have classified the addition of rollouts into two different categories based on usage. First, adding rollouts to wall cabinets or an upper portion of any cabinet, will be based on the same set of rules. (Upper portion is defined as any section of any cabinet which also has a lower opening.) Then, the addition of rollouts to base cabinets and the lower portion of tall cabinets will be based on another set of rules.

- Rollouts in wall units and upper portions of tall/base units. (Sink base cabinets will follow this same set of rules.)
 - When adding **a single rollout**, the rollout will be permanently mounted to the floor in that section, utilizing our Blumotion full extension under-mount glides.
 - Also, when adding **a single rollout**, the quantity of adjustable shelves in that section will remain the same.
 - When adding **more than one rollout** to a section all adjustable shelves will be deleted. When adding adjustable shelves back into the opening, each shelf will be notched to accept the ladders which are installed for the rollouts.
 - Also, when adding **more than one rollout** to a section our standard rollout ladder configuration will be utilized by installing the ladders full height in the interior of that section. (Full height is full usable height determined by Brighton.)
- Rollouts in lower openings of base/tall units. (Except sink base cabinets.)
 - When adding **a single rollout** or **more than one rollout**, our standard rollout ladder configuration will be utilized by installing the ladders in the complete interior height of that section.
 - Also when adding **a single rollout** or **more than one rollout**, all adjustable shelves will be deleted. When adding adjustable shelves back into the opening, each shelf will be notched to accept the ladders which are installed for the rollouts.
 - When adding **a single rollout only** in an opening **and** requesting that it be flush mount (not adjustable), the quantity of adjustable shelves in that section will remain the same.

These rules have been adopted as a standard practice for Brighton Cabinetry, Inc. Any deviation from this process must be in writing in the notes section of the order. All cabinets in our catalog with rollouts included will also follow the guidelines listed above.

DRAWER DIVIDER

ADD

Centered divider, dadoed into drawer box. Priced per divider.

DRAWER SPICE RACK

ADSR

Wood spice rack drawer insert. 4 horizontal rows (in drawer box of standard 24" deep base cabinet) for storage of spice containers that are approximately 4 1/2" high.

CUTLERY DIVIDER, STYLE A

ACD A

Standard configuration, see illustration

Removable drawer insert with 1/2" soft maple wood partitions

One front 3" wide section parallel to the front of the cabinet with two or more dividers running front to back, evenly spaced, approximately 3" apart. Suited best for cutlery or flatware.

NOTE: smaller width cabinets may have only one divider

CUTLERY DIVIDER, STYLE B

ACD B

Standard configuration, see illustration

Removable drawer insert with 1/2" soft maple wood partitions

Two or more dividers running front to back, evenly spaced, approximately 3" apart. Suited best for longer cutlery or utensils.

NOTE: smaller width cabinets may have only one divider

CUTLERY DIVIDER, STYLE C

ACD C

Custom configuration specified by the designer when submitting an order. If C is specified, send detailed sketch of divider.

Removable drawer insert with 1/2" soft maple wood partitions

NOTE: minimum of 3" of space between wood partitions is recommended

(must include
detailed sketch)

DOUBLE CUTLERY DIVIDER

ACD D

Two dividers in one drawer, priced per drawer.

Top divider (style 'A') slides back for access to lower divider (style 'B').

1/2" soft maple dividers

Front to back dividers evenly spaced, approximately 3" apart.

	PRODUCT CODE	LIST
CUTLERY DIVIDER - SILVERWARE TRAY Removable silverware tray insert with 3/8" maple partitions. Exact configuration will vary depending on interior size of drawer box. For single top drawer cabinets 18" to 30" wide. For a cabinet with two side-by-side top drawers, fits into single drawer of a 36" wide cabinet or larger. NOTE: Modifications to cabinets that affect drawer size may render openings less useful or prevent the use of standard configured divider entirely. Before adding to non-standard sized cabinets, contact customer service to be sure this divider will fit. For cabinets less than 18" wide, a custom divider is required. Non-standard dividers are priced as ACD-C.	ACDST	per drawer
		
CUTLERY DIVIDER - UTILITY TRAY Removable utility tray insert with 3/8" maple partitions. Available only for 21" wide cabinet. NOTE: Modifications to cabinets that affect drawer size may render openings less useful or prevent the use of standard configured divider entirely. Before adding to non-standard sized cabinets, contact customer service to be sure this divider will fit. Non-standard dividers are priced as ACD-C.	ACDUT	per drawer
		
SILVERWARE TRAY WITH KNIFE BLOCK Removable silverware tray insert with 3/8" maple partitions and maple knife block combo. Exact tray configuration will vary depending on interior size of drawer box. For single top drawer cabinets 27" to 36" wide. NOTE: Modifications to cabinets that affect drawer size may render tray openings less useful. Before adding to non-standard sized cabinets, contact customer service to be sure this combo divider will fit. Custom pricing applies to non-standard dividers.	ASTKB	per drawer
 <p>27" and 33" wide cabinets have 12" wide knife block (pictured) 30" and 36" wide cabinets have 6" wide knife block</p>		
UTILITY TRAY WITH KNIFE BLOCK Removable silverware tray insert with 3/8" maple partitions and maple knife block combo. Available only for 27" wide cabinet with single top drawer. Knife block is 6" wide. NOTE: Modifications to cabinets that affect drawer size may render tray openings less useful. Before adding to non-standard sized cabinets, contact customer service to be sure this combo divider will fit. Custom pricing applies to non-standard dividers.	AUTKB	per drawer
		
KNIFE BLOCK Block made of maple and will fit in top drawer of B15 and smaller. Or, if the cabinet has two side-by-side top drawers, fits a single drawer of a 30" wide cabinet or smaller. Priced per drawer. Note: If a larger knife block is wanted, contact Customer Service for pricing.	AKB

TOE KICK STEP STOOL

TKSS

Minimum width of cabinet to install Toe Kick Step Stool is 18".

Added to cabinet price.

Recessed side toe and / or rear toe modifications may not allow enough space for this item.

Load bearing capacity approximately 300 lbs.

TOE KICK DRAWER - 24" DEEP

ATKD1824

Add to 24" deep cabinets.

Operational, 2" high drawer box added into toe kick space.

3/4" thick solid wood face frame at bottom and sides.

Toe notch for side of cabinet remains the same height and depth as standard after the 1/4" AMTK has been applied to adjacent cabinets.

Actual front to back depth of drawer box is 18" for 24" deep unit.

Drawer fronts are slab; 5 pc. not available.

Minimum overall cabinet depth is 18" due to limited access to the drawer box under the cabinet.

Illustration depicts B3D cabinet with ATKD accessory installed.

POT AND PAN CADDY

ABPPC

20" width, 14 1/2" height, 22 1/8" depth
Birch veneer, wood platforms with heavy duty chrome-plated wire surrounds for storage of cook ware and lids.
Two shelves pull out individually using full extension ball-bearing slides.
Upper shelf has two side racks.
Maximum weight capacity of 25lb. per shelf
Will fit minimum of 24" wide, 24" deep cabinets. (Inset cabinet doors must be able to open fully.)
Inset Concealed has to be a 27" wide cabinet.

HAMPER BASKET ROLLOUT

AROHB

Add to cabinet price
Pullout attaches to door
1.3 bushel, white plastic hamper basket
Blum full-extension, undermount glides
Fits 15" or 18" wide frame opening
Cabinet depth can be no less than 21"
Frame opening height can be no less than 21"

LIFT UP MIXER SHELF

ALUMS

3/4" plywood shelf installed on lift-up mechanism.
Width of shelf equals face frame opening width minus 3".
When added to a cabinet, this accessory item omits the adjustable shelves from that cabinet.
Maximum appliance height of 16 1/2"
The recommended cabinet width is 18".
Minimum frame opening height of 24 1/2". Only available in base full height door (BFD) application.
Minimum cabinet depth is 24" (shelf depth equals 20 1/2").
Weight capacity of 60 lbs. max

METAL TOWEL RACK

ATR

Pullout metal towel rack mounted inside cabinet, specify installation location.
6" wide minimum opening necessary, 21" minimum cabinet depth
Holds 25 lbs. maximum
Not recommended for use on BDS or BRCS due to sink clearance.

BASE TRAY DIVIDER

ABTD

1/2" UV Birch veneer plywood divider.
Specify location and spacing of multiple dividers.
Tray dividers will be equally spaced in the opening unless otherwise specified.
Adjustable shelves cannot be adjacent to tray dividers. A partition must be used if adjustable shelves are needed.

BASE PARTITION

ABP

3/4" UV Birch veneer plywood, centered unless otherwise specified. When not centered, the dimension specified will be the opening measured within the frame, starting from the left. When selected for cabinets with shelves, shelves are installed on both sides. Use when adding an accessory on one side of cabinet, shelves are installed on opposite side. Specify location of partition and side of accessory installation if required.

BASE END SKIN

ABSKIN

1/4" panel matching specie and finish of order

SQ FT

BASE WOOD REVOLVING SHELF

ABWRS

Revolving platter added to shelf for diagonal corner or pie cut base cabinet.

SINK BASE DRIP TRAY-INSTALLED ONLY

ASBDT

Almond colored, under sink drip tray for installation in NEW 36" wide x 24" deep base cabinet. Width can be cut down to fit in 33" wide x 24" deep NEW cabinet, also.

Cannot be installed around existing plumbing.

Cannot be installed in post notch or clip corner style cabinets.

Resistant to most household chemicals. Wipes clean.

Unique design funnels excessive water to the front of the cabinet and onto the floor as an alert to a leak.

Tray measures 11/16" high and holds up to 1.75 quarts of water.

CHARGING DRAWER

ACHD18

Charging unit installed in standard height top drawer of base cabinets. Only available for 24" deep cabinets and for cabinet widths specified. The charging drawers

ACHD21

cannot be reduced in height and will not fit into mini base cabinets (BM) or planning

ACHD24

desk (PD) drawers. This accessory is priced as an add-on to an existing drawer box.

ACHD30

Interior of drawer box will display the manufacturer's logo brand (Century Components) and the finish may not

exactly match to other drawer boxes in the cabinetry.

Genuine leather covered floor of insert with solid maple dividers. Configuration cannot change.

Charging units contain AC and USB outlets, exact configuration is dependent on the drawer width.

Access holes in the maple dividers to allow for easy access of the charging cords to the outlets.

ACHD18

(fits into 15" wide opening)

ACHD21

(fits into 18" wide opening)

ACHD24

(fits into 21" wide opening)

ACHD30

(fits into 27" wide opening)

ACHD30 pictured above

BASE MODIFICATIONS

	PRODUCT CODE	LIST
FRAME CHANGE	MFC	
Includes one or all changes made to frame configuration, excluding extended stiles and rails. Specify changes and dimensions, provide sketch.		
INCREASE CASE DIMENSION MODIFICATION	MICDIM	
Used to increase height, and/or width, and/or depth above the largest standard sizes. Cabinet may be increased up to 6" larger for any or all dimensions. Dimension increases beyond 6" require a quote. Some restrictions apply due to material availability. Any cabinet increased in width to 39" or above will have a fixed center stile as standard. Drawer boxes and rollouts will increase with the cabinet depth up to 27" deep cabinets. Anything increasing over 27" in depth must be verified with Customer Service for availability before ordering. Wall cabinets and sink cabinets can be increased in <u>depth only</u> up to a maximum of 3" beyond the standard cabinet depth for no up charge at all.		
MATCHING WOOD INTERIOR	MMWI	
Wood specie and finish match frame and doors. Price % of list price. When selecting matching wood interior on cabinets with more than one section (ie, tall cabinets or combined cabinets) the entire interior of all sections will be matching wood interior as standard. The grain on interior backs <u>may be</u> horizontal on cabinets larger than 48" wide.		
ALTERNATE COLOR FINISHED INTERIOR		
Same Specie/Different Finish Interior	MACFI-SD	
Different Specie/Different Finish Interior	MACFI-DD	
This modification is used in place of MMWI when finished interior of cabinet is to be an alternate color from exterior of cabinet. When the alternate interior is also a different specie choose "DD" modification. Price % of list price. When selecting one of these modifications on cabinets with more than one section (ie, tall cabinets or combined cabinets) the entire interior of all sections will be finished wood interior. The grain on interior backs <u>may be</u> horizontal on cabinets larger than 48" wide. When a cabinet comes with a finished interior already, example: bookcase cabinets, the same percentage upcharge as shown here will be applied.		
COMBINE CABINET CHARGE	COMBINE	
Used to combine two or more cabinets. One charge per combination of two cabinets.		
BASE FRONT ONLY	MBFRO	
Subtract from base price of cabinet. Doors are hinged and working. Specify if fixed doors are required. Floor not included. Unless specified, front will be shipped without sub-toe kick. Overall frame height will be 4 1/2" less product height ordered unless MFTK (flush toe) is added. Example: BFD21R (std. 34 1/2" high) + MBFRO ordered, shipped frame height = 30".		
OMIT DOORS	MOD	
Interior remains standard finish unless matching wood interior modification is used.		
ADD CENTER STILE	MACSB	
To add vertical center stile to any cabinet. Standard 1 1/2" wide stile, specify width of stile if different dimension is desired.		
OMIT CENTER STILE	MBOCS	
Omit center stile from face frame on cabinets 39" wide and over.		
ADD CENTER RAIL	MACRB	
To add a horizontal center rail and fixed floor to any cabinet. Standard 1 1/2" wide rail, specify width of rail if different dimension is desired. Include specific information for placement of rail, provide drawing if possible. Charge includes cost for dividing doors into separate uppers and lowers.		
APPLIED MOLDING CHARGE	MAMC	
Charge to apply molding, ornaments, appliqué to cabinets.

The route will be a locking miter and the piece that will be joined with the base wainscot in the field must also have the furniture end route modification added to the appropriate side. A locking strip will be attached to the routed end at the factory and must be removed before field installation.</p>	MLFERB	B	\$/ PANEL

BASE MODIFICATIONS

	PRODUCT CODE	SPECIFY	LIST
BASE FINISHED END	MBFE	L / R	
Side of cabinet matches specie and stain of front frame and doors. Side retains 1/4" scribe reveal same as unfinished side. Finished end option is not available for Red Birch, QSWO, RCWO, Walnut, Weathered Grain QSWO. Another option must be chosen for exposed ends. If a cabinet is submitted with the finished option selected for these species, the cabinet will be provided with a flush finished end and will be charged accordingly.			SQ FT
BASE FLUSH FINISHED END	MBFFE	L / R	
A 1/4" panel is applied creating a flush end. Side of cabinet matches specie and stain of front frame and doors.			SQ FT
FINISHED BACKS 1/2"	MFBAH		
Back thickness does not affect overall depth of cabinet. Vertical grain is standard.			SQ FT
BASE FALSE DOOR ON END	MBFDE	L / R	
Includes flush finished end.			SQ FT
BASE WAINSCOT END PANEL	MBWEP	L / R	
A 3/4" panel constructed from same material as cabinet doors, applied flush with cabinet end. Center panel will be divided to best align with doors on face of cabinet. Bottom rail will be wider for toe space unless cabinet ships with a side toe or loose toe. Not available for mitered door styles.			SQ FT
BASE BEAD BOARD END	MBBDE	L / R	
1/2" solid wood, tongue and groove bead board, factory installed on cabinet side.			SQ FT
BEAD BOARD INTERIOR BACK	MBDIB		
1/2" solid wood, tongue and groove bead board installed in the back of cabinet.			SQ FT
BASE GROOVED PANEL LEFT / RIGHT	MBGP	L / R	
1/4" veneered panel with MDF core applied, creating a flush end. 1/8" wide, vertical 'V' grooves, spaced 1 1/2" apart. Other designs to match grooved doors are available upon request. Matches specie and stain of front frame and doors. Not available for any finish with wear sanding. Not available in Rustic Alder or Rustic Hickory: standard grade wood will be substituted.			SQ FT
BASE GROOVED PANEL INTERIOR BACK	MBGPIB		
1/4" veneered panel with MDF core installed in the back of the cabinet. 1/8" wide, vertical 'V' grooves, spaced 1 1/2" apart. Other designs to match grooved doors available upon request. Matches specie and stain of front frame and doors. Use with MWI modification to finish the remainder of cabinet interior. Not available for any finish with wear sanding. Not available in Rustic Alder or Rustic Hickory: standard grade wood will be substituted.			
BASE GROOVED PANEL BACK (1/2")	MBGPBAH		
1/2" veneered panel with MDF core applied to the case back. 1/8" wide, vertical 'V' grooves, spaced 1 1/2" apart. Other designs to match grooved doors are available upon request. Matches specie and stain of front frame and doors. Back thickness does not affect overall depth of cabinet. Not available for any finish with wear sanding. Not available in Rustic Alder or Rustic Hickory: standard grade wood will be substituted.			SQ FT
BASE FLUSH FINISHED TOP	MPFFT		
Flush panel matches specie and finish of cabinet. To cover exposed side edges of flush finished top, flush finished ends must be ordered.			SQ FT

	PRODUCT CODE	SPECIFY	LIST
BASE EXTENDED STILE OUT... UP TO 3" (see next page for illustrations) Stile extends outward from cabinet, increasing overall frame width by the amount specified for the extension. Overlay filler strips are available for full-overlay flush look. (See base cabinet accessories)	MBESO3	L / R	
BASE EXTENDED STILE OUT...UP TO 6" (see next page for illustrations) Stile extends outward from cabinet, increasing overall frame width by the amount specified for the extension. Overlay filler strips are available for full-overlay flush look. (See base cabinet accessories)	MBESO6	L / R	
BASE EXTENDED STILE IN...UP TO 3" (see next page for illustrations) Stile extends inward, overall frame width does not change. Overlay filler strips are available for full-overlay flush look. (See base cabinet accessories)	MBESI3	L / R	
BASE EXTENDED STILE IN...UP TO 6" (see next page for illustrations) Stile extends inward, overall frame width does not change. Overlay filler strips are available for full-overlay flush look. (See base cabinet accessories)	MBESI6	L / R	
BASE EXTENDED STILE DOWN Extends stile (specify left or right) down into the toe kick space to meet the floor.	MBESD	L / R	
EXTEND TOP OR BOTTOM RAIL UP (see next page for illustrations) Add to cabinet price. Indicate overall dimension.	METRU MEBRU		
EXTEND TOP RAIL DOWN (see next page for illustrations) Add to cabinet price. Indicate overall dimension.	METRD		
VALANCE TOP RAIL Extends a standard 1 1/2" wide top rail down for an overall rail width of 5". Price for cabinets up to 42" wide. Specify shape: Classic Arch, Elegant Arch, Straight, Arched, Furniture, Shaker style A or Shaker style C. Provide a sketch or template for custom pattern, requires quote.	MVTR		
VALANCE BOTTOM RAIL Price for cabinets up to 42" wide. Specify shape: Classic Arch, Elegant Arch, Arched, Furniture, Shaker style A or Shaker style C. Use MFTK, flush toe kick modification, when the Straight valance design is wanted. Provide a sketch or template for custom pattern, typically requires a quote. Base and tall cabinets with this bottom rail modification will still have the subtoe behind the valance bottom rail. The subtoe ships finished and will <u>not</u> require a separate AMTK.	MVBR		
BASE EXTEND SIDE BACK Specify the length of the extension beyond the standard depth. 48" overall maximum depth. Back edge is finished as standard when side of cabinet has any type of finished-end modification. Otherwise, specify on order for finished edge, if needed, when cabinet does not have a finished-end modification and add appropriate edge banding (EB) charges.	MBESB	L / R	ea. 6"
BASE RECESSED SIDE Normally used when a recess allowance is needed for a field applied panel. The cabinet face frame and door reveals will not change with this modification. Most standard cabinets already have 1/4" recess behind the face frame, specify <u>TOTAL</u> amount needed. Maximum overall recess allowed = 7/8".	MBRS	L/R	

EXTENDED RAIL AND STILE ILLUSTRATIONS

BASE MODIFICATIONS

	PRODUCT CODE	SPECIFY	LIST
BASE SIDE ANGLED	MBSA	L / R	+%
Side is angled, front frame is parallel to back. Include a top view sketch with dimensions of side and front. Specify a degree of angle. Use widest dimension of finished cabinet as initial starting price then add modification charge.			
BASE ANGLED SIDE ENTRY	MBAE	L / R	+%
This modification is like base side angled but with frame and working door. Include a top view sketch with dimensions of side and front. Specify degree of angle and hinging. Use widest dimension of finished cabinet as initial starting price then add modification charge.			
BASE ANGLED FRONT	MBAF	L / R	+%
Front is angled, sides remain perpendicular to back. Include a top view sketch with dimensions of sides and front. Specify overall cabinet size. Indicate depth of right and left sides. Minimum depth is 4" for adjustable shelves. Use widest dimension of finished cabinet as initial starting price then add modification charge.			
BASE END ENTRY	MBEE	L / R	
Specify door hinging. Add modification charge to initial starting price of cabinet.			
DOUBLE ENTRY	MDE		+ %
Add modification charge to initial starting price of cabinet. Specify hinging on rear if different from front entry.			
BLIND BASE CUSTOM FRONT	MBBCF		
Use to make special size front and blind area Provide sketch of front opening and blind area dimensions Example; to create a blind cabinet with an overall width size of 45" with a 30" front (27" opening) and a 15" blind area, price as a regular B30 and add \$.			
BASE FINISHED BLIND SOLID	MBFBS		
3/4" wood fill-in of entire blind area in matching wood and finish			
FLUSH TOE KICK	MFTK		
Per cabinet front Note: When adding this to base or tall cabinets and also requesting that the flush toe is cut into a valance shape, there will be a subtoe behind the valance bottom rail. The subtoe piece ships finished and does <u>not</u> require a separate AMTK.			
LOOSE TOE KICK	MLSTK		0
Shipped loose. Overall shipped cabinet height is reduced 4 1/2".			
OMIT TOE KICK	NOTK		0
Removes the toe kick area from the cabinet. Overall shipped cabinet height is reduced 4 1/2".			
SIDE TOE KICK	MLTK MRTK MLRTK	(Left) (Right) (Left/Right)	
Add to cabinet price Specify left or right or left and right			
BACK TOE KICK	MBTK MBLTK MBRTK MBLRTK	(Back) (Back/Left) (Back/Right) (Back/Left/Right)	
Add to cabinet price Specify back or combination of back and side(s)			

BASE MODIFICATIONS

	PRODUCT CODE	SPECIFY	LIST
UNIVERSAL ACCESS TOE KICK SPACE	MUATOE		
<p>Modifies the cabinet's toe kick to 9" high x 6" deep as recommended by the Americans with Disabilities Act 2010 standards. Specify if other dimensions are needed.</p> <p>Note: Using this modification can affect other aspects of the cabinetry and may cause some configurations to no longer be available. Examples of this include, but are not limited to, a B4D and a BM2DF.</p>			
BASE DUCT CUTOUT	MBDCO		
Include a top view sketch with cutout dimensions and location.			
SINK SIDE CUTOUT	MSSCO		
6" high cutout at top edge of both sides. Starts and ends 2" from front and back edges.			
BASE CLIPPED CORNER	MBCC	L / R	
<p>Stile is angled at 45 degrees. The face frame is decreased by 3" per clipped corner.</p> <p>This modification does not increase the width or depth of the cabinet.</p>			Per side
RECESS POST CUTOUT	MRPC	L / R	
<p>Post not included, accepts up to a 6" post.</p> <p>Specify size of cutout: width x depth</p> <p>Cutout space will be 3/4" finished frame stock</p>			Per side
BASE FLUTING	MBFLUTE		
<p>Routed on filler or stile up to 6" wide. Three flutes are standard, based on 3" filler. Specify the number of flutes if different (1 flute per inch is recommended). Limits will normally align with adjacent cabinets. Standard is 3/8" flute with 3/8" space between flutes. Provide sketch on special fluting requirements. Minimum filler width is 1 1/2".</p>			
ROSETTE DESIGN	MROSETTE		
<p>Routed into filler, usually accompanies fluting.</p> <p>Style A (2 1/4") is for 3" filler or overlay filler (2 3/4") with machine or L149 edge. Minimum overlay filler width will be 3 1/8" for all other edge profiles.</p> <p>Style B (3 1/8") is for 6" filler.</p>			
HEAVY DUTY DRAWER BOX UPGRADE	MHDBOX		
<p>Upgrades a drawer box with heavy duty BLUM glides with a 125lb static weight limit.</p> <p>Upgrade includes 1/2" thick drawer box bottom.</p> <p>Modification price is per each drawer box or rollout shelf.</p>			

FLIP DOWN DOOR STAY

MFDDS

/ CAB

Supports a door hinged to the bottom of a cabinet opening
Priced per piece (2 doors maximum)
Minimum frame opening 7" high, minimum cabinet interior depth of 5"
Maximum door height is 24"

(2 doors max.)

90 DEGREE HINGING (concealed hinge only)

MB90DEG-L

Hinge with restricted swing of just less than 90 degrees
Available for concealed hinges only.
Priced per cabinet side
Specify side: L or R

MB90DEG-R

BASE ADDITIONAL DRAWER, STANDARD

MBADS

Specify:

SOL/Inset FOL/FFA

Use this modification to add a drawer that would require a frame opening of 6" H or less.

SLAB

Blumotion glides standard: other glide styles will be substituted when the frame opening for the drawer boxes are under 6" wide or cabinet is less than 12" deep.

1INSLAB

This price includes drawer box, hardware, drawer front, and frame change.

5-PIECE

BASE ADDITIONAL DRAWER, DEEP

MBADD

Specify:

SOL/Inset FOL/FFA

Use this modification to add a drawer that would require a frame opening greater than 6" high.

SLAB

Blumotion glides standard: other glide styles will be substituted when the frame opening for the drawer boxes are under 6" wide or cabinet is less than 12" deep.

1INSLAB

This price includes drawer box, hardware, drawer front, and frame change.

5-PIECE

5-PIECE DRAWER HEAD

Price per drawer head.

Drawer head made in a 5-piece configuration.

The top and bottom rails of the drawer head are cut down for most designs.

5-P(RAIS)-FOL/FFA

5-P(FLAT)-FOL/FFA

5-P(RAIS)-SOL/INSET

5-P(FLAT)-SOL/INSET

1" THICK, SLAB DRAWER FRONT UPGRADE

1-INSLAB-FOL

Price per drawer head.

Not available to match all designs. Not recommended with slab doors or designs with flat center panels. See Introduction for more information.

1-INSLAB-SOL/INSET

DRY SEED SEE THROUGH DRAWER FRONT

MDSDF

Wood frame and a plexi-glass center panel with divider positioned behind the clear panel.

per drawer

SCOOPED DRAWER SIDES

MSDS

Standard scoop is 2" down from top edge and begins 1-1/4" back from front edge unless otherwise specified.
Minimum drawer box height is 4".

OMIT OPERATING DRAWER BOX

MOODB

Omits the operating drawer box and hardware from a standard cabinet. The drawer front will be attached to the cabinet as a false front. If the cabinet has more than one drawer top-to-bottom, this modification will remove the top drawer box unless otherwise specified. If the cabinet has multiple drawers side-to-side, you must specifically note on the order which box is to be removed, such as 'omit left drawer box'.

per drawer

U-SHAPE DRAWER BOX MODIFICATION

MUDRBOX

Modifies an existing drawer box to have a cutout centered, side to side, allowing space for pipe work. Drawer box width must be at least 12" (12 3/8" frame opening). Must specify dimensions 'A' and 'B' as shown on the template. 'C' can be no less than 3".

per drawer

Note: When beaded Inset—Both leg version will be beaded around the lower appliance opening. Single Leg version will not have a bead around the lower opening unless specifically requested on the order by the designer.

- 40" wide, standard
- Available at 24" and 30" deep.
- Lower opening is 37" wide, sized for 36" wide refrigerator unit.
- Standard with Furniture Flush Ends, Matching Wood Interior and Finished Wall Bottom.
- Lower opening is 73" high. Add MFC (frame change) with a note on the order for a taller lower opening.
- 1 1/2" full length framing on face of return.
- Specify B (both legs), L (left leg) or R (right leg).
- Cabinets that are 84" high, or any with an upper frame opening of less than 9" high, cannot have doors that are hinged left and right. Instead, these cabinets will have their doors hinged to the top, opening upwards.
- One 3/4 depth adjustable shelf in upper of 96" H cabinet.
- Two 3/4 depth adjustable shelves in upper of 102" H and 108" H cabinet.
- Shipped with bracing that must be removed before installation.
- Verify ceiling height clearances for installation.
- Products over 96" tall may require a splice due to material limitations.

VERTICAL STACK CABINET SPECIFICATIONS

- Cabinets that have the look of two cabinets that have been stacked one on top of the other.
- Wall cabinets have two frame openings, one top and one bottom, with a center frame rail and fixed center floor dividing the two sections.
- Tall cabinets have three frame openings, one top, one middle, and one bottom, with a center frame rail and fixed center floor dividing each section.
- Offered standard with top doors equal to 12", 15", 18" or 21" high cabinets. Upper door heights will align with cabinet height equal to first set of numbers listed in the nomenclature. See example above.
- "Single door" indicates one door across width for each opening. "Two doors" indicates 2 butt-doors for each opening.
- Specify L or R for hinge side when applicable.
- Shelf quantities are dependent on the specific opening height of each section. A minimum of 18" frame height opening is required for an adjustable shelf.
- Matching wood interior modification (MMWI) will change the entire cabinet interior to have a finished interior.
- For vertical stacked wall cabinets: Any height change will modify the cabinet in the lower section. The upper frame opening height will not change unless specified on the order and will require a frame change charge (MFC).
- For vertical stacked tall cabinets: Any height change will modify the cabinet in the middle section. The top and bottom frame opening heights will not change unless specified on the order and will require a frame change charge (MFC).
- FOL-C overlay cabinet has a 3" face frame mid-rail below the top section. All other overlays have a 1 1/2" face frame mid-rail.
- Cabinets 39" wide or greater will have a fixed center stile in each section as standard.

TALL UTILITY, VERTICAL STACK CABINET, 13" DEEP

- See Vertical Stack Cabinet Specifications on page W12 for more information.
- Toe base shipped loose
- Full depth shelves
- Four adjustable shelves in lower section.
- T21VS cabinets have one adjustable shelf in the top section.
- Shelf quantity in the center section can vary depending on overall cabinet height and height of top section.
- Minimum frame opening must be 18" high for adjustable shelf.

- 24" deep standard
- Two separate pullout canned good storage racks
- One adjustable canned good shelf per pullout
- Top opening does not have pullout but instead will have full depth adjustable shelves based on overall cabinet height.
- 90", 93", 96" and 102" tall cabinets will ship with loose toe base.
- Specify hinge side for top door.

NOTE: Tall Canned Good Storage Units under 8" wide are not recommended to store cans. The shelf would only be wide enough for spices or other smaller items.

TALL CABINETS

TALL MULTI-FOOD STORAGE

- 24" deep standard
- Wood shelf units
- Lower section has four adjustable shelves on each swing out and door mounted storage rack. Four shallow adjustable shelves at back.
- 36" wide cabinet has center partition in lower section.
- 84" tall cabinet: one shelf in upper section.
- 90", 93", & 96" tall cabinet: two shelves in upper section.
- 102" tall cabinet: three shelves in upper section.
- Toe base shipped loose for cabinets over 84" tall.
- Door(s) must be able to open a minimum of 105° to allow access to the storage space in the rear. Adding hinge restrictors will impede access to the internal storage areas.

TALL ANGLED FRONT CABINET

- 13" wide with 40 degree angled front frame
- Short side = 13" deep, long side = 24" deep
- Specify left (L) or right (R) to indicate end of cabinet run for deeper cabinet side.
- Hinging will be to the shallower side (left (L) illustrated). If opposite hinging is required please specify on order.
- Four adjustable shelves in lower section.
- 84" tall cabinets: one shelf in upper section
- 90", 93", & 96" tall cabinets: two shelves in upper section
- 102" tall cabinets: three shelves in upper section.
- Toe base shipped loose for cabinets over 84" tall.
- For a 45 degree angle on the front, the width of the cabinet will need to be 11" wide with 13" depth for the shallow side. Or, the depth of the shallow side will need to be 11" keeping the width at 13".

TOC

Tall Oven Cabinet

****Standard 3" wide rails above and below cutout, specify if another dimension is required**

NOTE: Appliance openings in frames will not have a beaded perimeter when ordered on beaded inset cabinetry. Designer must specify in writing if the appliance opening is to have a bead.

**For figuring reveals for install kits, doors and drawer fronts overlay the oven rail by the following standard amounts:

Hinge	Overlay
FFA	1 3/8"
FOL-C	1 1/4"
SOL-C/SOL-K	1/2"
SOL-K LIPPED	5/16" ***
Specify if another dimension is desired ***	

***SOL-K Lipped overlays cannot be modified

Provide the following dimensions:

A= _____ Overall cabinet width

B= _____ Overall cabinet height

C= _____ Ht. cutout to start from floor (recommended ht. of 36" to align with std. base height cabinets)

D*= _____ Oven cutout width

E= _____ Oven cutout height

*Cutout may be no wider than 1 1/2" less the overall cabinet width, see chart

Cabinet width	Max cutout width*
24"	22 1/2"
27"	25 1/2"
30"	28 1/2"
33"	31 1/2"
36"	34 1/2"

TALL OVEN CABINET, 4 DOORS

- 24" deep standard
- Specify the cutout size (width X height) and distance from floor to bottom of cutout. Use of template page for TOC is recommended.
- To allow for doors equal to standard base height, cutout must start at 36" off of floor.
- The cutout width can be no more than 1 1/2" less than the overall cabinet width, this leaves a minimum of 3/4" for each frame stile (left and right). Example: 30" wide cabinets, the largest cutout width allowable is 28 1/2".
- 3" rail above and below cutout standard.
- Number of shelves in the upper section of Tall Oven Cabinets will vary according to the opening size. This opening is determined by the oven cutout and height off the floor specifications.
- Cutout back at oven opening.
- Toe base shipped loose for cabinets over 84" tall.
- See template page for more details.
- Appliance openings in frames will not have a beaded perimeter when ordered on beaded inset cabinetry. Designer must specify in writing if the appliance opening is to have a bead.

	T2DOC3010224		
	T2DOC3310224		
	T2DOC3610224		

NOTE: T2DOC cabinet cannot have decorative ends except for a standard finish end or standard flush finish when using maximum width cutout for the specific cabinet's overall width.

Tall Three Drawer Oven Cabinet

****Standard 3" wide rails above and below cutout, specify if another dimension is required**

NOTE: Appliance openings in frames will not have a beaded perimeter when ordered on beaded inset cabinetry. Designer must specify in writing if the appliance opening is to have a bead.

**For figuring reveals for install kits, doors and drawer fronts overlay the oven rail by the following standard amounts:

Hinge	Overlay
FFA	1 3/8"
FOL-C	1 1/4"
SOL-C/SOL-K	1/2"
SOL-K LIPPED	5/16" ***
Specify if another dimension is desired ***	

***SOL-K Lipped overlays cannot be modified

Provide the following dimensions:

A= _____ Overall cabinet width

B= _____ Overall cabinet height

C= _____ Ht. cutout to start from floor (recommended ht. of 36" to align with std. base height cabinets)

D*= _____ Oven cutout width

E= _____ Oven cutout height

*Cutout may be no wider than 1 1/2" less the overall cabinet width, see chart

Cabinet width	Max cutout width*
24"	22 1/2"
27"	25 1/2"
30"	28 1/2"
33"	31 1/2"
36"	34 1/2"

TALL OVEN CABINET 3 DRAWERS, 2 DOORS

- 24" deep standard
- Specify the cutout size (width X height) and distance from floor to bottom of cutout. Use of template page for T3DOC is recommended.
- To allow for drawers equal to standard height three drawer base, the cutout must start at 36" off of floor.
- The cutout width can be no more than 1 1/2" less than the overall cabinet width, this leaves a minimum of 3/4" for each frame stile (left and right). Example: 30" wide cabinets, the largest cutout width allowable is 28 1/2".
- 3" rail above and below cutout.
- Number of shelves in the upper section of Tall Oven Cabinets will vary according to the opening size. This opening is determined by the oven cutout and height off the floor specifications.
- Drawers will be equal height unless otherwise specified.
- Cutout back at oven opening.
- Toe base shipped loose for cabinets over 84" tall.
- See template page for more details.
- Appliance openings in frames will not have a beaded perimeter when ordered on beaded inset cabinetry. Designer must specify in writing if the appliance opening is to have a bead.

Specify if another dimension is desired ***	

***SOL-K Lipped overlays cannot be modified

Provide the following dimensions:

A= _____ Overall cabinet width

B= _____ Overall cabinet height

C= _____ Ht. cutout to start from floor (recommended min. height = 14")

D*= _____ Oven cutout width

E= _____ Oven cutout height

F*= _____ Microwave cutout width

G= _____ Microwave cutout height

*Cutout may be no wider than 1 1/2" less the overall cabinet width, see chart

Cabinet width	Max cutout width*
24"	22 1/2"
27"	25 1/2"
30"	28 1/2"
33"	31 1/2"
36"	34 1/2"

TALL MICROWAVE OVEN CABINET 1 DRAWER, 2 DOORS

- 24" deep standard
- Two appliance cutouts
- Specify both cutout sizes (width X height) and distance from floor to bottom of lower cutout. Use of template page for TMOC is recommended.
- To allow for a standard size drawer box at the bottom, the cutout must start at least 14" off of floor. A 3" rail will separate the cutouts unless otherwise specified.
- The cutout width can be no more than 1 1/2" less than the overall cabinet width, this leaves a minimum of 3/4" for each frame stile (left and right). Example: 30" wide cabinets, the largest cutout width allowable is 28 1/2".
- 3" rail above and below cutout.
- Number of shelves in the upper section of Tall Oven Cabinets will vary according to the opening size. This opening is determined by the oven cutout and height off the floor specifications.
- Drawers will be equal height unless otherwise specified.
- Cutout back at oven opening only.
- Toe base shipped loose for cabinets over 84" tall.
- See template page for more details.
- Appliance openings in frames will not have a beaded perimeter when ordered on beaded inset cabinetry. Designer must specify in writing if the appliance opening is to have a bead.

NOTE: TMOC cabinet cannot have decorative ends except for a standard finish end or standard flush finish when using maximum width cutout for the specific cabinet's overall width.

Tall Warming Drawer Oven Cabinet

****Standard 3" wide rails above and below cutout, specify if another dimension is required**

NOTE: Appliance openings in frames will not have a beaded perimeter when ordered on beaded inset cabinetry. Designer must specify in writing if the appliance opening is to have a bead.

**For figuring reveals for install kits, doors and drawer fronts overlay the oven rail by the following standard amounts:

Hinge	Overlay
FFA	1 3/8"
FOL-C	1 1/4"
SOL-C/SOL-K	1/2"
SOL-K LIPPED	5/16" ***
Specify if another dimension is desired ***	

***SOL-K Lipped overlays cannot be modified

Provide the following dimensions:

A= _____ Overall cabinet width

B= _____ Overall cabinet height

C= _____ Height oven cutout to start from floor (see below for calculation of 'C')

D*= _____ Oven cutout width

E= _____ Oven cutout height

F*= _____ Warming drawer cutout width

G= _____ Warming drawer cutout height

*Cutout may be no wider than 1 1/2" less the overall cabinet width, see chart

Cabinet width	Max cutout width*
24"	22 1/2"
27"	25 1/2"
30"	28 1/2"
33"	31 1/2"
36"	34 1/2"

To calculate dimension 'C' add:

(toe space height)	4 1/2
(bottom frame rail)	+ 1 1/2
(warming drawer cutout height)	+ 'G'
(mid-rail above warming drawer cutout)	+ 3
total measurement for	'C'

TALL OVEN CABINET WITH WARMING DRAWER

- 24" deep standard
- Specify both cutout sizes (width X height) and distance from floor to bottom of lower cutout. Use of template page for TWDOC is recommended.
- Standard placement is 6" off of floor. A 3" rail will separate the cutouts unless otherwise specified.
- The cutout width can be no more than 1 1/2" less than the overall cabinet width, this leaves a minimum of 3/4" for each frame stile (left and right). Example: 30" wide cabinets, the largest cutout width allowable is 28 1/2".
- 3" rail above and below oven cutout.
- Number of shelves in the upper section of Tall Oven Cabinets will vary according to the opening size. This opening is determined by the oven cutout and height off the floor specifications.
- Cutout back at oven opening only.
- Toe base shipped loose for cabinets over 84" tall.
- See template page for more details.
- Appliance openings in frames will not have a beaded perimeter when ordered on beaded inset cabinetry. Designer must specify in writing if the appliance opening is to have a bead.

CLOSET ROD	ACR	
<ul style="list-style-type: none"> 1 1/2" thick natural maple closet rod, removable. If cabinet has the MWI modification, the closet rod accessory will match the specie and finish of the order. 		
METAL CLOSET ROD	AMR	
<ul style="list-style-type: none"> 1 1/16" diameter steel closet rod with chrome finish, removable. 		
TALL TRAY DIVIDER	ATTD	
<ul style="list-style-type: none"> 1/2" UV Birch veneer divider installed in upper section. Specify location and spacing of multiple dividers. Tray dividers will be equally spaced in the opening unless otherwise specified. Tray dividers are not removable. Adjustable shelves cannot be adjacent to tray dividers. A partition must be used if adjustable shelves are needed. 		
TALL PARTITION	ATP	
<ul style="list-style-type: none"> 3/4" UV Birch veneer plywood, located in lower opening. When specified for cabinets with shelves, shelves are installed on both sides. Use when adding an accessory on one side of cabinet, shelves are installed on opposite side. <p>Partition will be centered unless otherwise specified. When not centered, the dimension specified will be the opening measured within the frame, starting from the left.</p> <ul style="list-style-type: none"> Specify location of partition and side of accessory installation if desired. 		

TALL ACCESSORIES

	PRODUCT CODE	LIST
TALL SHELF ON DOOR	ATSD	563
<ul style="list-style-type: none"> Wood shelf rack with adjustable shelves mounted on cabinet door of tall opening section. Priced per door. 		
FLIPPER (POCKET) DOOR GLIDES	AFDG	659
Installed mechanism for stowing door inside cabinet as in entertainment cabinets. Mini- mum cabinet depth is 13 1/2" to allow for hardware.	ALFDG	1193
Flipper door glides are not available with the Bella door design or applied molding doors in which the molding pro- trudes beyond the face of the door such as Verona.		
<ul style="list-style-type: none"> Add to cabinet price; priced per each set of butt doors. Adding flipper doors to a cabinet will cancel all adjustable shelves in that section. When needing adjustable shelves, a loose shelf accessory will need to be added to cabinet price for each adjustable shelf. When needing finished interior, the matching wood interior modification will need to be added to cabinet price. When adding flipper doors to cabinet, interior opening width will be 8" less than the overall cabinet width if FOL-C. If SOL or Inset, the interior opening width will be 9 1/4" less than the overall cabinet width. Example: 30" wide, FOL-C cabinet will have an interior opening size of 22" wide. Doors over 24" up to 26" wide and/or over 42" up to 72" tall require large flipper door glides (ALFDG). Doors cannot exceed 72" tall. 		
HANGING FILE RAILS	AHANGINGFILE	156/ pair of rails
<ul style="list-style-type: none"> One pair hanging file rails installed in drawer. Front to back rails illustrated. Standard guidelines for file rail direction: Cabinets with a <u>frame opening</u> of less than 15" wide will have file rails that run side to side. Cabinets with a 15" wide <u>frame opening</u> or greater will have file rails that run front to back. Specify direction of file rails only if different from standard. (15" wide cabinets cannot accept front to back file rails.)		
Cannot fit most standard cabinet configurations (10" deep box and 12" high frame open- ing needed to accommodate file tabs, MFC will be needed on cabinet to make this change.)

6" HIGH (UP TO 42" WIDE)	ADUAROS2506	

Adjustable natural maple rollout shelves with Blumotion full extension, undermount drawer glides on wood pilasters. If the rollout and its components need to have the specie and finish match the interior of a cabinet that has a MWI modification, a quote must be submitted prior to the order being placed for correct pricing and material availability. If Walnut rollout shelves are desired, a quote must be submitted prior to the order being placed for correct pricing.

- Price per rollout shelf
- 100# weight capacity
- Routed handpull centered in top edge of box front.
- Dovetail construction
- Fixed center frame stile is omitted when adding a full width rollout to a cabinet 39" wide and over or a sink base.
- Not recommended for cabinets less than 15" wide. Not available for cabinets less than 12" wide or 12" deep.

****Note:** when using combination of rollouts and adjustable shelves in the same opening, rollouts will always be located at bottom of section unless otherwise specified.

See below for additional guidelines.

Rollout Installation Guidelines

We have classified the addition of rollouts into two different categories based on usage. First, adding rollouts to wall cabinets or an upper portion of any cabinet, will be based on the same set of rules. (Upper portion is defined as any section of any cabinet which also has a lower opening.) Then, the addition of rollouts to base cabinets and the lower portion of tall cabinets will be based on another set of rules.

- Rollouts in wall units and upper portions of tall/base units. (Sink base cabinets will follow this same set of rules.)
 - When adding **a single rollout**, the rollout will be permanently mounted to the floor in that section, utilizing our Blumotion full extension under-mount glides.
 - Also, when adding **a single rollout**, the quantity of adjustable shelves in that section will remain the same.
 - When adding **more than one rollout** to a section all adjustable shelves will be deleted. When adding adjustable shelves back into the opening, each shelf will be notched to accept the ladders which are installed for the rollouts.
 - Also, when adding **more than one rollout** to a section our standard rollout ladder configuration will be utilized by installing the ladders full height in the interior of that section. (Full height is full usable height determined by Brighton.)
- Rollouts in lower openings of base/tall units. (Except sink base cabinets.)
 - When adding **a single rollout** or **more than one rollout**, our standard rollout ladder configuration will be utilized by installing the ladders in the complete interior height of that section.
 - Also when adding **a single rollout** or **more than one rollout**, all adjustable shelves will be deleted. When adding adjustable shelves back into the opening, each shelf will be notched to accept the ladders which are installed for the rollouts.
 - When adding **a single rollout only** in an opening **and** requesting that it be flush mount (not adjustable), the quantity of adjustable shelves in that section will remain the same.

These rules have been adopted as a standard practice for Brighton Cabinetry, Inc. Any deviation from this process must be in writing in the notes section of the order. All cabinets in our catalog with rollouts included will also follow the guidelines listed above.

NOTES

TOE KICK DRAWER - 24" DEEP

ATKD1824

- Add to 24" deep cabinets.
- Operational, 2" high drawer box added into toe kick space.
- 3/4" thick solid wood face frame at bottom and sides.
- Toe notch for side of cabinet remains the same height and depth as standard after the 1/4" AMTK has been applied to adjacent cabinets.
- Actual front to back depth of drawer box is 18" for 24" deep unit.
- Drawer fronts are slab, 5 pc. not available.
- Minimum overall cabinet depth is 18" due to limited access to the drawer box under the cabinet.
- Illustration depicts B3D cabinet with ATKD accessory installed.

EXTENDED RAIL AND STILE ILLUSTRATIONS

* Tall cabinet top rail modifications will function like wall cabinets.

* Tall cabinet bottom rail modifications will function like base cabinets.

TALL MODIFICATIONS

	PRODUCT CODE	SPECIFY	LIST
TALL EXTENDED STILE OUT... UP TO 3" (see previous page for illustrations) Stile extends outward from cabinet, increasing overall frame width by the amount specified for the extension. Overlay filler strips are available for full-overlay flush look. (See tall cabinet accessories)	MTESO3	L / R	
TALL EXTENDED STILE OUT...UP TO 6" (see previous page for illustrations) Stile extends outward from cabinet, increasing overall frame width by the amount specified for the extension. Overlay filler strips are available for full-overlay flush look. (See tall cabinet accessories)	MTESO6	L / R	
TALL EXTENDED STILE IN...UP TO 3" (see previous page for illustrations) Stile extends inward, overall frame width does not change. Overlay filler strips are available for full-overlay flush look. (See tall cabinet accessories)	MTESI3	L / R	
TALL EXTENDED STILE IN...UP TO 6" (see previous page for illustrations) Stile extends inward, overall frame width does not change. Overlay filler strips are available for full-overlay flush look. (See tall cabinet accessories)	MTESI6	L / R	
TALL EXTENDED STILE DOWN Extends stile (specify left or right) down into the toe kick space to meet the floor.	MTESD	L / R	
EXTEND TOP OR BOTTOM RAIL UP (see previous page for illustrations) Add to cabinet price. Indicate overall dimension.	METRU MEBRU		
EXTEND TOP RAIL DOWN (see previous page for illustrations) Add to cabinet price. Indicate overall dimension.	METRD		
VALANCE TOP RAIL Extends a standard 1 1/2" wide top rail down for an overall rail width of 5". Price for cabinets up to 42" wide. Specify shape: Classic Arch, Elegant Arch, Straight, Arched, Furniture, Shaker style A or Shaker style C. Provide a sketch or template for custom pattern, requires quote.	MVTR		
VALANCE BOTTOM RAIL Price for cabinets up to 42" wide. Specify shape: Classic Arch, Elegant Arch, Arched, Furniture, Shaker style A or Shaker style C. Use MFTK, flush toe kick modification, when the Straight valance design is wanted. Provide a sketch or template for custom pattern, typically requires a quote. Base and tall cabinets with this bottom rail modification will still have the subtoe behind the valance bottom rail. The subtoe ships finished and will <u>not</u> require a separate AMTK.	MVBR		
TALL EXTEND SIDE BACK Specify the length of the extension beyond the standard depth. 48" overall maximum depth. Back edge is finished as standard when side of cabinet has any type of finished-end modification. Otherwise, specify on order for finished edge, if needed, when cabinet does not have a finished-end modification and add appropriate edge banding (EB) charges.	MTESB	L / R	
TALL RECESSED SIDE Normally used when a recess allowance is needed for a field applied panel. The cabinet face frame and door reveals will not change with this modification. Most standard cabinets already have 1/4" recess behind the face frame, specify <u>TOTAL</u> amount needed. Maximum overall recess allowed = 7/8".	MTRS	L/R	

TALL MODIFICATIONS

	PRODUCT CODE	LIST
TALL FRAME CHANGE	MFC	
Includes one or all changes made to frame. (excluding extended stiles and rails) Specify changes and dimensions; provide sketch		
INCREASE CASE DIMENSION MODIFICATION	MICDIM	
Used to increase height, and/or width, and/or depth above the largest standard sizes. Cabinet may be increased up to 6" larger for any or all dimensions. Dimension increases beyond 6" require a quote. Some restrictions apply due to material availability. Any cabinet increased in width to 39" or above will have a fixed center stile as standard. Drawer boxes and rollouts will increase with the cabinet depth up to 27" deep cabinets. Anything increasing over 27" in depth must be verified with Customer Service for availability before ordering. Wall cabinets and sink cabinets can be increased in <u>depth only</u> up to a maximum of 3" beyond the standard cabinet depth for no up charge at all.		
COMBINE CABINET CHARGE	COMBINE	
Used to combine two or more cabinets. One charge per combination of two cabinets.		
TALL FRONT ONLY	MTFRO	
Subtract from base price of cabinet. Doors are hinged and working. Specify if fixed doors are required. Floor not included. Unless specified, front will be shipped without sub-toe kick. Overall frame height will be 4 1/2" less product height ordered unless MFTK (flush toe) is added. Example: TUC1884R (std. 84" high overall) + MTFRO ordered, shipped frame height = 79 1/2".		
OMIT DOORS	MOD	
Interior remains standard finish unless matching wood interior modification is used.		
ADD CENTER STILE	MACST	
To add a vertical center stile to any cabinet. Standard 1 1/2" wide stile, specify width of stile if different dimension is desired.		
ADD CENTER RAIL	MACRT	
To add a horizontal center rail and fixed floor to any cabinet. Standard 1 1/2" wide rail, specify width of rail if different dimension is desired. Include specific information for placement of rail, provide drawing if possible. Charge includes cost for dividing doors into separate uppers and lowers.		
APPLIED MOLDING CHARGE	MAMC	
Charge to apply molding, ornaments, and appliqué to cabinets.		

TALL MODIFICATIONS

PRODUCT CODE	LIST
-----------------	------

MATCHING WOOD INTERIOR

MMWI	
------	--

Wood specie and finish match frame and doors.

Price % of list price.

When selecting matching wood interior on cabinets with more than one section (ie, tall cabinets or combined cabinets) the entire interior of all sections will be matching wood interior as standard. The grain on interior backs may be horizontal on cabinets larger than 48" wide.

ALTERNATE COLOR FINISHED INTERIOR

Same Specie/Different Finish Interior MACFI-SD

Different Specie/Different Finish Interior MACFI-DD

This modification is used in place of MMWI when finished interior of cabinet is to be an alternate color from exterior of cabinet. When the alternate interior is also a different specie choose "DD" modification.

Price % of list price.

When selecting one of these modifications on cabinets with more than one section (ie, tall cabinets or combined cabinets) the entire interior of all sections will be finished wood interior. The grain on interior backs may be horizontal on cabinets larger than 48" wide.

When a cabinet comes with a finished interior already, example: bookcase cabinets, the same percentage upcharge as shown here will be applied.

TALL MODIFICATIONS

PRODUCT CODE	SPECIFY	LIST
-----------------	---------	------

Furniture Ends– *Locking Miter Joint*

- True flush ends with no seams, making crown, base, and light rail moldings easier to attach, no scribe molding needed.
- Not available on diagonal corner cabinets, angled cabinets, or clipped corners.
- Not available with FFA overlay option or when cabinet frame stiles are less than 1 3/8" wide.

Tall Furniture Finished End (Left, Right, or Both ends)	MTFURNFE	L/R	\$/SQFT
--	----------	-----	---------

Tall Furniture False Door Ends (Left, Right, or Both ends)	MTFURNFD	L/R	\$/SQFT
---	----------	-----	---------

Tall Furniture Wainscot End (Left, Right, Both ends)	MTFURNWP	L/R	\$/SQFT
---	----------	-----	---------

- Not available with any miter doors. Also not available with Aspen, Bella, Churchill, Madrid, Plainfield, Plainfield MDF, Sardinia, Valletta, or Verona door designs.

TALL MODIFICATIONS

	PRODUCT CODE	SPECIFY	LIST
TALL FINISHED END	MTFE	L / R	/
Side of cabinet matches specie and stain of front frame and doors. Side retains 1/4" scribe reveal same as unfinished side. Finished end option is not available for Red Birch, QSWO, RCWO, Walnut, Weathered Grain QSWO. Another option must be chosen for exposed ends. If a cabinet is submitted with the finished option selected for these species, the cabinet will be provided with a flush finished end and will be charged accordingly. NOTE: When installing shallower cabinets against the side of a tall cabinet, it is recommended to use a flush finished end modification to correctly align cabinets.			SQ FT
TALL FLUSH FINISHED END	MTFFE	L / R	/
A 1/4" panel is applied creating a flush end. Side of cabinet matches specie and stain of front frame and doors.			SQ FT
FINISHED BACKS 1/2"	MFBAH		/
Back thickness does not affect overall depth of cabinet. Vertical grain is standard.			SQ FT
TALL FALSE DOOR ON END	MTFDE	L / R	/
Includes flush finished end.			SQ FT
TALL WAINSCOT END PANEL	MTWEP	L / R	/
A 3/4" panel constructed from same material as cabinet doors, applied flush with cabinet end. Center panel will be divided to best align with doors on face of cabinet. Bottom rail will be wider for toe space unless cabinet ships with a side toe or loose toe. Top rail is wider to allow for molding installation. Not available for mitered door styles.			SQ FT
TALL BEAD BOARD END	MTBDE	L / R	/
1/2" solid wood, tongue and groove bead board, factory installed on cabinet side.			SQ FT
BEAD BOARD INTERIOR BACK	MBDIB		/
1/2" solid wood, tongue and groove bead board installed in the back of cabinet.			SQ FT
TALL GROOVED PANEL LEFT / RIGHT	MTGP	L / R	/
1/4" veneered panel with MDF core applied, creating a flush end. 1/8" wide, vertical 'V' grooves, spaced 1 1/2" apart. Other designs to match grooved doors are available upon request. Matches specie and stain of front frame and doors. Not available for any finish with wear sanding. Not available in Rustic Alder or Rustic Hickory: standard grade wood will be substituted.			SQ FT
TALL GROOVED PANEL INTERIOR BACK	MTGPIB		/
1/4" veneered panel with MDF core installed in the back of the cabinet. 1/8" wide, vertical 'V' grooves, spaced 1 1/2" apart. Other designs to match grooved doors available upon request. Matches specie and stain of front frame and doors. Use with MWI modification to finish the remainder of cabinet interior. Not available for any finish with wear sanding. Not available in Rustic Alder or Rustic Hickory: standard grade wood will be substituted.			SQ FT
TALL GROOVED PANEL BACK (1/2")	MTGPBAH		/
1/2" veneered panel with MDF core applied to the case back. 1/8" wide, vertical 'V' grooves, spaced 1 1/2" apart. Other designs to match grooved doors are available upon request. Matches specie and stain of front frame and doors. Back thickness does not affect overall depth of cabinet. Not available for any finish with wear sanding. Not available in Rustic Alder or Rustic Hickory: standard grade wood will be substituted.			SQ FT
TALL FLUSH FINISHED TOP	MPFFT		/
1/4" flush panel matches specie and finish of cabinet. To cover exposed side edges of flush finished top, flush finished ends must be ordered.			SQ FT

TALL MODIFICATIONS

	PRODUCT CODE	SPECIFY	LIST
TALL SIDE ANGLED	MTSA	L / R	+%
Side is angled, front frame is parallel to back. Include a top view sketch with dimensions of side and front. Specify a degree of angle. Use widest dimension of finished cabinet as initial starting price then add modification charge.			
TALL ANGLED SIDE ENTRY	MTAE	L / R	+%
This modification is like tall side angled but with frame and working door. Include a top view sketch with dimensions of side and front. Specify degree of angle and hinging. Use widest dimension of finished cabinet as initial starting price then add modification charge.			
TALL ANGLED FRONT	MTAF	L / R	+%
Front is angled, sides remain perpendicular to back. Include a top view sketch with dimensions of sides and front. Specify overall cabinet size. Indicate depth of right and left sides. Minimum depth is 4" for adjustable shelves. Use widest dimension of finished cabinet as initial starting price then add modification charge.			
TALL END ENTRY	MTEE	L / R	
Specify door hinging. Add modification charge to initial starting price of cabinet.			
DOUBLE ENTRY	MDE		+ %
Add modification charge to initial starting price of cabinet. Specify hinging on rear if different from front entry.			
FLUSH TOE KICK	MFTK		
Per cabinet front Note: When adding this to base or tall cabinets and also requesting that the flush toe is cut into a valance shape, there will be a subtoe behind the valance bottom rail. The subtoe piece ships finished and does <u>not</u> require a separate AMTK.			
LOOSE TOE KICK	MLSTK		0
Shipped loose. Overall shipped cabinet height is reduced 4 1/2".			
OMIT TOE KICK	NOTK		0
Removes the toe kick area from the cabinet. Overall shipped cabinet height is reduced 4 1/2".			
INTEGRATED TOE KICK	MINTTK		0
Toe kick area of tall cabinet is integrated into the case construction. Used on cabinets over 84" tall that ship standard with a loose toe base. Note: Adding this modification could interfere with installation of the cabinet. Allow for proper ceiling clearance.			
SIDE TOE KICK	MLTK	(Left)	
	MRTK	(Right)	
	MLRTK	(Left/Right)	
Add to cabinet price Specify left, or right, or left and right			
BACK TOE KICK	MBTK	(Back)	
	MBLTK	(Back/Left)	
	MBRTK	(Back/Right)	
	MBLRTK	(Back/Left/Right)	
Add to cabinet price Specify back or combination of back and side(s)			

TALL MODIFICATIONS

	PRODUCT CODE	SPECIFY	LIST
UNIVERSAL ACCESS TOE KICK SPACE Modifies the cabinet's toe kick to 9" high x 6" deep as recommended by the Americans with Disabilities Act 2010 standards. Specify if other dimensions are needed. Note: Using this modification can affect other aspects of the cabinetry and may cause some configurations to no longer be available. Examples of this include, but are not limited to, a B4D and a BM2DF.	MUATOE		0
			
TALL DUCT CUTOUT Include a top view sketch with cutout dimensions and location.	MTDCO		
TALL CLIPPED CORNER Stile is angled at 45 degrees. This modification does not increase the width or depth of the cabinet. The face frame is decreased by 3" per clipped corner.	MTCC	L / R	Per side
TALL FLUTING Three flutes are standard, based on 3" filler Routed on filler or stile up to 6" wide. Specify the number of flutes. (1 flute per inch is recommended). Standard is 3/8" flute with 3/8" space between flutes. Limits will normally align with adjacent cabinets. Minimum filler width is 1 1/2". Provide sketch on special fluting requirements.	MTFLUTE		
ROSETTE DESIGN Routed into filler, usually accompanies fluting. Style A (2 1/4") is for 3" filler or overlay filler (2 3/4") with machine or L149 edge. Minimum overlay filler width will be 3 1/8" for all other edge profiles. Style B (3 1/8") is for 6" filler.	MROSETTE		
			
U-SHAPE DRAWER BOX MODIFICATION Modifies an existing drawer box to have a cutout centered, side to side, allowing space for pipe work. <u>Drawer box</u> width must be at least 12" (12 3/8" frame opening). Must specify dimensions 'A' and 'B' as shown on the template. 'C' can be no less than 3".	MUDRBOX		per drawer
			

TALL MODIFICATIONS

	PRODUCT CODE	SPECIFY	LIST
TALL ADDITIONAL DRAWER, STANDARD	MTADS		SOL/INSET FOLC
Use this modification to add a drawer that would require a frame opening of 6" H or less. Blumotion glides standard: other glide styles will be substituted when the frame opening for the drawer boxes are under 6" wide or cabinet is less than 12" deep. This price includes drawer box, hardware, drawer front, and frame change.		SLAB 1INSLAB 5-PIECE	
TALL ADDITIONAL DRAWER, DEEP	MTADD		SOL/INSET FOLC
Use this modification to add a drawer that would require a frame opening greater than 6" high. Blumotion glides standard: other glide styles will be substituted when the frame opening for the drawer boxes are under 6" wide or cabinet is less than 12" deep. This price includes drawer box, hardware, drawer front and frame change.		SLAB 1INSLAB 5-PIECE	
5-PIECE DRAWER HEAD UPGRADE	5-P(RAIS) -FOL/FFA 5-P(FLAT) -FOL/FFA		
Drawer head made in a 5-piece configuration. The top and bottom rails of the drawer head are cut down for most designs.	5-P(RAIS) -SOL/INSET 5-P(FLAT) -SOL/INSET		
1" THICK, SLAB DRAWER FRONT UPGRADE	1-INSLAB-FOL		
Price per drawer head. Not available to match all designs. Not recommended with slab doors or designs with flat center panels. See Introduction for more information.	1-INSLAB-SOL/INSET		
SCOOPED DRAWER SIDES	MSDS		
Standard scoop is 2" down from top edge and begins 1-1/4" back from front edge unless otherwise specified. Minimum drawer box height is 4".			
HEAVY DUTY DRAWER BOX UPGRADE	MHDBOX		
Upgrades a drawer box with heavy duty BLUM glides with a 125lb static weight limit. Upgrade includes 1/2" thick drawer box bottom. Modification price is per each drawer box or rollout shelf.			
OMIT OPERATING DRAWER BOX	MOODB		
Omits the operating drawer box and hardware from a standard cabinet. The drawer front will be attached to the cabinet as a false front. If the cabinet has more than one drawer top-to-bottom, this modification will remove the top drawer box unless otherwise specified. If the cabinet has multiple drawers side-to-side, you must specifically note on the order which box is to be removed, such as 'omit left drawer box'.			per drawer
FLIP UP DOOR STAY	MFUDS		/ CAB (2 doors max.)
Supports a door hinged to the top of a cabinet opening Priced per cabinet (2 doors maximum) Minimum frame opening 7" high, minimum cabinet interior depth of 5" Maximum door height is 24"			
FLIP DOWN DOOR STAY	MFDDS		/ CAB (2 doors max.)
Supports a door hinged to the bottom of a cabinet opening Priced per piece (2 doors maximum) Minimum frame opening 7" high, minimum cabinet interior depth of 5" Maximum door height is 24"			
90 DEGREE HINGING (concealed hinge only)	MT90DEG-L		
Hinge with restricted swing of just less than 90 degrees Available for <u>concealed</u> hinges only. Priced per cabinet side Specify side: L or R	MT90DEG-R

- Both drawers are 10" high and accommodate hanging files with low profile tabs. Cabinet has a non-typical frame configuration to allow space for the file drawers.
- 130# undermount full extension glides are standard on all file drawers.
- Height cannot be reduced.
- All top to bottom drawer front reveals will be 1/4", side reveals will be same as ordered.
- All cabinets will accept letter size files. Specify when wanting to use for legal files. (BM2DF1521, BM2DF1821 will not accept legal files.)

Standard guidelines for file rail direction:

Cabinets with a frame opening of less than 15" wide will have file rails that run side to side. Cabinets with a 15" wide frame opening or greater will have file rails that run front to back. Specify direction of file rails only if different from standard. (15" wide cabinets cannot accept front to back file rails.)

BASE MINI THREE DRAWER w/ FILE, 29" HIGH

NOTE FOR TOP TWO DRAWERS:
5 piece drawer fronts available in
full overlay only, not available to
match Hanover door style.

- Not available for Inset.
- Height cannot be reduced.
- Two 3" high pencil drawers at top.
- Two equal height, top drawer fronts
- Bottom drawer has a hanging file system that best accommodates files with low profile tabs.
- File drawer will accept letter size files. Specify when wanting to use for legal files. (BM3DF1221, BM3DF1521, BM3DF1821 will not accept legal files.)
- 12" and 15" wide cabinets will have file system side to side. 18" wide or wider cabinets will accept file system front to back.
- 130# undermount full extension glides are standard on all file drawers.

Standard guidelines for file rail direction:

Cabinets with a frame opening of less than 15" wide will have file rails that run side to side. Cabinets with a 15" wide frame opening or greater will have file rails that run front to back. Specify direction of file rails only if different from standard. (12" and 15" wide cabinets cannot accept front to back file rails.)

PLANNING DESK MINI

- Standard height is 4 5/8" overall (1 1/4" top rail, no bottom rail).
- Specify height if aligning with other cabinets. (Add increase height modification from base section.)
- 2" high drawer box.
- Cannot be reduced in height.
- Slab drawer fronts are the only drawer fronts available.

NOTES

BOOKCASES

All bookcases are 13" deep, with finished interiors as standard unless specifically noted. They are made from plywood veneers with solid wood face frames made of the same species. Bookcases are standard with a straight, 5" top frame rail (6" for Inset orders) or valance top rails can be added at no additional charge for most designs. See Wall section for valance types or send drawing for custom valance. Bookcase shelves will all be made of 3/4" plywood with 1 1/2" frame stock attached to the front edge of the shelf. The frame stock will be flush with the top edge of the adjustable shelves. The entire shelf will then be behind the face frame of the cabinet. Desired finished end options must be selected when needed as all ends are built unfinished as standard.

Wall bookcases from 30" to 48" tall are wall cabinets that have had their doors removed and interiors finished with valance top rail.

Countertop bookcases are designed to rest on the countertop when installed. They do not have a bottom face frame rail or a floor. They are built with a shipping brace across the lower, front edge that is to be removed before installation.

Base bookcases are really no more than wall bookcases with flush toe kicks added.

Tall bookcases are built with a face frame rail installed at 34 1/2" above the floor. Standard full height base doors can be fitted to this opening. Additionally they are made with a flush toe bottom frame rail. All tall bookcases over 84" high come with a full height frame (including the flush toe) that must be tipped up from the back to stand in the room. They also ship with the sub-toe platform unattached. The sub-toe must be slid into position when the cabinet is in its installation spot. Finished ends must also be considered when ordering bookcases over 84" tall. The sub-toe sides are not finished at the factory. A finished covering must be applied in the field to the sides of the toe area when it will be exposed. The sub-toe can be integrated at the factory by request for no additional charge using the MINTTK modification. Contact Customer Service for other possible options.

See Wall, Tall, or Base sections for modifications and applicable pricing.

When ordering bookcases, please specify top rail valance type; straight valance is standard.

BASE BOOKCASE UNIT

- 13" deep, 34 1/2" high standard
- Two 3/4" adjustable shelves with 1 1/2" frame stock front edge
- Straight valance top rail, specify if other valance design is desired (no upcharge).
- Bottom rail with flush toe is 6" wide.

VERTICAL STACK BOOKCASE UNITS, 13" DEEP

WBU12VS3048 shown

- 13" deep, standard
- Wall cabinet with the look of two cabinets that have been stacked one on top of the other.
- Two frame openings, one top and one bottom with a center frame rail and fixed center floor dividing the two sections.
- Offered with top doors only equal to 12", 15", 18" or 21" high cabinets. Upper door heights will align with cabinet height that is equal to the first set of numbers listed in the nomenclature. See page W12 in the Wall Section for more details.
- Lower section is open (no doors) with matching wood interior throughout the entire cabinet as standard.
- Lower openings tall enough for shelves will have 3/4" adjustable shelves with 1 1/2" frame stock front edge.
- "Single door" indicates one door across width for each opening. "Two doors" indicates 2 butt-doors for each opening. Butt-door version pictured.
- Specify L or R for hinge side when applicable.
- Any height change will modify the cabinet in the lower section. The upper frame opening height will not change unless specified on the order and will require a frame change charge (MFC).
- FOL-C overlay cabinet has a 3" face frame mid-rail. All other overlays have a 1 1/2" face frame mid-rail.
- Cabinets 39" wide or greater will have a fixed center stile in both sections as standard.
- Add MOBRF, omit bottom rail and floor modification, for a vertical stacked CTBU look.

- The door / drawer split can be modified without an upcharge if specified on the order.

NOTES

MEDICINE CABINETS

The case dimensions of medicine cabinets are determined by the distance between wall studs set on 16" centers. The outside width of the case of a 16" medicine cabinet is 14 1/2" and the depth of the case behind the frame is approximately 3 1/2". 24", 36", and 42" medicine cabinets will have to be boxed in when recessed in the wall. Both sides, the top, and the bottom are finished so the cabinets can be either recessed in the wall or flush mounted. All medicine cabinets with standard width cabinet framing are 29" tall, while those with extended top rails are 32" tall.

SINGLE DOOR MEDICINE CABINETS

- 29" high, 4 1/4" deep
- finished exterior
- three 3/4" adjustable shelves
- framed mirror door

PRODUCT CODE	LEVEL 1	LEVEL 2
SDMC1629		
SDMC2429		

NOTE: If the mirror will be viewed from approximately 5 feet away or more, it is recommended that thicker glass is used because 1/8" thick glass can distort the reflected image. To achieve this when adding mirror into a door you must include the Beveled Edge Option in conjunction with the Mirror option.

WITH EXTENDED TOP RAIL

- 32" high, 4 1/4" deep
- finished exterior
- three 3/4" adjustable shelves
- framed mirror door
- 5" top rail to accept customer supplied lighting. Includes separate compartment for wiring behind top rail.

with extended top

SDMET1632

SDMET2432

RECESSED CENTER MIRROR MEDICINE CABINETS

Recessed center mirror medicine cabinets are constructed with both right and left medicine compartments that are hinged to the inside for a tri-view effect when opened. The center section is a fully recessed mirror that is surrounded with wood trim. Both the right and left compartment doors are framed doors with mirrors in place of center panels. The 48" wide cabinet has a 22" center mirror and the 42" wide cabinet has a 16" center mirror.

- 29" high, 4 1/4" deep
- finished exterior and interior
- three 3/4" adjustable shelves in left and right sections
- framed mirror doors on left and right sides

SQUARE FRAME WITH MIRROR

SFM	/ sqft	/ sqft

- 3/4" thick, open framed door with 1/8" mirror and 1/4" flush backer panel.
- Priced per square foot.
- Beveled mirror will require the BVLDEGE upcharge.
- The mirror framing will match the door design on the order unless otherwise specified. Shaker door style illustrated. Inset orders will not include an outer frame (like a cabinet frame) surrounding the door.
- Maximum size of 48" wide x 36" tall OR 36" wide x 48" tall. SFM ordered over these dimensions will be made using mirror molding (AMM) and will not ship with a mirror included. AMM may not match exactly to the door design ordered.
- Two sets of ZCLIP hardware included loose for field install. (see picture) The ZCLIP will hold the SFM approximately 1/4" off the wall. Factory does not install the Z clips to the mirror frame.

NOTE: If the mirror will be viewed from approximately 5 feet away or more, it is recommended that thicker glass is used because 1/8" thick glass can distort the reflected image. To achieve this when adding mirror into a door you must include the Beveled Edge Option in conjunction with the Mirror option.

VANITY ACCESSORIES

	PRODUCT CODE	LIST PRICE
TOE KICK DRAWER - 21" DEEP		
<ul style="list-style-type: none"> • Add to 21" deep cabinets. • Operational, 2" high drawer box added into toe kick space. • 3/4" thick solid wood face frame at bottom and sides. • Toe notch for side of cabinet remains the same height and depth as standard after the 1/4" AMTK has been applied to adjacent cabinets. • Actual front to back depth of drawer box is 15" for 21" deep unit. • Drawer fronts are slab; 5 pc. not available. • Minimum overall cabinet depth is 18" due to limited access to the drawer box under the cabinet. • Illustration depicts B3D cabinet with ATKD accessory installed. TAPER FEET FURNITURE PLATFORM

- 6 3/4" overall height. (The platform is 2 1/4" taller than the standard toe space. To align with adjacent cabinets, the base cabinet used in conjunction with the platform will need the height reduced by 2 1/4". This cabinet height adjustment will not be made by Brighton unless specified on the order.)
- The sizes shown are to match the corresponding cabinet sizes.
- If FOL and SOL, the platform will have a finished size of 1 1/2" deeper and 1 1/2" wider than listed. (Example: TAFP2421 will have overall dimensions of 25 1/2" wide by 22 1/2" deep.) If Inset, the platform will have a finished size of 3/4" deeper and 1 1/2" wider than listed. (Example: TAFP2421 will have overall dimensions of 25 1/2" wide by 21 3/4" deep.)
- Designed to be used with a base cabinet having NOTK (omit toe kick modification) applied.
- 3/4" plywood top with 3" wide solid wood edge on front and both sides. Machine edge profile as standard.
- 2" straight valances between the feet on front and both sides.

	Concealed inset, 90 degree*	CONCINSET90	
86° ANGLE RESTRICTION CLIP (loose)			
• Restricts door opening to 86 degrees.		A86ARC-OL	overlay-concealed hinge
• Priced per clip. (One clip per hinge.)			
• Only for concealed hinges with the integrated soft close feature: full-overlay (FOL-C), semi-overlay (SOL-C), inset concealed (INS-CONC)		A86ARC-INS	inset-concealed hinge
DOOR STAY, LOOSE			
		ADSTAY-LOOSE	
Supports a door hinged to the top of a cabinet			
Priced per piece for 1 side of door. Doors 24" wide and greater require 2 stays			
Minimum frame opening 7" high			
Minimum cabinet interior depth of 5" (typical cabinet overall depth 6 1/2" minimum)			
Maximum door height is 24"			
Shipped loose for field install			
SPICE RACK			
Wood rack with fixed shelves, mounted on cabinet door		ASROD	
Approximately 2" less than door size			
			

DRAWER PLATE ORGANIZER

Maple pegboard used to store plates, bowls, etc. in deep drawers.

Priced per drawer.

Includes adjustable posts. See chart for quantity shipped with specific cabinet widths.

ADPLO

Cabinet Width	# posts
27" wide and under	9
Larger than 27" thru 33" wide	12
Larger than 33" thru 42" wide	16

HAMPER BASKET ROLLOUTS

Add to cabinet price

Pullout attaches to door

1.3 bushel, white plastic hamper basket

Blum full-extension, undermount glides

Fits 15" or 18" wide frame opening

Cabinet depth can be no less than 21"

Frame opening height can be no less than 21"

AROHB

UTILITY BIN PULLOUT

Available in 15" thru 21" wide cabinets only

10" deep box with scooped sides

1/2" bottom

Blumotion undermount glides

Not mounted to cabinet door / does not pull out with door

AUB

KNIFE BLOCK

Block made of maple and will fit in top drawer of B15 and smaller.

Or if the cabinet has two side-by-side top drawers, fits a single drawer of a 30" wide cabinet or smaller.

AKB

Close-up
view with
knives

HANGING FILE RAILS

AHANGINGFILE

One pair hanging file rails installed in drawer. Front to back rails illustrated.

Standard guidelines for file rail direction:

Cabinets with a frame opening of less than 15" wide will have file rails that run side to side. Cabinets with a 15" wide frame opening or greater will have file rails that run front to back. Specify direction of file rails only if different from standard. (15" wide cabinets cannot accept front to back file rails.)

Cannot fit most standard cabinet configurations (10" deep box and 12" high frame opening needed to accommodate file tabs, MFC will be needed on cabinet to make this change.)

LOOSE ROLLOUT LADDERS

Sold as set of 4 pieces. Priced listed will be a set of 4 pieces at 1 foot high

TURNPOST DESIGNS

NOTE: Most of the sketches shown above depict a turned post from 3" to 4" wide. When the width of the post is reduced or enlarged, the appearance may slightly change. You may request a CAD drawing prior to placing your order to determine if the required dimensions result in a desirable appearance. For base applications it is recommended that the post be ordered at a taller height for exact field trimming.

WOOD TOP (PLYWOOD) † **Not FDA approved as food safe.* WTOP (PLYWOOD) /sq ft

- 3/4" plywood top with a 3/4" wide X 1 1/2" high, solid wood edge.
- Specify edge(s) to be finished and profile.
- Available profiles include C2, PRS2, L149, V2, L059, MACHINE, LC2, E2, 297, and Ogee. See the door edge profile pages in the Introduction for representations of the shapes.
- Top is figured per square foot: includes all finished edges specified and profile routed on top edge(s) specified. Routing for bottom edge is additional.
- Bottom, underside of wood top is not finished as standard. A quote must be requested in advance if finished bottom is required.
- Maximum size for 1 piece = 120". Due to material availability, some species may have smaller maximum sizes available. Any top ordered larger than maximum size available will be shipped in multiple pieces with hardware to combine in the field. Wood tops with brushed glaze finishes cannot be supplied in multiple pieces. **Additional charges for shipment of wood tops over 7' long may apply.**

WOOD TOP (SOLID) † **Not FDA approved as food safe.* WTOP (SOLID) /sq ft

- 3/4" solid wood top with a 3/4" wide X 1 1/2" high, solid wood edge.
- Specify edge(s) to be finished and profile.
- Available profiles include C2, PRS2, L149, V2, L059, MACHINE, LC2, E2, 297, and Ogee. See the door edge profile pages in the Introduction for representations of the shapes.
- Top is figured per square foot: includes all finished edges specified and profile routed on top edge(s) specified. Routing for bottom edge is additional.
- Bottom, underside of wood top is not finished as standard. A quote must be requested in advance if finished bottom is required.
- Maximum size for 1 piece = 120". Due to material availability, some species may have smaller maximum sizes available. Any top ordered larger than maximum size available will be shipped in multiple pieces with hardware to combine in the field. **Additional charges for shipment of wood tops over 7' long may apply.**

BUTCHER BLOCK TOPS † ABBCT QUOTE

- At your specified dimensions. **Additional charges for shipment of tops over 8' long may apply.**
- Only oiled butcher block surfaces should be used for food preparations.
- Made from Hard Rock Maple. Also available in Red Oak. Call for availability of other species.
- A bottle of Mystery Oil for retreating the cutting board will be included.

CUTTING BOARD LOOSE † ACB-LOOSE

- Butcher block cutting boards are 1 1/2" thick, 25" wide and 18" deep.
- Only oiled butcher block surfaces should be used for food preparations.
- Other dimensions are available, please send for a quote.
- These are not installed in cabinets.
- A bottle of Mystery Oil for retreating the cutting board will be included.

BOTTLE OF MYSTERY OIL 15oz. bottle ABMYOIL

For periodic re-oiling of cutting boards to preserve the beauty and durability of the natural wood surface.

OVAL GROMMET AGRMT

- Installed in wood top.
- Grommet measures 6 1/2" X 3"
- Specify exact location (Include sketch)
- Available in Black or White.

	PRODUCT CODE	LIST PRICE
UNFINISHED EXTERIOR	UNFIN	
PRIMED EXTERIOR	PRIMED	
<ul style="list-style-type: none"> • Interiors are UV Birch veneer. • Surfaces to be finished will be primed for paint unless otherwise specified as Unfinished. • Modifications for Finished ends, Flush finished ends, and Matching Wood interior must still be applied. • Immediately before painting, all surfaces must be sanded in the field to insure adhesion. • Finish is to be applied by someone that is qualified • Brighton Cabinetry assumes no responsibility for damages or poor color match when finish is applied outside the factory setting. • We recommend doors be finished in their non-expanded state as soon after delivery as possible. Refer to Effects of Temperature and Humidity in the catalog Introduction. <p>NOTE: Testing for compatibility and adhesion between Brighton's primers and customer's finish materials should take place on a test door or other piece prior to finishing of any project. Brighton assumes no responsibility for incorrect application of finish materials by the customer that may result in poor adhesion, color mismatch, or other finish related issues. Brighton will not warrant products due to incompatibility issues between our primers and non-Brighton finish materials.</p>		
TOUCH UP KIT	ATUK	
<ul style="list-style-type: none"> • Contains one putty stick and one felt tip marker for minor touch-up. Glaze may also be included when applicable. The touch up components will be as close in color as possible but may not be an exact color match. 		
QUART OF PAINT	QTPAINT	
QUART OF STAIN	QTSTAIN	
<ul style="list-style-type: none"> • Finishing materials to match the order. The materials provided are the same as those used in the factory setting and require the use of HVLP spray gun technology for application. • Clear top coat is not supplied with finish materials unless the finish color ordered is Natural. Must be ordered as a separate quart and specified as clear top coat. Clear top coat is not needed with a paint-only color. • Not available for amounts less than one quart. • Some components may only be able to ship through common carrier such as UPS. Hazardous Material charges apply when shipped via common carrier. For finishes requiring multiple components, each component must be packaged separately and incur separate Haz-Mat shipping fees when applicable. • NOTE: Multiple materials may be used to achieve the end finish color and may require a variety of application techniques. Please reference the pages for Finish Process Information and Field Application of Finishes located in the Introduction of the product catalog. The materials provided are the same as those used in the factory setting and require the use of HVLP spray gun technology for application. Finish is to be applied by someone that is qualified. 		
SPRAY CAN OF PAINT	SPRAYCAN	
<ul style="list-style-type: none"> • 4oz. spray can of paint. Estimated coverage of 5-7 sq ft per can, depending on film build. This item is available for painted finishes only with the exception of White, White with Gray Glaze, and White with Wheat Glaze. If the finish requires a glaze, a separate bottle of glaze will be included. Clear top coat is required to "seal" the glaze and is not included. Finish is to be applied by someone that is qualified.

Custom Quotes

Brighton Cabinetry is not limited to offering only the products and modifications shown within this product catalog. A quote for non-catalog items can be requested by following our Custom Unit and Modification Quote Process outlined on the following page.

Quotes are processed as first in / first out. Please allow five business days for the typical quote process time. While Brighton strives to return quotes promptly, custom items require that specific details are worked out to achieve the most accurate design and pricing ahead of placing an actual order. Due to the nature of custom items, a vendor may require Brighton to obtain a quote of a component, as well, affecting the overall turnaround time of the quote to the designer. Your patience is greatly appreciated during this process.

Custom quotes are valid for 60 days from the date listed on the quote and are based on Brighton's current pricing. Quoted items ordered after the 60 day period has expired are subject to requote. This may affect the original quoted price and/or construction. Quoted items are subject to extended production lead times. Brighton Cabinetry is not responsible for the lead time of outsourced items required to complete the production of a custom quoted item in our factory. Any extended lead times can affect the shipment of the entire order that contains a custom quoted product.

Brighton reserves the right to require a quote when an order is placed with a customized item that falls outside the range of our standard product offerings. Be aware this will cause a delay in the order lead time. To ensure a smooth flow through our order entry process and to avoid delays, please have a quote finalized and approved prior to placing your actual order. A quote will not be considered finalized if any detail is modified on the customized item by the designer and that change has not been submitted to Brighton as a revision prior to placing the actual order.

Any concept provided by Brighton Cabinetry becomes our intellectual property and may be reused at our discretion, in part or as a whole, without the permission of the designer that submitted the custom request.

Brighton Cabinetry Custom Unit and Modification Quote Process

Brighton Cabinetry has developed a specific process designed for Custom Units and Modifications (any cabinet, accessory, or modification not included in our catalog). Following these steps should ensure that customers receive exactly what they anticipate.

1. Detailed information from the designer/salesperson is necessary for Brighton to provide a quote, prior to receiving the order. (customer name, dimensioned drawings, species, overlay, finish color, door style, drawer front style, etc.) The best way for this information to be communicated efficiently is by using the Quote Request Form found on pages 3-4 in this section of our catalog. ****Please remember to check the box at the top of the form for the specific quote type.****
2. Please send all quotes via e-mail, directly to quotes@brightoncabinetry.com. Otherwise, you may fax quotes to (217)895-3005, marked ATTN: Quotes Dept. at the top of the page. *(Note: The scale and proportion of drawings that are faxed can be compromised during fax transmission. Email is the preferred method when submitting quote requests.)*
3. A Quote Number will be assigned by Brighton to each unit to be quoted.
4. If necessary, our design team will go over the quote and decide what materials and construction methods will be used.
5. Once a plan has been approved, a CAD drawing, specifications, and pricing will be developed for each unit. Pricing for the quoted items will not include Specie, Stain, or Overlay upcharges. This is due to the pricing structure of the 2020 Design software which will automatically calculate those percentages from the List price of the quote entered into the program.
6. When the specifications are complete, a copy of the finalized quote will be emailed to the designer/salesperson for approval. It is the designer/salesperson's responsibility to ensure all details are specified correctly on the returned quote prior to placing the order for the quoted item.
7. If changes are to be made to the quote, now is the time. Make the appropriate changes on the quote received. Once all changes have been made, resubmit the CAD drawing with the correct changes annotated. (If changes are not made at this time, it could result in a delayed lead time of the order containing the quoted item, and/or incurred price increases.)
8. The changes will be updated to the existing quote and an updated CAD drawing with the changes will be returned to the salesperson for approval.
9. When ordering the quoted item, the appropriate custom product must be picked in 2020 Design from the drag-and-drop list and the salesperson must reference the corresponding quote number for each item. Enter the price from the quote for this product into 2020 Design. Also include a signed copy of the quote for Brighton's production paperwork.
10. During the order entry process we will pull the file referenced by the quoted number and process the custom item accordingly.
11. There will be a minimum of 1 day lead time on a quote. Our goal is to return a quote within 5 days from receiving the quote from the designer.

Household Storage and Organization

Over the years, Brighton Cabinetry has offered a variety of accessories that add value to your cabinets. We have access to a wide range of well known suppliers in the cabinet industry. Among those brands are Hafele, Stanisci, Century Components, Broan, Rev-A-Shelf, Enkeboll, Blum, plus many others. While you will find a number of enhancements throughout our catalog, there are still many items not specifically listed here. Please feel free to submit a quote on any accessory for your cabinet that you do not see within our pages. You may also contact our customer service department with any questions regarding accessory products.
